To Whom It May Concern:

It has been my pleasure to supervise William G and several other inmates through Scientology extension courses.

Their lessons demonstrate that the students are becoming more aware of their responsibilities to their families and communities. They appear to become better people.

William Goehler was the first to tackle Scientology and as a result of his realizations about life, he insisted that other inmates also read the books.

I have been a Scientology supervisor for over 30 years. The lessons from William have been as well articulated and in many cases more thoroughly pursued than any other student I know.

Due to William caring about his fellow inmates and insisting that something should be done about getting Scientology to these men, it is possible for me to assist to make a difference in their lives.

Thank you William.
