

End Gun Violence

I agree with everything the mayor doing in New York. It is effective because I use to stay in New Jersey. I've seen the undercover in regular clothes operate in a law enforcement setting. Make sure you always have warrants. No knock warrants have been dangerous. Make sure you don't violate people civil rights.

I want to say to all the falling officers my heart goes out to you and ~~we~~ we are praying for you all because your job can be difficult sometimes. I understand what you are going through. ~~My cousin~~ My cousin who worked for a police ~~department~~ in Georgia. He was called to a home evasion. When he got there the suspects shot him. He was left walking with a cane, that ends his career. The job is dangerous. The guys who did it was from Florida. They was not even from around there. So I agree with the mayor of New York this ~~is~~ Ending of Gun Violence has to stop somewhere.
