"THE U.S. SUPREME COURT AND ITS FRAUDULENT RULING"

Our U.S. Supreme Court is nothing more than politicians in robes. And Mondays ruling in Shinn v. Ramirez where this U.S. Supreme Court overturned established case law. Yes it was the law of the land. And these established laws were put in place to protect the wrongly convicted, who had fallen through the cracks of this broken legal system. And these Justices who overturned this legal precedent, well they stood before our U.S. Senate and the American people and lied to our face, saying they respected legal precedent and would not overturn established laws of the land. And what they just did in this Shinn v. Ramirez ruling, just shows that they don't give a damn about innocent people who fall through the cracks of this broken legal system due to ineffective assistance of counsel. So if your convicted due to ineffective assistance of counsel and your appeal attorneys mess up your appeals because he/she is drunk. Well you pay the price with your life. That's the justice system you want? Well that's the injustice system you now have thanks to these lying two face right wing Conservative Justices who stood before the American people and told a bold face lie!! It shows that their nothing more than a bunch of lying politicians in a rob who will say and do anything to reach that position of power. These scumbags lied and manipulated their way into the highest Court of the land. And you may not like what I say here. I mean the truth often hurts and stings like hell! And this should sting because its the brutal truth about our U.S. Supreme Court Justices who's turned that Court into a political arena. I'm sure their proud of themselves and their sick twisted demented ways of seeing things through the eyes of rich white privileged America. May God have mercy!

Regretfully Submitted Ronald W. Clark Jr. #812974
