To Whom It May Concern:

On April 2, 2017, Mr. William Robert Goehler K77832 wrote to the Volunteer Ministers office asking for help. Since then I have been in communication with him 3 to 5 days a week, 28 months of working out a system to help inmates to do these courses.

William asked us for help for his SPO (Scientology Prison Outreach program). William and I are in communication so that we could get sponsors to help inmates do courses. William introduces the courses to the inmates in the Mule Creek State Prison Chapel or when the opportunity presents itself.

To: Ethics Section

'The Problems of Work' book has a video he would show to them in the Chapel. He has other videos he would show them that would help inmates take responsibility for themselves and learn skills to improve their communications and how to help others.

I have been in communication via letters and phone calls with William. He has helped get many inmates to do correspondence courses at our Volunteer Minister Center. He also helped get inmates onto other courses delivered at other Scientology organizations such as 'The Problems of Work'. Enclosed with this Commendation are a list of inmates and the courses they completed due to William's assistance and encouragement. He has always shown to me that he is interested in improving conditions where he is. He wants to help inmates so that when they get released, or not, they know how to help one another. Sometimes an inmate needs a little hands-on assistance to understand the courses and I write him and ask him to help that inmate for that course. He has always made himself available to help a student.

There has never been a time in our communications that he hasn't shown high interest in helping his fellow inmates. I believe he wants people to be happy. He completed the Criminon program over 6 years ago and that course helped him help others. He daily nudges inmates to complete their courses and get them graded so they can learn the data and receive their certificate of completions. He has taken the time to send them directly to me when there has been a mail problem.

He also sent me his Logbook for the time he helped inmates in the Chapel prior to meeting me. He has helped over 180 inmates by introducing them to different books, courses and videos per his logbook.

He has also written to his daughter and offered to help her. I know he writes to friends as well and sends them information on how to improve their lives and handle problems.

I can honestly say, if it were not for William's encouragement to these inmates, and me, the list of completions I am attaching to this letter

To: Ethics Section

would never have happened. It is because of William and only William that I have been able to help these inmates get through these courses.

I believe the knowledge William has acquired will be a plus in whatever job he has inside Mule Creek State Prison and when he gets paroled. He has learned many Organizational skills because of The Problems of Work course. This will enhance his ethics and production on any job. He has the knowledge and willingness to follow work specifications.

I am enclosing copies of inmates' statements regarding Williams help and their Success Stories.

This is true.

Sincerely,

Volunteer Minister
