

## Effectiveness in Living

Not about every nation has a State and Local government for a reason. However, some is under a dictatorship and communism. For the ones who do not know what communism is, this where a system of government in which the state controls the economy and a single party holds power, claiming to work toward a social order in which all goods are equally shared. According to the Marxist-Leninist Version of Communist doctrine that advocates the overthrow of Capitalism by the revolution of the proletariat. Who are proletariat people, they are a class of industrial wage earners who must earn their living by selling their labor. Also ~~as~~ these people are the poorest class of working people. In the ancient Roman days these people was property less class constituting the lowest class of citizens. Even though some nation like United States are not under dictatorship and communism. The spirit is reigning in our government. Whether we acknowledge it or not. I reflect back to what I said at the beginning the nations that has a state and local government are there for a reason. I remind <sup>ed</sup> of the nation of Israel how they was organized according to tribes for several reasons. (1.) It was an effective way to manage and govern a large group. (2.) It made dividing the promised land easier. (3.) It was part of their culture and heritage (people were not known by a last name, but by their family, clan and tribe) (4.) It made it easier to keep detailed genealogies and genealogies were the only way to prove membership in God's chosen nation. (5.) It made travel much more efficient. The people followed the tribes ~~and~~ standard (a kind of flag) and thus stayed together and kept from getting lost. They survive under order and structure and stayed. Why can't the Republicans and Democratic do the same in our country? Once again these people followed the tribe's standard (a kind of flag and thus stayed together and kept from getting lost). Unfortunately we don't stand by our flag standard, we don't pull together too long and stand by our flag standard, we don't have lost their way. Especially in our majority US ~~not~~ has lost their way. Especially in our government and communities. (We got to get back to order.)

We have people running for office based off lies and people that are office that are crooks. So many people act like they are not equipped for their jobs. Why do we have issue when it comes to passing the debt amount where it goes? why do we in our government become stalemates so often in this matters. Even in the bible Solomon understood that it was essential to maintain the government's effectiveness; the organization was essential to maintain the government's effectiveness; it was a wise move by a wise man. Solomon was well organized, with 11 chief officials who had specific responsibilities, 12 district governors, and a manager in charge of the district officers. Each person had a specific responsibility or territory to manage. But what if your not equipped, but your pride want ~~you~~ let you make noise about it. What if you say anything about the wrong is happening you will remain in jail or prison. You end up being harassed and retaliated against. You will not get out. You should have kept your mouth closed. Today we call wrong right behind bars or just ignored it all together. When a person do open their, we will set a trap for him or her. They get attitudes oh she talks too much. I am tired of him or her. It's not just people that work at jail or prison. But there are people like that in the world period. They are people like this. It amaze me that people do the correcting government is like this. Proverbs 1:7 The fear of the Lord but they don't want to be corrected. Proverbs 1:7 The fear of the Lord is the beginning of knowledge, but fools despise wisdom and discipline. That is why it is so easy for the staff to get involved ~~in~~ inmates and making money inside the prison. The inmate ~~are~~ inmates and making money inside the prison. Some are rebellion then you have staff member the same way some people are not leader they are meant to follow. Oh Karp got governor in Georgia again and we have a new commissioner over the prison. He is opening another female prison. Oh what about Pulaski State Prison that is terrible under ~~the~~ Staff. Sometimes we don't see a officer at all or for hours no. People are getting hurt over drug debts, they are ~~and~~ knives. Lounds, people are getting sleeping <sup>Their arms with blades in the compound</sup> Ice rooms, Closets, TV rooms - to top it off people are shooting meth, heroin, Now they getting kicked out of their cells shooting fentanyl and doing lines. Having meth parties - many overdose are not reported. People get sick at 12 am in the morning and the phone goes off at 11pm during how do they suppose to get to a staff member to get a medical. Not all dorm phones are not left

Before Doc and governor make their move they need to educate their people on R-2 & C how it looks and what to look for. You will be charging a lot of people for the possession of drugs and doing drug testing. A lot of people will be ~~pos~~ positive. It's amiss up in Putlassi State Prison. You can handle this problem with a know-it-all attitude. Your opinion ~~is~~ ~~not~~ don't matter we need people to do work. I been in ~~the~~ ~~they~~ the system 21 years. I don't know everything but I know what I see and hear. I have had friends that are getting high on dope and method still are. They need help. One of the most annoying ~~people~~ types of people is a Know-it-all, a person who has a dogmatic opinion about everything, is closed to anything new, resents discipline, and refuses to learn. Solomon call this kind of person a fool. Don't be a know-it-all. Instead be open to the advice of others Governor Kump and new commissioners over Georgia Corrections, especially those who are in the environment and can give valuable insight and counsel. Learn how to learn from others. Remember, only God knows it all. It is good stewardship to be well organized. Good organization helps people work together in harmony and ensures that the desired goal will be reached. It's all about having the right resources to get the job done. Just think of your love one was behind the walls would you want them to do or drugs or be selling drugs or subject to harm being done to them? I know I wouldn't. I ask every elect official under the sound of my voice Check your list - Do you desire for someone overdose get killed - their are switchblades(knives) on inmates at this prison. Some of the elected people I am talking to are supposed to be women and men of God. I want you to read 2 Kings 1:1, 13-15 The Lord's judgment on Ahaziah. Because 1 and 2 Kings were originally one book, 2 Kings continues where 1 King ends. The once great nation of Israel was split in two because the people forgot God. The book begins with Elijah, a prophet of God, being carried away to heaven. It ends with the people of Israel and Judah

