

"KAITLYN: TEAM BLUE EYES"

Hi Baby Girl,

I love you with every fiber of my being. Not one day has passed that I have not thought of you with love and the pain from missing you. My heartstring that is attached to you is made of titanium. I do not know if it is humanly possible for a Father's love for his daughter to be any more intense than mine is for you.

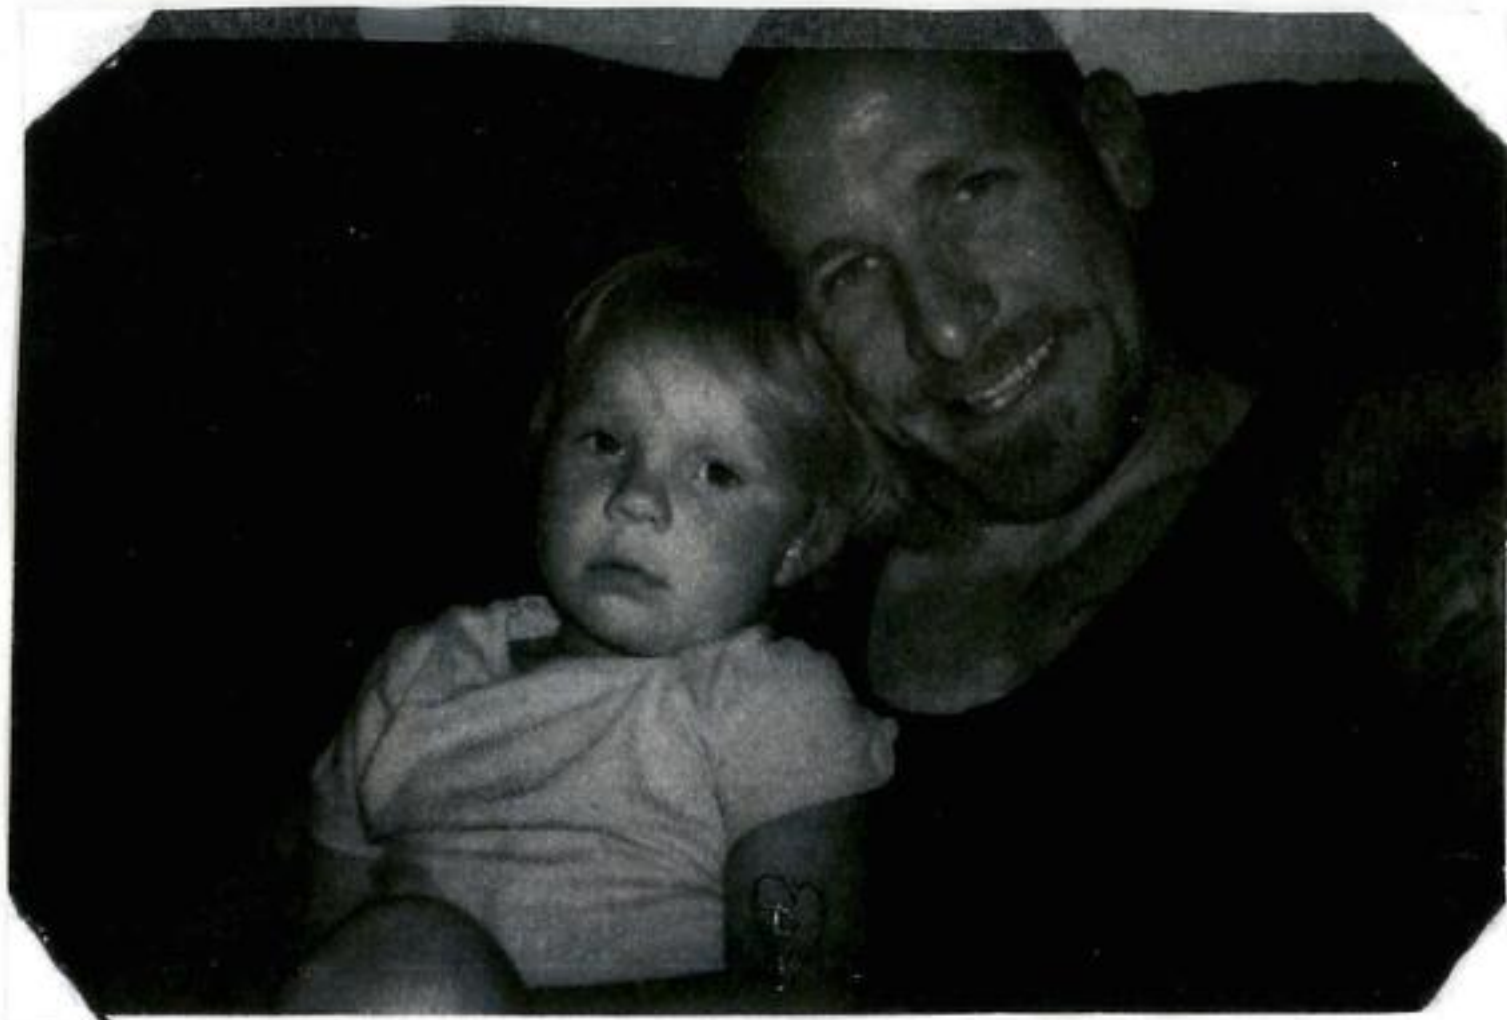

The day before our separation we were in the living room and you spit on Chloe. You were just a baby. Someone taught you that. I said, Mumma, don't spit. That's not good. Go stand in the corner...There wasn't a corner per se, so you stood in the front of the TV. You looked SO incredibly cute, your curly hair bouncing as you walked to the TV and my heart absolutely melted with sheer unadulterated love for you. After TWO SECONDS I said you could get out of the corner. I replay that scene over and over in my mind everyday. I miss you!

It is so strange, this feeling within me, to love someone so much after so many years, knowing that you don't even know me at all. So strange, this feeling, but it doesn't sway my love and missing you. I will leave this life with you and your siblings in my mind and heart. I am here for you. Anytime you need me. I am here. Do you need anything?
