

Homophobia @ San Quentin

The Sound Mind

PARALLAX

HOMOPHOBIC DISCRIMINATION @CDCR:

PRIDE MONTH JUNE/2023,

An incredible group of LGBTQIA+ identifying residents at RJ Donovan Campus submitted a DVD Documentary about the origins of the LGBTQ+ History in Los Angeles California as a statewide community engagement event via Institution Television System (ITV).

Instead of playing the Documentary @SQTV on an (ITV) channel, The Public Information Officer (PIO) Lt. G. Berry at San Quentin Rehabilitation Center sent an email to the SQ Mental Health Department Staff suggesting the Documentary be played in group sessions to those willing to play the disc, regardless of the fact that for over 30 years the MHD had no LGBTQIA+ program.

The General Population LGBTQ+ Faith based program group titled NEW HOPE was also asked to "screen" the DVD in group session.

The PIO visited this writer in the lock up unit the Adjustment Center (AC), there for a series of Staff assault's in direct response to year's of physical abuse, and the CDCR culture of homophobia @SQRC & CDCR, including the intentional deprivation of Queer affirming programming @SQTV which is accessible to ALL residents via (ITV).

Lt. G. Berry misled this writer to believe that the RJ Donovan DVD would air @SQTV/(ITV) as a step forward.

1. This PIO @SQTV has refused thousands of videos/queer affirming media content submitted by the Condemned LGBTQIA+ Population titled THE SOUND MIND STREAMER for airing @SQTV/(ITV).
2. No resident should be forced into the mental health program to receive queer affirmation programming.
3. No resident should be forced into religious programs that exist antithetical to queer nature by doctrine.
4. There is a MASSIVE Gay Closet, or as we now say, " Private Expression Community " who are not safe to attend LGBTQ+ Mental Health, or Faith based group's, as the Closet has historically been the safe space environment for queer expression Worldwide for centuries, and to attempt to force OUT anyone violates CDCR's safety and security policy.

GENDER PARALLAX

by, Parallaxboi

California Department of Corrections & Rehabilitation has policies that adhere to Senate Bill#132 The Transgender Respect and Agency Act, which recognizes being Transgender as Gender Dysphoria, a Mental Health disorder, and Medical illness as a matter of Law.

Dysphoria is defined as:

a state of feeling unwell, or unhappy, from the Greek-(dysphoros), hard to bear.

In amplified definitions, it is associated with depression, anxiety and being self disparaged.

Moreover, the fear of prison cultural unsafe environments for this demographic of the population spearheaded the creation of the protectionism rehousing of residents that identified as Transgender, Non binary and Intersex posed a great observation as to how policy writer's included Non binary, and excluded Homosexuality, as this fine line issue became the very life line by force, for Homosexual/Gay residents to receive said protections by pronouncing as Non binary, and some even pronouncing as Transgender. This, by default creates a human rights violation for the intentional forced eradication of the presence for the freedom of Homosexual expression while the proponents of the Bill and CDCR maintain the use of the umbrella community acronym LGBTQIA+.

1. Homosexuality is not a mental health or medical illness
2. Department Programs are primarily operated by employees, residents and doctrines that exist antithetical to Homosexual Nature.

A documentary titled, CURED details the original attempt by the lead Psychiatrist in the not so distant past to determine Homosexuality as what is now termed, Gender Dysphoria, proceed with caution as images and content of the documentary are graphic.

The irony here is that the word Gay means happy, and euphoria, a feeling of well being, which is the complete polar opposite of the Transgender diagnosis.

The parallax view is therefore, Gay/Happy by choice or Transgender/Unhappy by illness and disorder? Both are a matter of discrimination

GENDER PARALLAX 2.

by, Parallaxboi

In review of the studies relied on by the California legislative body to pass SB#132, I noticed several flaws in the gathering of evidence process, for example;

The findings state that Transgender inmates were more likely to be assaulted than their counterparts.

Which is not true, the truth is that more Transgender people report the abuses, and participated in survey's to express the violence from a trans perspective which is not the problem, just not the entire truth.

