

## Help Me Reach The Court Of Public Opinion

Here is an excerpt from an email I wrote commenting on how easily it will be to win my vindication once I am able to reach the court of public opinion - every case that is highlighted due to a Brady violation ( withholding of exculpatory evidence ) in that legal motion you have is out of Florida - and once I am able to bring that information before the court of public opinion - showing how the legal system has denied me relief all of these years - things will move quickly and heads will roll !!! It is a fact that I was railroaded for murder and been held falsely incarcerated for over forty years and once the evidence comes to light showing that through the simple question asked as to why every case in the State of Florida that brought forth Brady issues got overturned except mine which contains numerous Brady violations - why is that ? How as a State appointed legal representative mandated by law to provide me with zealous representation - not argue that the withholding of the four eyewitnesses initial descriptive of the person they seen commit murder was a white male with a possible thin mustache - prevented me from receiving a fair and impartial trial - when at trial three of the four eyewitnesses changed their description of the person they seen 180 degrees to fit me a dark complexed male with full beard - leaving me with no way to dispute their changed description ??? Or to point out that their initial description fit the victims roommate to a tee - who also was able to change his initial statements of not knowing anything to one of I confessed to him !!! Once I get before the court of public opinion there will be no stopping me from pointing out all of the descriptions that prevented me from receiving a fair and impartial trial !!!
