

## This year is a season of solidarity

Securing the right kind of solidarity can be strong force. I personally define it as moving with a purpose to secure an ideal, place, person or thing. The Webster dictionary states it's a union of interest, purpose or sympathies among members of a group: fellowship of responsibilities and interests. This word simple means action with a purpose. Someone may look at that word say I have a right secure what I want to make solidarity no that is wrong. Example of that would be Putin bombing Ukraine. With this situation, nobody has thought his country and authority. When this first happened, I thought about what uncertainty Russia is facing? Is Putin himself facing uncertainty of some type. You can take this to the bank. I've watched it over and over through leaders. How they react when they are facing ~~and~~ uncertainty. What do you think it is with Putin his person life or the position? When leaders get that uncertainty about themselves. They do not care. The ones they oppose, it's getting ready to be nasty. I ~~never~~ really wanted to believe that Putin didn't have nothing to do with our systems being hacked. into during election etc. The proof is in the pudding. Our snake has poked his whole head out. With ~~the~~ the venom spreading. I sat and thought about the attack Ukraine I prayed about it. Say you walked up on a snake pit. ~~There are baby snakes and adult snakes~~ The adult and baby snakes are their. Adult snakes sense you are there. They begin to crawl out of the hole ready to attack. Would you kill only the adult snakes and leave the babies to live. Or would you kill all them. Think you these are ~~poisonous~~ snakes. I survey some people to get their ideas. Some said they will kill them all. I said even the baby snakes. My surveyer said most definitely some of the babies are more poison than the adults. I was like wow. My answer to the argument is I would have killed them all. Cause the babies can grow up to be dangerous as well. The way I see Russia invade Ukraine. Putin is the python. He has sent his babies into Ukraine to destroy them. Everybody is talking about this invasion. There is war going on in Ukraine. Russian snakes all in the air and on the ground. Why the Python sits in comfort giving orders. While every day the Ukraine people is suffering. It time for this foolishness to stop. Why haven't

The military went after Putin. Bumpsetting around talking about it, your going to let the python live to continue to do ~~hor~~ horrific war crimes. Why haven't the man been arrested? I sympathize with Ukraine people, I've also been praying for them. People that whole situation is sad and certainly wrong. What if this was the Russia people having the problem? They would want to somebody to help them. But instead I heard the Russian people is saying the fake news about what is happening Ukraine. ~~The~~ These individual has been brain washed by Donald Trump the populist, you see that is ~~what~~ the problem with the Russian people and their leader Putin. ~~The~~ Trump was ~~the~~ their guy. He wouldn't sanction them. Everybody was considered friend to each ~~other~~ other. Now we got a new sheriff in town name President Biden. They don't like it. He will show them no this is not how we going to do things. So they went after Ukraine hoping we would get in it. President Biden did the right thing. There are more ways to fight. Remember this, a battle cannot be won until you uproot what caused it. Many of these battle has ~~come~~ came to surface as a result from the past President Trump. He planted a seed in people that contributed to wrong ~~beliefs~~ belief. Everytime I hear election fraud or fake news, I cringe because that is a ~~belief~~ belief started by Trump. There has been investigation concerning our election. all claims that the election was fraud, was false. Our journalist and news report does great jobs risking their lives just to get us the stories going on. I am speaking to the people who are still on that Donald Trump bull crap. Today we going to turn around these negative people mindset. Here is a food for thought, the mouth can be used either as a ~~weapon~~ weapon or a tool, hurting relationships or building up. ~~Person~~ Sadly, it is often easier to destroy than to build, and most people have received more destructive comments than those that buildup. Every person you meet today is either a demolition site or a construction opportunity. Your words will make a difference, will they be weapons for destruction or tools for construction? I would choose tools for construction because it's fruit for secure solidarity. I want to speak things that brings life to a person spirit. Why we on that note, sometime I am silent on my blog for a reason. I believe in praying before I speak. That way I can talk on important point that will overtake you with good. Whether its something you need or just need to know about

