

(TABLETS INSIDE)

I have yet to see the Department of Corrections do any thing that makes sense. I have lived in this cell pool for over thirty years. But now I see the first thing that they made good by thier claim to rehabilitation. They have actually issued us tablets that have limited acttion to the web. We have our own phones that we can use within our cells. I know isn't that crazy. The system actually did something right.

I never thought I would see the day when they would actualy try rehabilitation practices. They used to use violence to curb us into submission. Maybe there is light at the end of the tunnel.

I WILL GO TO THE PAROLE BOARD IN JULY. I KNOW THAT THERE IS NO CHANCE THAT I WILL BE GIVEN A PAROLE DATE. AS I HAVE WAY TOO MANY WRITE UPS. THEY REALLY LOOK TO SEE IF ONE STAYS DISPLINARY FREE. I DID MANY WRITE UPS.
