

I am so ashamed of what is happening
in America

Who would outsd a House Speaker for standing up for what is right? These are the same people who makes poor decision over our lives to cause hardship. Because they vote these laws and bills into existence that does nothing but oppresses the lowly people. On every end people are being oppressed because of the Republicans. Just to name a example, the last government shut down who was some people effected, City workers, first responder and military. Too many people are not significant to our government and is looks down on. Why is that when they do matter. Grant you if the government is shut down ~~to~~ today they will be the first to be affected right now. For sure this is not right, we don't need people in our government who brings burdens to people front door step.

Clearly you said when you ran for office, that you was their to help the American people who voted for you. Everyone who outsd ~~him~~ ^{him} McCarthy should be outsd. This is the land of the free. Meaning everyone should be treated fairly. Who outsd someone who willing to work with his colleague to bring a common understanding surrounding the issue at hand. The Republicans are not right any how because they would rather uphold anyone of their parties up in the wrong such as Donald J. Trump because if he was President Obama, Regular citizen or African-American politician who was charged with these many charges. They chances would have been slim ^{chance} to even run for office and ^{the} average citizen would have been plea out or trialed into the penal system by now.

Instead why are the public wasting their money on Donald J. Trump Campaign etc. Even if the citizen or another politician said I didn't do it. Automatically they would have been assumed to be guilty off the rip. Do we see how certain type of people behavior is excused. While others are judged when they go through the criminal justice- majority of the cases in the little towns be circumstantial evidence. It's more of ~~poor~~ poverty doesn't matter. But money say it all of what you get in the criminal justice system or in life period.

This foolishness surrounding Donald J. Trump is another distraction to our democracy and voting. Cause the evidence are strong against him and his team. From point in view, Republicans are so polarized and focus on non-governmental problems like the ~~company~~ company gaggle or the impeachment of President Biden. The people ~~concerns~~ concerns is far from ~~that~~ the politicians' mind. Now we can face another government shut down in January. What is the new ~~sp~~ House Speaker Johnson doing beside being careful not to tread too far so the Republican won't outsid him as well. Which is stupid because I would not walk on egg shells. You suppose to work with your colleague to help solve problems, that would make a difference for the American people. In my personal opinion the Republicans has made a mockery out of our government democracy. Why so many problems because they want what their way everytime. That is not right Republican party. What about unity and common ground in our government starting today.

Lastly, this is for every politician, hollywood celebrities, citizens, musician, actors, actress and anyone else in the ~~entertainment~~ entertainment business. If you know somebody suffering mental health before they commit a crime or suicide. Don't wait to the crime or suicide to happen. Then say oh he or she been suffering such and such. Also beware of your surrounding when you encounter people. The signs are there, even if they don't talk that much. Get help because you can prevent a crisis in the community or for their family. Some people need to be immediately admitted to a mental hospital or even given their medicine. If they are not on mental health. Get ~~to~~ them evaluation immediately. So many people that ^{of} mental patient do not take their medicine like they suppose to. We are going through that with a family member right now. He is being moved from home to home. ~~Early~~ Earlier this year we had a family member to commit suicide in a mental institution. Mental health prevention is dear to my heart. We need ~~everyone~~ everyone to do their part especially family and friends. I am tired of people getting shot and killed or even assaulted. ~~that~~ ~~mental~~ Many of these tragedies can be prevented. Stop the process of ~~the~~ crisis (mental health) ~~by~~ by preventing the next ~~tragedy~~ tragedy.
