

PRIME PRISON PREY

On 15 June 2023, circa 2:30PM the guards at SATF "F" yard transferred me to "G" yard for "Safety & Security": refusing to pay protection.

At 80yrs old bound to a wheelchair, survivor of 3 prison heart attacks, other chronic health conditions, defenseless and with financial resorces from a work ethic fefore incarceration; I am PRIME PRISON PREY.

Prison is a synthetic hell designed to punish those deemed to have broken society's covenant. A 19th century penal mentality where bad men are made worse and good men made bad. Old men in this societal perdition are vulnerable to an abundance of predatory prisoners and indifference of most guards.

At 3:00PM, on this hot day, I with a laundry cart carrying all of my prison life possessions were being escorted away from predatory prisoners by a guard. Stopping at Program to receive further instruction the guard left me outside with my possessions to wait for his return. At 4:00PM still waiting for instructions the guard decided it was too hot saying "We'll wait in visiting were its cooler," I replied "What about my property? its sitting in the roadway," he answered "Don't worry its being watched." At 6:00PM the okay was given to proceed to "G" yard.

Upon arriving at the new cell and unloading the laundry cart I discovered \$103.50 of canteen and property had been looted from the UNWATCHED cart. Immediately it was reported to the guards with the suggestion the predators could be identified by the yard cameras. The guards solution was "You signed for the property there will be no further action."

This one example illustrates how the elderly are faced with a vicious and continuous cycle of abuse by predator prisoners and indiffernt guards.

Since Elderly Parole is nothing more than a rhetorical device with an 82% denial rate, old prisoners will remain PRIME PRISON PREY only finding peace with a toe tag.

The losses in this state sanctioned elder abuse are not limited to harmless elderly prisoners, society is paying \$282,000. tax dollars per year per elderly prisoner.**
