

GOOD RIDDANCE BIDEN

I can't wait to see Biden and his handlers all pack their shit up and get out! We need Trump to go ahead and get his "third" term win, and undo all this crap Biden's handlers have done.

For starters, get us out of Ukraine! We have NO BUSINESS sending money to ex-Russians who are fighting current Russians over land that has absolutely nothing to do with America or the American people. It's done nothing but further cripple the American economy and make the Biden family and other self-claimed elites richer.

Next, put the taxes BACK ON CHINESE IMPORTS immediately! I can tell that even China knows Biden and the other pro-Chinese/anti-American politicians are on their way out because NO ONE WITH COMMON SENSE is buying their BS. We need a president that is NOT a politician and who does not support foreign economy over our own. We need a Patriot. And if the left tries to pull some election BS again, this time it will most likely lead to another American Civil War, except this time it's not North and South, or race, or any of that -- it will be Patriots versus foreign supporters planted in our government and the drones they manipulated into following their socialistic and foreign-centric policies and money grabs.

When a government tells people they don't need guns....

That means THEY NEED GUNS!

When Biden wanted about 75,000 or whatever new IRS agents, and all the buildings, gear, guns, and badges to go with them; that wasn't to go after the rich -- it was to target the poor and (If they had their way) unarmed. The current generation needs a huge lesson in what exactly America is, and why Communism, Socialism, Totalitarianism, Dictatorships, Emperors, and kings & Queens, are NOT WANTED HERE! We started the first American Revolution because of what, a 2 percent tax? Yet, here we are today paying an average closer to 50 percent to our own so-called government that's so oversized that it's pouring money out to foreign countries when most of the American people are saying NO, enough is enough.

Good riddance current White House regime.

Your legacy is set: You stuck needles in us all, stole our money, you empowered the groomers, and made our border unsafe, and you enabled child sex-trafficking, and used law enforcement as a political weapon.

There is a new word, instead of WoKE, Patriots are reWoKE -- meaning they see through all the BS, and conserving America is the priority!
