LIBERATED FACTS 5

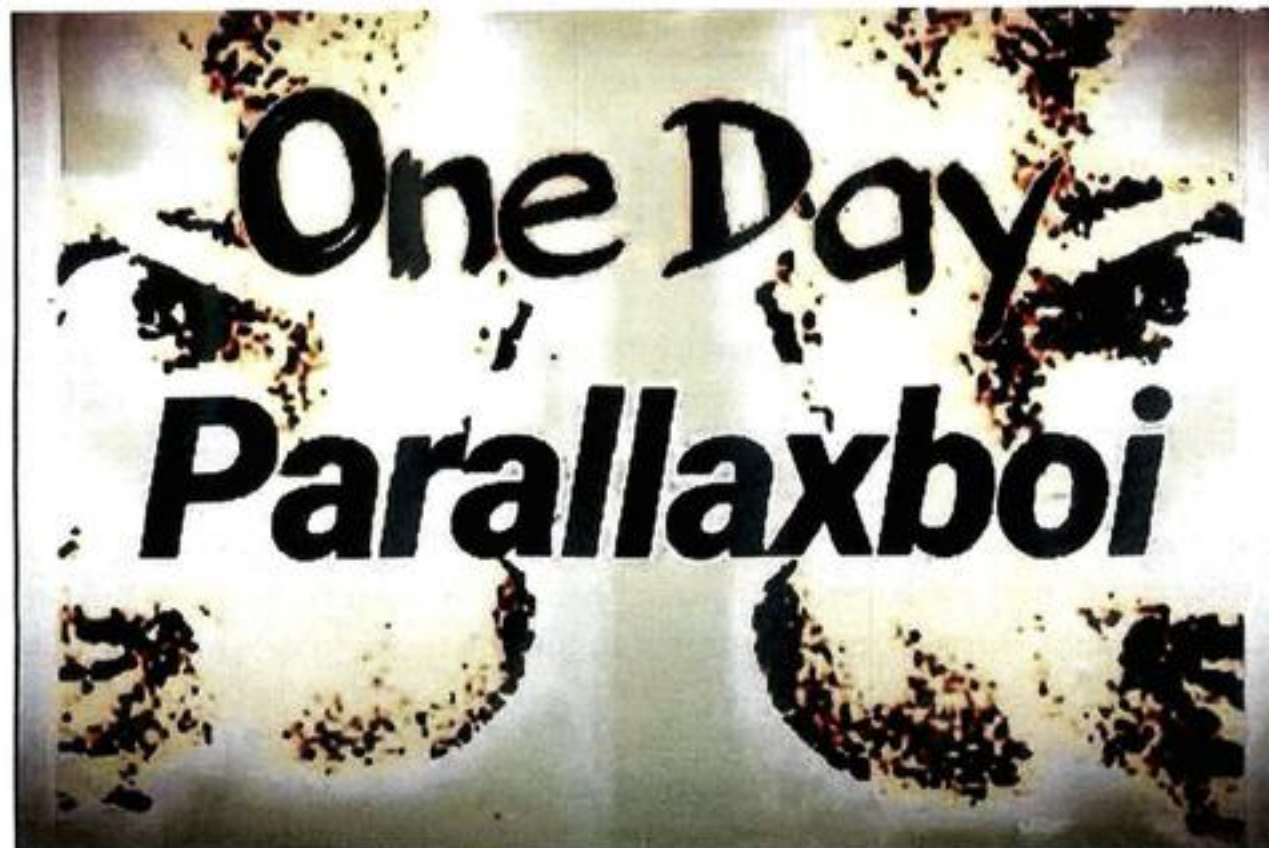

Direct message:

The pretextual language that homosexuality is a sin, but not a crime lands as an insult to the spiritual intelligence of the gay community due to the fact that most if not all anti-gay laws, worldwide exist as a direct result of Biblical text, and other religious indoctrination concepts of sin.

2. An outward sign of the working of a law of nature

Parents telling kids to stop being gay, is like kids telling Heterosexual parents to stop having gay kids.

Idiots who say a Man can't transition into a Woman, is like a racist coward that say Black slave Monkeys can't transition into Men
