Moral Novella

1. The leerjet landed at the Ford city Airport , the motorcade of black cadlliliac's pulled up to the steps as soon as the

jet came to a stop . The door open and a woman of mix complexion start down the steps , followed by a man of

same features , followed by , two other men who carry glock 50 hand guns in unconcealed display.

The men and women who had emerged from the front and rear cars of the motorcade stand guard with the newest model

of the Israeli micro-uzi gun , issued only to Masad commandos ; they entered the cars and pull out to Chicago's night .

sometime later , a black custom agent walk from the building to a parked SUV by the apron , he open the hatch back

revealing a black luggage bag of the uhuru name brand , unzipping it , to his point of view , stacks of money in plastic

wraps .

CHAPTER ONE : The Nature of Greed.

1. October 2nd, 2026 . taskforce one operation bugs , of operation , " Global Brown ' , pick up a discussion between two

well known Accadda family members . [' My uncle in Italy called, they heard about the raako' news story , said he's

interested because the news stations over there claiming one of the girls was some kinda princess or something ,

old barber bloodline back to the meds, He's looking into it , said he'll let me know if its something that we should look'into .]

2. agent in charge , Carl Sanders listened to the taps later on and ordered that Washington be briefed immediately.

" we need to get back ground on this incident, then this girl , find out exactly what the foreign press are saying in

both Italy and France . " " that's contingent on this is real and not some coded discussion .'

Agent Lindsey Walker , head analysts of operation ,and second in charge of the operation chain in : " I recall reading some

inter- agency combined taskforce reports from the DEA talking about some bad heron being the source of a series of rape

and murders of college students at various universities and colleges through the city of Chicago . ' The raako ' situation

could mean Morocco , three of the girls killed by one of the gangs selling heron were from Egypt , Dubai' and Morocco .

they were all friends and came from wealthy families ."

Carl : " How the hell they get caught up in to the smack gang , don't tell me they come over here and start using it ??? .

Lindsey : ' NO, the girls were doing inner-city community work when some gang violence between south side coalition and

some other group that has not been identified .

Carl : " and when did this happen ? ;

Bout' a year ago " , say's Lindsey .

Carl : you and that photographic mind , what else do you recall , ?

Linsey : " well , I'm not certain yet , I will have to fact check some things , but when he say ,
" old bloodline , Barb'er(barber)

bloodline back to the meds , " when I was in school I read a few books about the Medici
bloodlines and there was evidence

that a Medici Princess was of African blood. do to the racism of that time , one of her
daughter's escaped the blood wash ,

to erase the African bloodline , by Hijra to Africa , and protected by both the Ethiopian and
Moroccan Prince's of that time .

Lindsey paused for dramatic effect , she already knew the next three questions to be
asked and answered , everyone in the

conference room , knew she was ' The Brain ' , in the room and the only real reason she was
not in charge of the Global

operation / taskforce , was one: she was a woman , two she took no shit from anyone , even
the fuckup's in Washington ,

as she frequently called them .

Carl : " those this bloodline still exist ? and what is know of them ?

Lindsey : " Most of the girls of the bloodline married the Prince's of the Moroccan Royal
family and a few emir's from

emirates , the boys became Islamic Ulama of the Shafi school of Islam , the family has
stayed neutral in political and

other global matters , staying in the academic fields of Islam . with the exception of
denouncing All forms of Terrorism. "

Carl : " thank God for that , the last thing we need is terrorist going to war with the
Mafia in American streets , ...

though , it would definitely eliminate mafiosi crime . " " Lindsey do your
thang , and find out if the Moroccan Girl

was part of the Moroccan-Medici ; You wouldn't Happen to have her name in that Hafiz mind of yours ???

The one thing that Lindsey liked about Carl was that He was a victims champion , the people victimized by crime were

real people and they had names , they are more than numbers on the paper . "

Lindsey : the one from Egypt name was Namim kadija Akbar , the Arabian was Aisha Hamza , and Barahkah rahim

Medicini .

Carl : " I'll just call her by the Medici name . ' " can we be certain these girls were not smuggling for the SSC ?

there is a Heron pipeline in Morocco .

Lindsey : " it's highly unlikely , the SSC dope houses have been shut down numerous times by the Uhuru project ,

the girls were volunteering for Uhuru , who are former gang members who now advocate revolutionary philosophy as

expounded by George Jackson in the 60's " . this was one of the reasons why she knew he was an idiot , if she had suspected,

or had evidence of the girls smuggling , surely she would have led in with such suspicion , or facts.

this was one of the reasons why she considered taking the open offer to go teach sociology at Chicago state . she was

still young , not married , casually dated , but nothing serious yet . She also wanted to teach 2nd and 3rd grade ,

she loved the curious nature of the young ones . after operation Global Brown is wrapped up she would make the move,

she was certain that she no longer fit in the law enforcement boys club .

