

CALL TO ACTION UPDATE

03-30-23

I previously put out a "Call to Action" requesting getting Tea Tree Oil added to our Commissary, as the BOP refuses to treat nail fungus.

In recent months they have started selling a treatment for nail fungus on Commissary. However, at \$22 - which is more than most inmates are paid from their jobs each month - it's cost prohibitive.

Please consider supporting having Tea Tree Oil added to the other oils sold at Commissary.

Thanks!
