

I have a (possible) solution to Global Warming/Climate Change: PUNISH THE MOUTH-BREATHERS!

If you care about the SURVIVAL OF THE HUMAN SPECIES, then you should care about mouth-breathing.

If you don't agree with me, then, you're either a) a climate change denier, or b) a mouth-breather, or c) both.

By "punish" I mean monetarily, and if that does not work, then start throwing them in jail; but mouth-breathing NEEDS TO BE PUNISHED, in some way.

I would be thankful if mouth-breathing were punished.
