ABOUT MY BOOK

TITLE: STRIVING TO BE A FAILURE, The Reality of Gangs Jail Cells and Coffins.

My book gives a raw, unfiltered look into the reality of gangs. I wrote my book with the hopes that it reveals the true destructive nature of gangs and deter young people from joining gangs. The gang stories in the book are true, horrible, and disturbing. This was done deliberately, as I want to show our youth precisely what the gang lifestyle is truly about, Death, Prison, and Betrayal!

At the end of each chapter, there is a Chapter Review section; and at the end of the book there is a self Assessment section. These sections are intended to encourage writings and discussions that will help save our young people from a destructive lifestyle.

When my book concludes, it will become evident that joining a gang is the first step to, "STRIVING TO BE A FAILURE."