The problem here is that the fact finders themselves relied upon information not provided by higher percentiles Gay inmates willing to participate in the survey's, and moreover the "MASSIVE closet" of those UNSAFE to participate, and the findings became yet another indictment against the the most abused and underserved demographic of prison populations and societies population because it is morally taxing for others to "FORCE OUT" a vulnerable and marginalized subculture, and the demeaning attitude of even Transgender inmates that openly display contempt for victims of oppression for not coming out, even when they experienced the exact same trauma.

It is more safer for someone who is viewed by professionals as having a mental disorder, than it is for those who are viewed as being having made a choice to commit sin, and go against the so-called nature of family, community, society, nature, and God, while a so-called corrective Disorder means, having no choice, and tolerably treatable through mental health services, and religious proselytizing by way of repentance of sin.

The acronym LGBTQIA+ is often rebranded as subcultural community, when the evidence shows it was created to expose discrimination of societal exclusion from Hetero normalcy for access to dignity, and humanity through the lens of EQUALITY.

I'm not transgender, non binary, intersex, or heterosexual.
I'm a Gay/Homosexual Man, by nature not choice,

*"They Aired
"Spoiler Alert"
for Spite"*

a SOUND MIND COMPANY DVD presentation

The Sound Mind Streamer
(LGBTQIA+ Affirming, Education & Wellness Media)

A paradigm shift in how LGBTQIA+ life, education and culture is depicted through incarcerated Institution Television System's. After over 200 years of zero to minimal programming, and after over 12 years of rigorous efforts by The Sound Mind Company here at Condemned Row, in October 2023, the SQTV Media Center broadcasted a movie titled Spoiler Alert. The movie, while an excellent display for progress and inclusiveness, it is however filled with every common Eurocentric focused stereotype, that has dominated the queer narrative in America that has been used by the leader's of homophobic ideations of hatred discrimination and violence, and moreover, continues the method of writer's who are intentionally, chasers of empathy. The Sound Mind Streamer Media program is different in a way that focuses more on affirmation through education for the most underserved demographic of prison media programming.

2Pboi

Saw the movie a couple of times. Can't really see what set you off. Have you never watched Seinfeld or any other "Oscars-so-White" show? Childish Gambino said it best, "This Is America".
Spoiler Alert was a (LOVE) story about 2 ("Privileged") gay characters; whom experienced little 2none of the struggles common in the LGBTQIA Community. The story was "Cliché-ala-American"... .."Okay tell me your story [in a Users Friendly way- but don't make me feel ashamed! - Don't bore me w/your social-justice issues!]
Only when they try 2to "sell" a Cliche as Ground-Breaking or some other overstated crap.

It's all good. Cliche's are why I write. I will have something written 2/4 the Community in the coming months soon. It is why I write 4the Culture!

As Leaders, DIPLOMACY is always essential when addressing power. The first 2thing Leaders in Power observe is diplomacy or the lack thereof. It makes the difference between being heard & ignored, between being assisted or resisted. Lead Pboi, lead.

W/R

Ms. June

Ms. June,

Masterfully written, downright spiritual :-)

Thanks for conveying exactly what should by default, culturally set us all off.

I'm aware that most queer GP can't risk losing their endorsement to this campus by being expressive on this issue, their silence is induced.

The closet, or, our "Private Expression" villager's have even more to risk in real time.

Our straight allies operate from a conditioned position of empathy and support, yet have not been educated as to what is considered culturally valuable to our ENTIRE community, and, perhaps even address some ethnographic deficiencies, generational cultural ignorance, and educate for the need of purging incompetency within Incarcerated media programming.

The Sound Mind Streamer, which we will have a premier screening at the Banquet, will display how we are not in need of empathy, we however require equal access to autonomous programming that provides a safe space for engagement of LGBTQIA+ affirming media.

Spoiler alert,

LGBTQIA+ life is more than Eurocentric-male dominated, disease gloom & doom, and sexual deviance narrative's, and it really upsets me when our own ignorance is expected and exploited as a settlements of "Queer filled quota's" as absolvent of responsibility for those intentionally attempting to silence over 150 year's of program exclusionary practices.

