

There is a legitimate reason it is unconstitutional to continue to house me in any population at Jefferson City Correctional Center which is why I am in administrative segregation and gravely in need of a "transfer" to another level #5 prison in Missouri to be able to be released to general population at that prison. I am being subjected to an unimpartial tribune (14th Amendment violation to the U.S. Constitution) per *assistant Warden Raina Martin who is using her position to subject me to re-

retaliation (1st amendment violation to the U.S. Constitution) for me exercising my U.S. Constitutional right to access courts against J.C.C.C. previously in: *Drving V. Dormire*, 519 F.3d 441 (8th Cir. 2008) in which Martin was a defendant when she was a caseworker. Martin thus, "denied" the submitted transfer request as a continuing act of retaliation and individual bias against me that had been recommended on 12/6/22 and approved at that time by assistant Warden Craig Crane.

Martin and her nephew Functional Unit Manager Romelle Blackmon have been unconstitutionally circumventing against me since I came back to J.C.C.C. in 2021, and repeatedly tried to place me in harm's reach. "Your help and support is needed per calls / e-mails to lodge complaints in my behalf to ask that Missouri Dept. of Corrections Director Ms. Anne Prescythe 2729 Plaza Drive, P.O. Box 236, Jefferson City, MO. 65102, (573) 751-2389 to direct J.C.C.C. Superintendent * Ms. Doris

Falkenthal to submit and approve me for transfer from J.C.C.C. at next Classification Hearing Committee on 3/27/23 and to appropriately discipline assistant warden Raina Martin and Romelle Blackmon.

Ad infinitum

Oh Christmas isn't splendid
Christmas-in-Summer
W/out ye suspended—
Then, bid me in slumber.

Just t' gift her all, and more...
Present a ring on one knee,
Who'd not! "Find Life with thee galore?"—
Love!, no one else compares t' thee—
