Hello newers

I receive my certification for prep cook in culinary arts. By summer I should be graduating with my associate of arts. Its a new semester at ashland university I am excited. For this semester I am taking ~~Arts~~ ART150 which is Arts: idea, Com 120 - foundation of health, English 101 - English Composition I, MGT 307 Organizational Theory & Design. I am having a little bit of technical difficult because my office suite want open it keep saying file not found (I Android/data/com.jpay.latern/my docs path source JPay has flash my player and update my player still my files will not open under PDF - office suite. we are in Tech week prep module. Class don't start until February 07 but they have give us module 1 and 2. I would like to start my work. instead of ~~putting~~ putting trouble tickets in everyday. ~~Even though~~ maybe they have it fixed soon. Don't you all hate when there is technical difficulty. I know I do. When I was a ~~sound~~ sound technician I hated when that happened.
