

## TYRE NICHOLS

Five Memphis cops, Tadarrius Bean, Demetrius Haley, Desmond Mills Jr., Emmitt Martin & Justin Smith beat to death Tyre Nichols. These bags of dirt were so complacent that they KNEW they were being video'd and didn't care BECAUSE THEY'D DONE THIS BEFORE AND GOTTEN AWAY WITH IT. This is called corruption.

The director of the Tenn. Bureau of "Investigation" David Rausch, said in a statement, "...absolutely appalling. Let me be clear; What happened here does not reflect proper policing. This was wrong. This was criminal."

So let me get this straight, I/we are supposed to believe that it was PURE coincidence that these FIVE cops are the ONLY corrupt cops in that particular precinct?

HELL NO!

In EVERY precinct across the U.S. and quite possibly in the entire world, there is SYSTEMIC CORRUPTION. If a cop is not actually committing a crime, he or she is turning a blind eye to their peers whom ARE committing crimes. This makes those people absolutely complicit.

In order for cops to be held accountable for their crimes, it seems like it has to be on video. Beating a person to death is not the only form of beating someone to death. I am serving 200 years for crimes I DID NOT COMMIT. I too was beat to death, only with me, it was via lies, fabricating evidence and/or manipulation of it to fit THEIR scenarion. If these scummy cops are so flagrant about beating Tyre Nichols to death ON VIDEO, just imagine what they've done with their ink pen and false testimony.

Protesting will NEVER cure this problem. If someone would

allow me to show them my proof of innocence and proof of corruption, this could be a step toward holding accountable the corrupt cops and DA office in Racine that beat me to death.

Why does it take a national outcry in order to mete out justice to corrupt cops and DA's?

Why won't anyone listen to me? Why won't anyone help me?
