"HUMAN HELL"

Man has done such a great job at creating hell on earth in the form of solitary confinement. I was just standing in the center of my 9 by 7.....63 square foot of hell that this great nation created for me. Yes created for me until they decide to murder me by what ever twisted method they decide is acceptable. And I stood there just looking at everything that's wrong with this and thought, America is one sick twisted hypothetical country that has its head shoved so far up its butt that it can't see or smell the stench that comes out of it!! Am I mad? Can you tell? When you wake up in this type of man made hell every morning and wonder what the hell is society thinking! Well its enough to frustrate the most sane individual there is. And well me.... ha ha ha haGod 32 years in a cage. And had I bowed down and accepted the deal that they offered me, well I would have been back on the street in 2016 and living a normal life right now. But because I wouldn't bend they decided we will place you in solitary confinement for 30 plus years drive you crazy and maybe murder you. Or we may just let you die in your little cage of natural causes. And if that's not bad enough to have to deal with every day that I wake up..... well my codefendant and child hood friend who made all the decisions in this man's death and shot the man, has been out there living his life for the past 22 year's. Well from what I hear he should have been back in prison several times for beating up his girlfriend and then molesting a 15 year old girl getting her pregnant. So not only do I sit here dealing with the harmful side effect's of solitary confinement. Which is outright torturous! But then I have all that to think about that every day that I wake up in this man made hell hole! And let's not forget that I and my family are bought sold and traded on the U.S. stock market. Yes we've got contractor's such as Aramark, Keefe Corp. and let's not forget the best of all, "Jpay" who are profiting off of our enslavement. Our State Government just sells us to the highest bidder. Not the best product's or service's but the highest bidder. So yes I get to sit here in my little piece of hell and think about that every day. A 21st century slave market. My loved ones can't send me shoes, socks, underwear, tee shirts, soaps shampoo, deodorant etc etc. No they can't send anything other than money to purchases these marked up items. And to send money they've got to pay Jpay. And for me to spend the money, I've got to pay a service charge. Anyone who thinks this is right, (outside of those profiting off these stocks) needs a psychological evaluation. And on top of all of this I have to deal with the daily psychological games that the administration enjoys playing. And God do they love to play them! Yes instead of having compassion for us, trying to make life better and easier. They try to make it more difficult. Everything from our loved ones seeing or communicating with us to the most simple task of getting a roll of toilet paper or just getting a good night sleep where the light isn't shining in your eyes all night. Yes this administration is just so mentally messed up that even officer's are leaving. lol So its not just the inmates who are effected by what's going on here, no even staff are finding it difficult to exist in this messed up environment for 16 hours a day. And we have legislators who are turning a blind eye and deaf ear to the problems that exist. In fact their creating more problems with bad Bill's and Law's and bad appointments such as FDOC Secretary Ricky Dixon. I mean come on he took a dump sugarcoated it and served it to the Senate committee who ate that crap up. And now all of a sudden Aramark Corporation and Keefe Corporation is right back in the FDOC. What's the relevancy? Well both of these Corporations was issuing kickbacks to Secretary James V.

Crosby Jr. who was sent to federal prison in 2006. And a man who was friend's with Ricky Dixon's father Jerry Dixon. So seems to be history repeating itself. And America sees no evil, hears no evil, speaks no evil. And I'm the bad one? Get your head out of your butt! Yes I'm disgusted with America its judicial system and these 21st century slave markets, and the slave plantations created under the false concept of justice!

Regretfully submitted Ronald W. Clark Jr.