about something in general. I believe there is a season for everything. For one it maybe their summertime in their life where they are so happy. Another person it maybe your fall where there is no heat and it's cool. You almost got the job, only to find the answer is no. Then they maybe somebody in their winter season. Where you lost everything. Don't have no money to pay bills. It's seem like everything is frozen up on you. So much till you don't know who to turn to or where to go. My final person is in their spring season where you only see a little bit in your life. You made a couple of bucks but it was enough. This person is waiting on their summer to come. Everyone has their season of something. How do you find this secured solidarity in your ~~life~~ <sup>in</sup> life. It could be a job, finances, relationships or just to be happy. You know what that something is in your life. People it's time to get your groove back. People in this world has lost their mojo in innovation and creativity ~~in~~ in life. This ~~is~~ is not just for the business arena. There are other areas you can be innovated and creative in. For myself I am innovated and creative when it comes to music, fashion, relationships with family and my mate. I love creativity in ~~the~~ writing and cooking. My taste is very sharp when it comes to being adventurous and create new ideas. Most people call me a visionary. I get an idea in my brain I jump out not knowing the outcome. This is type of securing solidarity. What other ways solidarity can be secure. Who you vote for in the elections. This will secure solidarity relationship ~~to~~ in our government, if the proper people are voted into office. Here is where we are at fault. We got to stop playing emotional roulette when it comes to political arena. One minute we don't want President Biden as a president. Everytime you look around the rating is going down. For the reason everybody want what they think is best. I have been in a leadership position. As a leader you have to think about a lot of things and solve problems etc. Some things may not be in the American best interests as to why President Biden don't move in on. If you have not been in a leadership, you will never understand how leadership operates and what should be done. If I surveyed 100 people, asking them three questions: 'What is ~~the~~ a leader? What is leadership? How does they suppose to operate in their position? Would you know? A ~~lead~~ leader is one who leads a political party in this situation. Leadership has the capacity or ability to lead. This is one of those securing solidarity leadership ~~has~~ had the capacity or ability to lead. ~~Something was beyond the control~~

Since President Biden is our president. There are standard procedure and ~~politics~~ policies in place that he has to abide by. It be nice if people would respect that the President can't do everything for us. I said this many times and went into details. We have some people out there still blaming everything on President Biden. Nevertheless, I say that President has secured solidarity in the White House 4 more years in my book. He has done a good job as a leader even ~~the~~ with stuff people don't want to give him credit for. Something was beyond his control he couldn't do anything about. As a leader you don't worry about being popular with people. Cause at the end of the day you have to do what is best for that moment and think about the long term effect of your decisions. Tho has been President Biden. He has also surrounded himself with excellent staff and advisors. Tho his motto listen to their expertise. Tho is what a good leader needs and uses wise advisors. One person's perspective and understanding is severely limited; he or she may not have all the facts or maybe blinded by bias, emotions or wrong impressions. To be a wise leader at home, at church or at work, seek the counsel of others and be open to their advice. Then after considering all the facts, make your decision. Our President Joe Biden has done all that. He deserve another chance in our White House. Many have criticize him and vice President Harris on every end. I want to speak to them people. For instance he was criticized about withdrawing the troops. I am sure he consulted with the military General before he made any move. Some of our ~~soldiers~~ soldiers has done majority of their laid on the military overseas. Is that fair to them and their families (es) absolutely not. yes they signed up for the job. But not to spend just spend majority of their duty overseas. President Biden came in office seek his advisors of what to do. He moved exit. I am a daughter of a military dad. alot of my family on my dad side has been ~~in~~ served in some type of military. Some of these soldiers hasn't gotten that chance to enjoy their family for long periods of time. I am glad that President Biden brought our troops home. It's time for innovation and creativity in our government. Biden brings newness and ideas that other Presidents' would have never thought about. Between President Biden and Obama they have been the most innovated and creative presidents' I have ever seen since, I been on this earth. These ~~people~~ <sup>President</sup> has broke through barriers that other president couldn't do. President Biden, vice President ~~and~~ Harris and team keep up the good work. Let all your nay sayer be your motivators. Lets turn our attention to the election in Georgia.

The state has always had majority of white men in offices. We need innovation and creativity in Georgia in our Governor's office. I believe Stacey Abram would bring that to our ~~Government~~ Governor's office. Not because she is African American before somebody misquote me. Everywhere they should be diverse in position. We had this discuss before Stacey Abram has something on the inside of her, that can change the whole state of Georgia around for the better. She surrounds herself with advisors who helps her. She is a woman of prayer, she same as our president. When you find people like this they care about people from the bottom of their heart. They are sincere about their job. They are people in the state of Georgia that can never be reached. ~~It is not the people that by other governments.~~ These are the voters that been waiting on ~~the~~ somebody like Stacey Abram to come. There is a shifting going on in the atmosphere. Great things are going to happen if you leave Biden, Wernock, Osoff, vice President Harris, and vote Stacey in office, leave ~~the~~ Nancy Pelosi in ~~the~~ her office. This is going to be a powerful force in our government. We going to see barriers broken and fresh ~~new~~ ideas to help us like never before. God is doing something new in the land.
