

The turkey without the gobble

For the people who are familiar with turkeys. How is a male turkey known? By its ~~gobble~~ gobble which is gluttural chortling sound. Could you imagine no sound coming out of the male turkey when that is what we are used to. This is what's going on with our Democrats. Everytime they try to pass a bill. Here comes the gobblers Stealers the ~~kept~~ Republicans with a filibuster. Trying to stall ~~ing~~ the bill from getting passed. Which the blinded cock ~~is~~ sure Republican swear they have all the voters interest at the forefront. If that was the case everything to help the American people they find every excuse to why the bill shouldn't go through. This is for the Republican parties. If you are not going to help the American people why are you in office to get a pay check or it looks good on your part.

Because of the Division in our government. Mainly on the Republican side ~~the~~ The voters are tired of the no effort between Democrats / Republicans / CDC / Doctors / ~~the~~ ^{COV-19} ~~concerns~~ / variant / ^{laws} / abortion / ^{voter rights} / guns laws / prison reform. When you get exhausted as voter, you don't know what to do. Some feel like they shouldn't do nothing. Voting should be exciting not a oppression. I heard the argument on the news. Undocumented immigrants shouldn't be ~~voted~~ voting. By gathering, they should because they are some of our frontline workers in these hospital, EMT, firefighters, military etc. Saving our lives. How ~~can~~ ^{did} anybody come to that conclusion? For heavens sake when will our Turkey in the government be able gobble with one sound, one voice again.

When things don't go right, we tend to the blame the President or

vice president or Democrats. When fix sure the problems here is the Republicans and as it appears again Donald Trump. Some people should keep their mouths closed. If you're going to put lies up in the atmosphere knowing that some weak minded person is going to believe it.

I would love to see all the turkeys gobbling together in the same direction but we got to get rid of the gobblers stealers out of our government and get rid of this filibuster. Because it's a trick of the enemy. Vote Right, Vote Smart, Let no one oppress you in your voting process. By telling you someone messing with your votes.