being taken into captivity. In 1 Kings, the beautiful temple of God was built. In 2 Kings it was desecrated and destroyed. Our world is strikingly similar to the world described in 2 Kings. National and local governments do not seek God, and countries are tormented by war. Many people follow the false gods of technology, materialism, and war. True worship of God is rare on the earth. In our chaotic and corrupt world, we can turn to examples such as David, Elijah, and Elisha, who were devoted to God's high honor and moral law and who brought about renewal and change in their society. More important, we can look to Jesus Christ, the perfect example for nations to do God's will; they need individuals who will do God's work. If your heart is committed to God, he can work through you to accomplish the work he has called you to do. 2 Kings 1:13-15 Moriah how the third captain went to Elijah. Although the first two captains called Elijah "man of God," they were not being genuine—God was not in their hearts. The third captain also called him "man of God," but he humbly begged for mercy. His attitude showed respect for God and his power and saved the lives of his men. Effective living begins with a right attitude toward God. Before religious words come to your mouth, make sure they are from your heart. Let respect, humility, and servanthood characterize your attitude toward God and others.

### Strategy for Effective Living

- Begins with God's wisdom . . . Respecting and appreciating Who God is; reverence and awe toward God
- Requires . . . Moral application . . . Trusting in God and his word. Allowing his word to speak to us personally; being willing to obey
- Requires . . . Practical application . . . Acting on God's direction daily

Results:—Effective living . . . Experiencing what God does with our obedience

Ask yourself should I be in the leadership position and am I truly here to make a difference? Do I am ~~in~~ in the because of my self centredness and want to see and bring destruction to area in my organization or office. Sometimes when the wrong people in leadership: They are so mean nobody want to work with. How do you treat others that work with you? Do they love working with you? Proverbs 10:4 If a ruler's anger rises against you, do not leave your post, calmness can lay great errors to rest. (This proverb has implications for employer/employee relationships. Employee should ride out the temper tantrums of their employer. If we quietly do our work and don't get upset, the employer will probably get over his or her anger and calm down. ~~By~~ Proverbs 10:5-7 Tools are put in many high positions, while the rich occupy the low ones. I have seen slaves on horseback, while princes go on foot like slaves. By describing these circumstances that aren't fair or don't make sense, Solomon is saying that wisdom alone can bring justice. Solomon continues to build to his conclusion that everything we have (from wisdom to tools) is nothing without God. But when uses what little we have, it becomes all we could ever want or need. Right now every each of our leaders in the government state and local needs more than wisdom especially in the Georgia's jail and prison where they don't have all the tools to these place effectively. They trying to do thing without tools. By trying to do anything without the necessary skills or tools is like chopping wood with a dull ax. If your tool is dull, you should sharpen it to do a better job. Similarly, if you lack skills you should sharpen them through training and practice. In each situation, sharpening the ax means recognizing when a problem exists, acquiring or honing the skills/tools to do the job better, and then going out and doing it. Find the areas of your life where your "ax" is dull and sharpen your skills so you can be more effective for God's work. Stop setting traps for people when they telling the truth, Stop calling wrong right and stop ignoring it all together acknowledge I need help with this, pride comes before destruction. We already losing people in our communities now behind the walls. To me its like devil is using people as instrument to not care about humanity at all. Many people are feeling trapped in their communities, in the bank accounts, with the inflation, with drugs problems in society and now in the prison and jails, the violence is running rapidly in the communities. While our government official tends to things in ideal forms rather than as they actually are through pandemics and claims that warns about threats to ~~our~~ our economy and livelihood that create more opportunities for people as well as the government to engage in robbery in every aspects of our lives.

I am remind of the people in the ~~is~~ ~~the~~ bible where egypt king  
and ruler trapped the people and what happened to those en's king.  
Pharaoh and his army. He had the people upset because they wanted  
freedom. But Pharaoh couldn't free the people because his heart  
was so hard. Exodus 14:13-14 Moses answered the people because  
the people were hostile and despairing, but Moses encouraged them  
to watch the wonderful way God would rescue them. Moses had a  
positive attitude! When it looked as if they were trapped, Moses called  
upon God to intervene. We may not be chased by an army, but we may  
still feel trapped. Instead of giving in to despair, we should adopt  
Moses attitude to "Stand firm and . . . see the deliverance the Lord  
will bring." The Lord told Moses to stop praying and get moving!  
Prayer must have a vital place in our lives, but there is also a  
place for action. Sometimes we know what to do, but we pray for more  
guidance as an excuse to postpone doing it. If we know what  
we should do, then it is time to get moving.
