One Way Ticket Blues

I'm riding on a one way ticket to hell blues and that dirty rotten low down devil is the engineer - Yeah - yeah - oh Lordy - Lordy - I'm riding on a one way ticket to hell blues - and that dirty low down devil is the engineer - as he keeps the train chugging along on it's express lane to hell - That dirty rotten low down devil has me singing the one way ticket to hell blues - I hear the wheels clacking and that engine chugging on my one way ticket to hell blues - yeah - I hear the wheels clacking and that engine chugging on my one way ticket to hell blues - that dirty low down rotten devil is the engineer as he keeps the train a chugging on it's express lane to hell and has me singing the one way ticket to hell blues - oh Lordy - Lordy - that dirty low down rotten devil has me singing the one way ticket to hell blues....

Ain't No Conductor

Well there ain't no conductor on the express lane to hell - oh Lordy - Lordy - there ain't no conductor on the express lane to hell - that damn dirty low down rotten devil - ain't slowing the damn train down - cause there ain't no conductor on the express lane to hell - oh - Lordy - oh - Lordy - I'm yelling for the conductor to slow this damn train down - oh Lordy - Lordy - I'm yelling for the conductor to slow this damn train down - but there ain't no conductor on the express lane to hell and that damn dirty low down rotten devil ain't slowing the damn train down - cause there ain't no conductor on the express lane to hell - damn it - there ain't no conductor on the express lane to hell - to slow the damn train down...
