Re: New Mailing Rules of N.C. D.P.S. division of Prisons
Date: May 10th, 2022

Greetings to All,

So long it has been since my last true entry to this blog, and I am remorse, for this blog was created by the compassion of others to give people as myself a voice. For being incarcerated can sometimes limit the avenues in which one might reach the outside world, and if one is known for activism of any sort, as has differing opinions to those of what some might determine to be normal ideas, and or ideologies per se, then we are censored on every level. Even if they aren't labeled under any of the often erroneously stated Security threat groups.

My own experience has left me quite traumatized at times due to mail from my children all but vanishing into the abyss. Especially with the new mail rules which has N.C. prisoner mail actually sent to the state of Maryland. The system called Textbehind.

If you wish to download the app itself it is free - but! To actually send electronic mail, pictures, etc... it can cost up to .90¢ plus .25¢ per picture if more than (4) photos are included. If one chooses not to use the app, and to send their actual hand written letters to the address above, then it can take up to 10-14 days before a prisoner receives their mail. And all letters must be addressed exactly as above.

Now if you happen to be Trans-gender female here at AMCI #4680 as I am, or have been both wrongly and illegally labelled under some Security threat group, then you are likely to never see your mail period! Whether sent via electronic mail to the Textbehind app or snail mail to the address above.

I wrote a grievance concerning this when my daughters both sent me some mail and it never arrived. These letters were sent electronically to Textbehind; they were charged .90¢ per letter, and even though they were told I'd receive the letters the next day, I never did. The grievance which was picked up by %o Home and allegedly given to Sgt. Jones was never answered and never seen again.

However, Warden Nuneycutt (whom was acting Warden) at that time, answered a request two weeks later, sending me (3) letters from my daughters and said no one was holding my mail. That I

Three

may have not received my mail, but no one was holding it. If this is true and no one was holding my mail, then where in the world did these letters come from? How did he come to be in possession of them?

The same with photo copies of my Art work; Lt. Farthing at Warden Hurreycutt deliberately and without just cause seized these copies of animated prog, and anime, and big eye art. Yet at the same time allowed S&G inmates, and pedophiles receive photos of young girls barely 18 years old, and with very little clothes on. So tell me - when does animated prog, big eye anime etc... become a security threat? Yet barely legal, nearly nude photos of young women are allowed to be received by pedophiles and rapist alike; inciting their sexual desires which often leads to prison rapes.

However, as I said I am a Transgender-female here and the staff openly discriminates against us without any thought of being punished for their unethical and unprofessional conduct. The staff here are hardly ever punished or reprimanded for anything due to the Buddy System in play! They keep all violations out of Raleigh's eyes - The Division of Prisons in Raleigh, NC. And so the abuse and discrimination continues un-answered for.

Civil Rights here are laughed at! If you're Black or LGBTQ+ you are treated as second class non-relevant people.