Sound Mind Streamer media is our ideation on how to safely administer Queer focused, SELF-HELP rehabilitation, education, recreation, spiritual & wellness programming.

Enjoy your day Queen,
I've got a full work day ahead of me

2Ms.June.

SQTV 18.2. Movie titled; BIOSPHERE

DEFINITION: Biosphere-
part of the Earth where life can exist

CDCR continues to Bully Gay/Homosexual residents by additional responses to our demands for inclusive and constructive representation by broadcasting yet another "status quo/pretextual" film in a prison setting that is already agitated and anti homosexuality. This film portrays two men having sex only during an;

- #1. Earth ending Dooms Day scenario
- #2. Only without a women
- #3. Minus attraction
- #4. Minus Emotional attachment
- #5. Minus Love
- #6. Minus Care etc

The message is a fictional hypothetical forced need to procreate, but only under the extreme conditions where the threat of human extinction is present, and one Man in rapid timing morph's into a female, as humans rely solely on animalistic emulative intercourse for a pregnancy as a means to prevent human extinction.

Great actor's in roll's so far removed from the immature prison environmental climates that requires a realistic representation of love, science, nature and the seriousness of human equality, only exacerbates the diabolical intent to maintain an environment conducive to gender biases, and sexual orientation, sexual identity and sexual expression harassment via media center TV equipment.

We as a community have submitted thousands of LGBTQIA+ Affirming videos for over 11 years through the Sound Mind Streamer, and CDCR prison official's have recently continued to view our request as a personal offensive attack against specific employees who now retaliate by searching to find and air content that is out of tune with required equal balance of LGBTQIA+ wellness and innovative rehabilitation programming for sexual minorities housed within the Department.

This conduct is the very type of bullying actions that prevents an adequate biospheric atmosphere for the survival of the Gay community on Earth.

It is now the Holiday Season, a very emotional and sensitive time for queer folk's Globally!

Pboi

"Last Man On Earth"

Saw movie on 18.2. That was the guy from the Fox show, "Last Man Standing". That 2was about last few people left in the world. That's that guy's " Thing": END OF THE WORLD.

Seems some twit saw the Same-Sex gag & assumed it 2be LGBTQIA+ content. Whoever chose this thinking it 2be something other than an END OF TIMES COMEDY ought not chose movies 4the community..)

To Ms. June,
From Parallaxboi

They did it again
Channel 18.4

Documentary titled NOON,
Wht, fem, Cross dressing, gay, doom and gloom
AIDS/HIV representation of our community,
As if that's all we are.
They are doing this for spite, instead of playing our
Sound Mind Streamer LGBTQIA+ Affirming media program.

These depictions of our culture without affirming balance is demeaning, and disrespectful, and bullying us by making us out to be clown's in need of so- called repentance for choices of sin, of what they view as in natural.

Am I the only one who can see?

It's from the same source of hatred as Hitler like I said before about Dave Chappelle, it's intent is shielded by unassuming act's that are represented under the umbrella unintended harm, this shit ain't funny, and all of us are not included in the community circle portrayed, this is homophobia.

They don't play blk/face movie's for this very reason, or us eating chicken and watermelon, and doing the hand bone. No, why? Because it's disrespectful.

HOMOPHOBIC DISCRIMINATION @CDCR

Rolling Stones documentary about Little Richard is now playing @SQTV.

This ongoing pattern of attempts to undermine our original concept of Queer Affirming content, has gotten old, they could've simply just played our DVD.

Little Richard like most of us are viewed from a modern perspective where religion is the so-called panacea for the sexual deviance, and sinful clown act, where God is the hero

Queer folks are the unnatural villain, a method that absolves faith groups of any responsibility of the psycho-sexual harm that created people like Little Richard in the 1st place.

Our disc put's history on blast where religion is the villain that corrupted global Spiritual systems and scores of lives distorted, and the truth of science and culture while affirming to us, also holds a mirror up to those unwilling to face "religion guilt", because that would mean the struggle is induced by oppression in the name of the faith based Gods of the many inmates being proselytized through campus programs that are generated, operated, and often sponsored by religious volunteers and ideologies.

