

The Gift of Glitter

I went around my dorm asking my peers. What do you think of when you see glitter. Crystal said when I see glitter it makes me happy. I think of festive, events and fierceness. Crystal also replied it can be messy without proper control during the use of it. Another peer said I think of glamour, sparkly, happy, pretty and shining.

For me glitter means creativity. Because it can be used so many ways. Whether it's through words or through the sparkling colors we use ~~in~~ many ways. The actual definition states 1. A sparkling or glistening light. 2. Brilliant or showy, often superficial attractiveness. 3. Small pieces of light-reflecting decorative material. 4. a. To sparkle brilliantly; glisten. b. To sparkle coldly or malevolently. 5. To be brilliantly, often deceptive attractive.

So glitter has all the attributes about it. So which gift of Glitter fits you as a viewer? For myself, as I said before it means creativity in my life. When I ~~seen~~ see any color of glitter. I think now how can this color be used? Is this the perfect moment? Basically glitter created new opportunities to be explored.

For instance, purple, gold, black and white ~~is~~ pretty together. These are my school. A birthday party for one of my classmate. See the opportunities with these colors. It set the mood for these important moments. When I think of a wedding turquoise and pretty purple. Glitter in these colors on the cake etc.

Creativity with control of the glitter make things happen that would end up beautiful. When the glitter is ~~is~~

used in a unique way. It cause things to be brilliant or showy, often superficial attractiveness. Just for that reason people are drawn to events or individuals who ~~were~~ wears glitter.

So you see the Gift of Glitter can be used in many creative ways. But now I want to even bring the Gift of Glitter to a whole new level in my life. For myself this year 2022. I want to take my Gift of Glitter in my life to whole new creativity in every area of my life. I want the color of Green glitter which the color green ^{means} prosperity. I want to be prosperous in every area of life.

So what color is important to you? What does it means to you? why? Pause think the Gift of Glitter.
