

Good Morning,

I don't know why you put yourself down as being incapable of doing things - First let me clear the legal aspect of things - the attorneys assigned to my case know I did not receive a fair and impartial trial - but to argue the issues now that vindicate me of any kind of murder would show how the system failed me for over forty years - so they are doing nothing and waiting on me to die so everything goes away - I know how cruel and evil that sounds - I do not need another attorney - what I need is help to bring my case before the court of public opinion so I can force the attorneys assigned to my case to have to argue the issues that vindicate me - The issues that vindicate me speak for themselves - it's the attorneys who won't raise them that is the problem - I know how the Florida's legal system works and even if I did find an outside attorney to argue the issues that vindicate me - the legal system would slow walk me for many many more years - but if I can bring the evidence out into the open where it can no longer be kept hidden - the system would be forced to correct itself quickly or be seen for the racketeers they are in covering up the evidence of my innocence all these years - what they been getting away with is called obstruction of justice - Again the evidence that I did not receive a fair and impartial trial speaks for itself - it always has !!!! And still does !!! My trial was a farce and mockery of the criminal justice system - I was blatantly railroaded - and the fact that evidence that proves that, has been suppressed and concealed all these years - shows how the miscarriage of justice was carried over into the appellate process and has continued to this day - I am trying to end that by showing how the attorneys assigned to represent me can easily and effectively argue these issues and call for a swift resolution and obtain it.... I know that may sound like a lot of mumble jumble - but it is really simple and needs to be kept that way - Every other case like mine got quickly resolved when it achieved reaching the court of public opinion - forcing the truth to the forefront were it could no longer be kept hidden - I been seeking help to do this for years and so far failed - Okay - Artificial Intelligence programs have no motive to conceal the fact that the evidence I did not receive a fair and impartial trial speaks for itself - if I can get even one artificial intelligence program to evaluate the evidence showing how I was railroaded - that would be big news - bringing my case before the court of public opinion - and forcing the legal system to respond quickly to preserve justice - and that means my vindication of any kind of murder!!!! My problem right now is I have not been successful in finding someone willing and capable to get an artificial intelligence program to evaluate the evidence showing how I was railroaded - if I had Internet access myself, I would have been able to vindicate myself many years ago - but I don't and the system is not going to give me access ! So - I have to find someone to do it for me and

that has been a problem - I have tried to get an artificial intelligence program on my email list - which I believe can be done, but would require sponsorship and so far no one - I know is willing to spend the time and energy to help me achieve that goal - which frustrates the hell out of me - because my desire to get an artificial intelligence program to evaluate the evidence showing how I was railroaded is not that difficult - it just takes some dedication by anyone willing to help me and it can be achieved almost instantly - which is the marvelous thing about artificial intelligence - it works that fast !!! I just explained my reasoning to you as simply as possible - keep a ( copy ) of this and use it over and over until you find someone willing to help !!! Please - don't make it into a complicated process - even if you send a simple copy of what I just shared with you to one person a day asking them for help - that would be a great help and more than anyone else is doing - it is only going to take one person willing to dedicate some time and energy to help me achieve my goal - help me find that person and you will have helped me tremendously - again - please don't make it into a complicated process - simply - begin sending copies of this out to people you believe can and will be of help - do some research as to most likely be interested in helping - give me the use of some of your free time by trying to reach others willing and able to help - even asking others to help you send out copies of this will be a major step forward - just think if five of you are sending out copies of this email each day - how many people you would be reaching !!! Keep it simple - I just explained everything and how you can help - commit to sending out copies on a daily bases to as many people, you can find, that may be of help - that will be a major step forward and is something you are capable of doing without being a computer expert... Simple - Sis - keep it simple - Okay - I will wrap this up and try to send it on its way - Love to you and for you - One Eagle - xo
