To Whom It May Concern,

In the Fall of 2023, I took college Statistics through Southwestern College at R.J. Donovan Prison, FAC. A. During the semester while taking this class, we faced major obstacles. In Nov. 2023 (week before Thanksgiving), a transformer blew up, causing a several days power outage so big it was reported in the media. Then came a 'lock down' (end of Nov.).

At the start of December we came off of lockdown. I fell far behind in a difficult subject (math). This is where M. Singh was of great aid; was of immense help. Singh organized study groups in the day room (total of 5 inmates in A4 taking Statistics) & got permission for the 5 to study despite different tiers. Singh had done the homework & kept up with the material; then provided detailed explanations to problems/h.w. & assignments. All of us passed & with a higher grade due to Singh's help. I received the letter grade. I proudly share my math triumph with you.

Thank you kindly for your time & assistance.

Respectfully

Leon Hardin.

**DAILY PROGRAM STATUS REPORT, PART A -
PLAN OF OPERATION / STAFF & INMATE NOTIFICATION**

CDCR 3022-A (Rev. 09/21)

**DAILY PROGRAM STATUS REPORT, PART A -
PLAN OF OPERATION / STAFF & INMATE NOTIFICATION**

**Describe only this reporting period's specific Plan of Operation*

**Upon completion, distribute to ensure all staff and inmate awareness*

Inmates on modified program more than 14 days must be offered a minimum of 10 hours per week of access to recreational areas outside their rooms, cells, or dorms, etc., unless safety and security consideration preclude such activity. The general expectation is that recreation will be held outdoors; however, based on operational necessity and institutional security, out of cell or dorm recreation may be supplemented or otherwise augmented with indoor recreation (including, but not limited to: dayrooms, gymnasiums, and areas determined suitable by the institution, based on operational layout).
