

Good Morning Sis,

I hope this finds you well and in good spirits - I have read and reread your last email and I do give you credit - you are an intelligent Lady that has done your homework - only you are receiving pessimistic counseling bullshit - (of - innocent people are being executed beyond all our efforts to try and stop that from happening !) - instead of - hey - your friend is on to something - an artificial intelligence program is the ultimate judge as it will rule according to the letter of the law - there are no ifs, ands or buts - either the letter of law was carried out or it wasn't... Why is that so hard to understand ? Either the law was correctly administered or it wasn't ! That is the representation I want argued in my defense ! How can there be any integrity of the law if it can be manipulated to kill innocent people ? How can you advocate for me if you are not giving me the representation I am asking you to provide me ? If a artificial intelligence program states after review of the facts - that I did not receive a fair and impartial trial - what rationale can be argued that the artificial intelligence program is wrong - when it is ruling according to the letter of the law and nothing else ?!? So, you see my dear sister - people should be lining up to prove me right instead of feeding you pessimistic bullshit !!! And that trend will continue until you put a stop to it !!!

Alright - we are making good progress and once more I am proud of you - I will now add a copy of this email to my blog - B-)) Let's see what kind of negative criticism it receives instead of the positive reinforcement it deserves !

Enjoy your camping trip - love to you and for you - One Eagle - xo
