

Blues song #8 by: Milo Rose

Lordy Bless My Soul

Oh - Lordy - Oh - Lordy - please bless my soul - that dirty rotten devil got me singing the blues - He just ain't happy beating me down - no he just ain't happy beating me down - that dirty rotten devil got me singing the blues - he pisses down my leg and tells me it's rain - sticks a long hot shovel in my hand and tells me to dig my own grave - Lordy - oh Lordy - please bless my soul - that dirty rotten devil is shitting on me too and here I am singing the blues - that dirty rotten devil got me singing the blues - Lordy - oh Lordy - please bless my soul - and stop that dirty rotten devil from keeping me singing these low down blues - and stop that dirty rotten devil from keeping me singing these low down blues...

Blues song #9 by: Milo Rose

The Low Down Blues

If you ever see that dirty rotten devil smiling up at you - better start praying - oh Lordy - oh Lordy - please bless my soul - or the next you know that dirty rotten devil will be pissing on you - and you will begin singing the low down blues - cause you'll feel that long hot shovel starting to burn your hands as he has you digging your own grave - while all the time that dirty rotten devil is making it rain - as he laughingly pisses down your leg - Yeah - you better begin to pray - oh Lordy - oh Lordy - please bless my soul - that dirty rotten devil is trying to make me sing the low down blues - next thing you know he'll be shitting on you too - as he pushes you through the gates of hell - yes - he'll be shitting on you too as he pushes you through the gates of hell - You better hurry up and begin to pray - oh Lordy - oh Lordy - that dirty rotten devil is looking up at me - please - please bless my soul - before he smiles up at me and begins pushing through the gates of hell - cause the next thing you know - that dirty rotten devil - will be having me singing the low down blues ...

Through My Eye's

The way I must view things at this time, is if you are not helping me to achieve my ultimate goal of vindication of any kind of murder, you are part of the problem ! I see having three different Artificial Intelligence programs evaluating all legal aspects of my case - by simply asking them one question According to the trial record, did I receive a fair and impartial trial in weight of the withheld exculpatory evidence ? When the AI's, respond to that question, it will open the door to a host of other questions and I believe the answers will incriminate Florida's capital punishment scheme as racketeers - since they will not be able to defend their collective failures to condemn the withholding of the exculpatory evidence that denied me a fair and impartial trial...

Why - I am not personally able to contact and initiate asking three different Artificial Intelligence programs the questions that will bring about my ultimate exoneration of any kind of murder, is because I am on death row and do not have access to the Internet ! A major problem, since I presently do not have anyone willing to help me achieve this goal either ! Worse, I do not have anyone willing to help me find others that will help me obtain my goal ! So, like I stated from the start of this piece (If you are not helping me to find a favorable solution - you are part of the problem !)

I do believe eventually all the pieces will come together and not posthumously - since that defeats my ultimate goal of holding my head up and walking off death row a free man ! Thank you, for reading this - Milo Rose - innocent death row inmate
