

## Texas School Shooting

On Tuesday May 24, 2022 a 18 year old shooter with an AR 15 went into Robb Elementary school killed 19 children and 2 adults. The response time for the law enforcement to get their on school resource officers to do anything was ridiculous 1 hour and 20 minutes. Could you imagine the teacher these babies and teachers went through. Now on the other side of the United States another mass shoot in Buffalo, NY. They reported the individual sat in his car for hours before actually did anything. All both of these situations could have been prevented. Gun violence is an issue. But what is the true issues here. We have moral ~~problems~~, ethical and problem solving ~~issues~~ morally. We don't care any more about conforming to standards of what is right or just in behavior. in our communities, on the jobs and apparently in the schools. Resource officers why didn't have your radios, why the delay in helping these innocent children and teachers, if we done had all these shooting at other school some cases some people got into the school. Why was it so easy for this 18 year old gun ~~man~~ man to enter into those doors. Why wasn't locked? There is not recess going on. I been had that question why isn't the door of the school locked in the first place to prevent things like this from happening. There are ~~ways~~ intercom and a buzz knob could be place on the door or the wall beside the door way that will reach the principle office or the resource officer to let them know there is some out there through a ~~new~~ surveillance camera. We are living in different times that is caused for desperate measures. This what trips me out. When something happen, all kinds of we need to do this or out something into action. Such as a dangerous inmate escape near a school, the school automatically goes on a lock down. Why not have those doors lock prior before anything happen. We all know the times we are living in why not have the prevent spirit before. The mass shooting in Buffalo, NY. If someone seen a suspicious person in the parking lot for hours. Why didn't nobody call the ~~authority~~ authorities. If someone scene someone in a neighbor, store or etc too long they would call the law enforcement back in the day. What is going on with the eyes in the communities. Oh I know what is, I am not going to get involved. Our behavior of the way we think America has got to change. Everytime a happenstance happen it could have been prevented.

NRA. That the CEO and COO has become blinded by wealth and not people lives. As leaders of this company. From a stand point of ethical behavior in the company. you're not concerned about the gun violence and who is purchasing these weapons. If I was the CEO and COO the NRA. I would want my sells to be high but I would make sure the guns going into the right hands from my company.

Everything that happen could reflect back on ~~my~~ my product. Behavioral in a organization is very important especially with what the manager allow and the decision making process. By NRA having this convention is letting everyone know you don't care about who is getting killed. 19 innocent children lost their lives and 2 adults. I am sadden with the message NRA is sending out. Unless this is where most of the company sell are coming from through AR-15 and assault <sup>AK</sup> weapons and magazines. which I feel nobody needs to own those types of weapon they are inhuman even an animal don't deserve to be killed with AR-15 or any assault weapon. Sometimes when people get rich and well off they get greedy in the process. All they want is their product keep bring them that money no matter who gets hurt in the process. I want to speak to the NRA, CEO and COO ~~Everything~~ unethical going on ~~in~~ in your company and that I don't care about human is going to come back on you. It may be a, day, month or year. God sees everything ~~or~~ including what is in your heart. you might not have no type of religion but everyone should have a conscious that bothers them when they know they are wrong. I want to leave the CEO and COO NRA with a food for thought. Despite overwhelming evidence to the contrary, most people still believe that money brings happiness. Rich people craving greater riches can be caught in an endless cycle that only ends in ruin and destruction. How can you keep away from the love of money? Paul gives some guidelines (1) realize that one day riches will be gone. (2) be content with what you have (3) monitor what you are willing to do to get more money (4) love people more than money

1 Timothy 6:10 Holy Bible.

# Copy CATS Shooters After Mass Shooting

le hunt after shooting in after a juvenile started a fight with others. Again why did this teenager have this gun? Where d. d he get it from? A pawn shop, gun store, off the streets or made it through U2. All this play into the situation. Why do we have gun store selling teenagers guns when they should be 21 years old. The same as buying liquor and cigarettes. Where is the ~~ethical~~ moral reasoning, ethical standards and decision making in our gun stores. You would rather be rich than to care in your ~~communities~~ communities that victims are being killed. Gun store needs a more secure area for those guns to be store at night. Cause some of these guns are coming through robbery (red) and making the Ghost guns through U2. This same goes for U2, where is the moral reasoning your company as well as the ethical standards and decision making. Do you all enjoy when a crime happen are something and you just don't care. My understanding anything you want to do on U2, Kill your self, make drugs, Ghost Guns, how to make a bomb, How to rob and talk pretty much to do anything you want criminally. People where is the integrity in these organizations and cooperations. ~~As~~ AS a CEO and COO you should want your business to prosper honestly. Not through ill gain. It's become ill gain when you all anything to go on with your business that is not legal. That search engine should have a red cap button to recognize and stop illegal activities from happen and if someone talking about crime they ~~don't~~ are about to commit automatically the website should alert the police and Sheriff Department. From their the cap alert should give identification and location of the suspect where they heard to. Someone in that station should be guiding the patrol man where they need to go and direction to keep going. This cap alert should be able to alert identification off the rip because internet ~~status~~ status. We got the amber alert, we have things in place for the kids but over the internet but what about people as a whole in your community. Every secluded area, parks, etc should have surveillance to stop all this unnecessary killing and making hard for innocent people live their lives in peace. This is part of the ~~infrastructure~~ infrastructure money that given to these communities. This is not legislative fix. This It is a local government fix. That what you want

appoint for Mayors, Senator, Governors. Everyone pointing finger fingers at legislator. What about the local government. It is the FBI, GBI, Sheriff, police, DEA etc job to get these guns off the streets and local businesses to ~~do~~ do the right thing when selling guns. As well for the people job in the community to report irradic behavior when they see it in ~~the~~. It's internet vendor job to make the internet fun to use, ~~to~~ find <sup>productive</sup> ~~productivity~~ information that can be use in the right way. Because we are social being but need the right information that will help people not send them to commit crimes. Because the world is in the hands of internet vendor. It their job to make our lives safe and prosperous as well care about our well being. Another final thought on the internet service. If Americans do a full back ground check for employee and check ~~the~~ <sup>their</sup> social media for certain jobs. Why are we not doing that for the one who wants AR-15 or any assault ~~it~~ weapon at the age of 14 for some states and 18 for the ~~other~~ <sup>other</sup> states. Where is the ~~moral in this~~ ~~moral reasoning~~ in this moral reasoning in this. Their ~~has~~ to be changes so their want be no copy cats.