3. Zaynab , never used her titles and status for her own personal benefit , and even now in America to personally

bring home the dead body of her daughter , she refused to use the power of the crown . she used money from her

personal overseas accounts to pay the custom agent for privacy and the private investigator's she is hired to

learn what happen to her daughter . The police reports told her nothing , she had copies of them soon as they were filed,

the FBI reports were of the same nature with one exception , the FBI had an informant who disputed the chicago police

theory and belief that the killer's were black , brown or a white street gang war for heron supremacy , the informant told

FBI that the Accadda crime family had paid the Northsiders to hit the black street gang coalition , and that the reason

was not to only control the heron in Illinois , but retaliation for the black gangs bringing and selling heron to white kids ,

-that mean = Italian , Irish and other non black and Latino kids who drive to the ghetto's to buy drugs ;

the informant reported that even though Accadda maffia taxed the heroin coming in to Chicago , and even had direct

receipts from the distribution , the ruling board felt the black gangs were targeting the Accadda kids and four of the

ruling members granddaughters had became addicted to heron and one gotten pimped by a black drug dealer , who has

disappeared , as know one has reported him missing to be declared murdered .

4. The Northsiders out sourced the hits to the Bratva because they did not want the black gangs in the Illinois prisons

to retaliate against Northsiders in the prisons ; to make the hits seem black on black and cause more confusion , the

bratva hit the Uhuru project site too . they knew the three students would be there , they factored in that the heavy

police presents in response to the girls killing would slow the black gangs reply and also weaken them because the

police responding raids and arrest would take guns ,money and their leadership off the street . which was exactly

what the Chicago police did , and as special bonus they did the same to the Uhuru formation .

But they missed the spear , as Nefer-utat Ankh was called . He was the founding member of the Uhuru project , with the

sister merisankh , now his wife. she too was out of town when the police and federal raiders came 3 am .

The informant said the Accadda ruling board was not satisfied with the results , they did not like all the publicity

it caused for the city and without no meaningful results , they told the Northsiders they needed to hit the leader of the

SSC before their contract is deemed fulfilled.

5. Zaynafah hired two investigation firms , to explore the informacy accounts and to produce background reports of all

groups involved , she wanted contrasting investigation , so the one did not know of the other , both firms conduct business

with foreign governments and major corporations around the world , they had agents who were formerly CIA , Massad ,

MI14 , etc.

6. She wanted the first report on the background of the Accadda Mafiosos ; The Accadda Crime Family : named for

what Chicago Mafia call the last of the true Don's . Anthony (Tony) Accado , named Joey Baats by none other then

Al Capone ; when he hit the legendary gangster accidentally in the foot with a baseball bat . to Honor Accado after

he died , the Chicago out fit secretly became the Accadda Familla . they formed a ruling board made up of Don's from

various states the out fit had control in , Michigan , Louisiana , Maine , North Dakota , Mississippi , Hawaii , Minnesota ,

Montana , Wisconsin and Milwaukee , who all reported to Chicago ; Giadda Cantina was reported to be running every-

-thing , he had two under bosses , and a three man consiglieri , but one of them was a woman , who was his older sister ;

she was the one who raised him when their parents died in a car accident . she did not involve her self or remain silent

on most things she did not wish to be involve in , day to day operations she stayed away from , she was a bit of the

historian and moral compass when things affected women , children etc. she opposed the drug money; (and was not

, most likely, part of the call to start the drug war that killed Mina, Zaynafah thought to her self .)

The DEA believed the Accadda share of the heroin trade netted about a Billion dollars globally with Chicago taking

430 Million annually .

" the nature of greed , money Triumph over everything : Not country , nation , family and religion is immune to it's power , the

pirate black beard reportedly said . with 89% of the worlds heroin coming from the golden crescent , Pakistan and

Afghanistan , she was very much conscience of the lure of money and how it brought out the base nature of human beings .

But black beard was wrong in that , money triumphant power was limited , and never lasting . Money leave people with

voids in the heart and money can never fill it , money only could conceal it , bandaid it or allow the people to run from it ,

but in the end , they give up the money or they kill themselves . she was in her late 30s , a savant , educator and

a student of the world ; she saw her sisters and brothers deal with money, power and the politics of the crown .

she knew the nature of greed well . she had wrote thesis on the subject in college ; almost all of the war's that

happened could be viewed as human greed , it played the justification in a lot of selfish decisions people made .

as black beard learned personally , accountability will eventually come , as the cycle of things greed is periodical ,

it loyalty to one master is like a child who set out to capture lightening in a bottle ; it turns the slave in to the hero ,

the servant to the master ; only to start all over again .

7. Giadda Cantina was born in Sicily , but both of his parents were from america , they were fashion designers ;

he was born there because they were there working on a new line for the top houses ; one of Accadda Don's had

bank rolled most of their lines and when they died he took Giadda and his sister Rosa in , bringing them back to the

states and putting them in private school ;