Queer Autonomous Media scares people, what we are doing @Sound Mind Streamer means not needing the support, resources, guidance or "long end from a spoon feeding" by those that thrive from the NEED for others to depend on them for growth and change under the umbrella of rehabilitation.

I believe that bullies get gratification from making others need them via making people feel unwanted, and undeserving.

Autonomy scares bullies because it exposes how they are not required by those able to cultivate and develop without them.

SQTV only proved that Little Richard needed the kind of affirmation provided by;

THE SOUND MIND STREAMER

CDCR is causing harm to queer residents that are being denied affirmations by way of the Liberation of Facts that educate and empowers, and by continuing to reinforce ignorance.

That's HOMOPHOBIC Discrimination!

PARALLAX CASE IN POINT:

An Incarcerated group titled, The People In Blue(TPIB), at San Quentin Rehabilitation Center, drew up what they say is a 4 part Manual by the incarcerated to Transform CDCR Culture.

- #1. Participation mandates for every resident for a financial literacy, and other scaled up programs.
- #2. To improve relationships between resident's and employee's.
- #3. Provide healthier food's in the culinary system.
- #4. Bring weightlifting programs back, etc....

Quote by the TPIB:

"While preparing this report, we have been working in cooperation with many members of the Governors advisory council, including co-chair Ron Broomfield, Alison Pachynski, Billy Mizell, Jody Lewen and Jesse Vasquez."

The irony here is that there is zero mention of any improvement for the affirming, wellness, education, safety, rehabilitation, and recreation programming for LGBTQIA+ residents, and more over, that the individuals named above are responsible for the spread of covid-19 in 2020 when a group of the Condemned LGBTQIA+ population, while housed in South Block Donner Section, asked Sgt. Gilbert Polanco, Ron Bloomfield, Religious dept, Education dept., Mental Health dept., and Billy Mizell to help create The Sound Mind Streamer (Incarcerated LGBTQIA+ Affirming Institution Television program channel to end the prison culture of spitting, gassing with urine & feces, assaults and forced rehousing against Queer residents, and create a wellness, safe space environment for, survivor's.

To the date of this report, denial by plaction, pretext-language continues.

Billy Mizell told MSNBC reporter Kate Sosin that the Department gave her permission to replicate her ACT group on Condemned Row, and named the Condemned group as that replication, as she was invited to the Sound Mind Company group by the Jewish Rabbi Paul Shleffar where she vowed to help, but instead, she put SMC on blast in social media trying to steal the program, and the Rabbi abandoned the group.

And then, Covid-19

This abandonment came just days after Rabbi alerted this writer that Billy Mizell, Governor Gavin Newsoms advisory council member was attempting a hostile takeover of our entire San Quentin Condemned LGBTQIA+ program, (listen to audiophile here).

— Billie Mizell leads San Quentin State Prison's Acting With Compassion and Truth group, a restorative justice program. Kate Sosin ← ask Kate Sosin who approved this report @ SQ

(Ethics Violation) This statement is a lie:
This year, the California Department of Corrections and Rehabilitation allowed her to replicate the program on San Quentin's death row, which remains intact despite California Gov. Gavin Newsom's recent decision to halt executions. That group, comprised of five people, meets Tuesdays. It is not open to reporters. *(No mention of the I.P. 600 & 615 Groups For Billie Mizell's attempted Jack Move)*

ACT is entirely voluntary, although many admittedly come to the Wednesday class because it looks good for the parole board. Mizell, however, won't let anyone in who is not genuinely committed to the lessons. *(We asked for help, not a lesson for level II inmates) NOT INVOLVED in ASHKEP V. BROWN / LOPEZ V. BROWN, CDCR Failed to protect us from Billie Mizell.*

Still, the resulting class presents a strange juxtaposition. Prisoners, some convicted of extreme anti-LGBTQ hate crimes, spend a year in close proximity with the prison's most vulnerable LGBTQ population.

'I was so ashamed'

*Rep. Sam Robinson
LT. SM Robinson
IF CDCR did not allow this, why has CDCR not demanded a recant for putting us on Blast in social media, and allow our program to continue?*
