

## Vice President Kamala Harris The one

Kamala Harris is an excellent choice for the White House. She has a stress free and fresh approach to how she does things. For instance, Kamala does not get stuck on any philosophical theory that Donald Trump and Vice presidential candidate Vance have of her. She replies with such smoothness. By letting Trump and Vance there will be no sidetracking from the American people, while showing she has discipline herself to carry out her goals. Kamala shows us - as American people that our civil rights, Freedom of choice and standing your ground on what is right, is important tools for the Americans to be able to use.

Mrs. Harris has several important principles for being the president of the United States. The first one is she finds common ground with those she comes into contact with. Another thing I admire about her, she develops healthy relationships with others. Her marriage, friendship and co-parenting with the ex wife and children. Then her co-workers speak highly of her, the truth of the matter I was raised by a biracial stepmom. She reminds me of Kamala as she served in the United States Army. My stepmom was the best stepmom I could ever had. We are still close today. Kamala has so many common grounds with us Americans. She is Asian-Black American. I am African American mixed with Cherokee Indian. Being different is not always easy.

You are ridiculed with racial slurs, mistreated, belittled with insults like "Cat lady", "Crazy liberal", "your ent", mocking your laugh, even bullied at through people like Donald Trump and Vance. Which is just amazing because wow Donald Trump even showed little regards for Vance who is supposed to be his vice president. Disregards it was for Vance as Trump speaks about him at the Black Journalists Convention in Chicago. Trump interview was a hot mess, and very disrespectful once again towards a ~~woman~~ woman. She was not any ~~woman~~ woman, but the Vice president of the United States.

Nevertheless, the Americans that are biracial, immigrant and people that are different understand how Kamala feels having to deal with racism and Kamala understands how we feel dealing with racism. On another positive note, she makes others feel accepted and very sensitive to the Americans needs and concerns. These principles are very valid for Kamala Harris to be our president of the United States. Amongst other reasons such as giving our senior citizen a raise on social security, reducing insulin cost, assessing the covid crisis, caring about women bodies, climate change, economy and making jobs available under her and President Biden leadership. Many good things happened under their leadership versus Donald J. Trump.

However, as an American I believe in my heart that Kamala is going to pick the best for her running mate. Some people feels like it should not be a man. No offense to men because they can do a great job as well. But America needs to do something different for the first time. Because history has repeated itself over and over with

predominate white men. Others wants to see two women to be in the presidential office. To show everyone in the world that women can hold they own. The White House is not just for white men or male. I desire woman to and little girls to know it can happen. They can become the president of United State because Kamala has paved the way.

Many has decided that Gretchen Whitmer, the Governor of Michigan should be the vice presidential running mate. We love what she has done in Michigan and how she meets her people concerns and needs. We've come to the conclusion, this would be a dynamite impact on the American people and our country for the good of us. Their careers have shown us American people that Kamala and Gretchen has a purpose that is in the interest of the American people.

They are very discipline and professional in what they do. These two women gives us a visual of what a classy lady suppose to be in ethic and on a personal level. Kamala and Gretchen has shown Americans a life where it takes hard work, self-denial and grueling preparation. We've watching them in motion whether running for a office or working within the office. They have a essential discipline of knowing their voters, ~~the~~ <sup>the</sup> needs and concerns of people, they are deligence of researching information so they can be effective in their positions. Gretchen and Kamala has expertise where they know how to delegate the right team to help them with their tasks and lead in a professional way that cause their to reflect excellence.

~~They~~ These individuals don't observe from the grand stand, then turning out to jog a couple

Couple of laps ~~training~~ each morning. Instead they run a numerous of laps training diligently to meet the American people needs. Whether its in their individual lives, when they meet someone in the grocery store or in the streets. Gretchen and Kamala are their.

For me the persuasive power is in the story, not the storyteller. With Kamala and Gretchen the story lies in what they have done for the Americans as they been active in different offices and in their communities. They have proven themselves to be worthy of the white house. On the other hand, our other candidates such as Donald J Trump. Many of us don't even know who this Vance is. I don't know about nobody else. The lives of these individuals is not what the average American would want in the white house.

Anyone who wants to be connected to Donald J. Trump is a fool or desire him to be our president is a fool. Under his leadership we actually witness before our eyes what destruction and chaos literally was. His character has always been to impress people with his lack of knowledge as to how to lead American with drawing people into his insults and trash talking nature. Donald Trump is a more of a "Walk it like he talk it" president. Lip service is very evident.

As he says one thing but do another. ~~Every~~ Just about every decision leads to more destruction and chaos for the Americans, other countries and immigrants. Everybody a criminal except for him.

I want to take a few minutes to comment on something I heard the news commentator stated

today about when Donald Trump was president. The border crossing was the lowest under his presidency. I am sure it was, when he degraded innocent children by placing them in cages - ~~with~~ which he should be in jail. On the hand, he separate families, locking them up in jails holding to be abuse and raped. Many sleeping on the floors only having foil to cover themselves. Sad but true, inhuman. Just the other day Donald Trump was pleading for christians to vote for him. As he stated I love christians. I am a christian. I got highly offended. Because he was he would have not done the above. It ~~was~~ sad, because many people claim to believe in God while refusing to give up attitudes and actions that God denounces.

God cannot be added to the value we already have. He must come first and his word must shape all our actions and attitudes. We need to reflect back on Donald Trump everything. I remember how he made the immigration system work for his Russian's wife (mother and father) transition to become American very smooth. While so many immigrant pathway to becoming Americans or even coming over here was block because Donald Trump says they all criminals. Even blocking people who had visa. Then attacking women productive rights, contractive, wic program and welfare. Went on another destructive path to attack elderly people and social security. I was devastated. Then he appointed Supreme Court judges to overturn Roe vs Wade, leaving women in a limbo to go to jail because of ~~the~~ the decision they make with their on bodies. Very sad. I guess that chaos and destruction wasn't enough

He sent those people to attack on the capital  
January 6th where many people got hurt  
~~and~~ others died ~~and~~ while others life was  
on the line. very sad I would say. Donald  
Trump even attacked a retire soldier and his  
wife calling them out there name. This man  
had fought for our country. The disrespect  
didn't end their. He begin to bother our  
troops and the transgender in the military.  
Donald Trump took from the poor, set traps  
for the innocent and shed innocent blood on  
every corner. I do not understand why Trump  
was invited to the Black Journalists convention  
in Chicago. when he has been nasty calling  
them dumb. Do you not remember when the  
shooting was high in the Chicago this man  
threaten to send the national guard into the  
city of Chicago. That was his answer to solving  
the crime rate and riots. This is also the  
same president who had people that work  
for him that was going to prison. while on the  
other hand, he was firing people because  
they don't do what he said. In spite of  
being the worst President we've ever had.  
He still road the waves of being evil to others.  
Now fast forward today in 2024 Trump  
stands convicted of 34 felony(ies). But

still remains on the street and running for the presidency, while many citizens sets in the prison for the same crimes. on other hand, some people are setting waiting in jail to be tried on the same charges but they aren't free. What makes Donald Trump better than R Kelly, Weinstein and Jeff Epstein where his name was brought up in Epstein matters. I am amazed at the American people who sets on the jury, prosecution and the judges who is allowing this to happen and support him to be in office again. What is justice and who is it for? It seem to be for people who looks a certain type of way, pour and certain celebrities. If Donald Trump was black, immigrant or another race would he have gotten away with he has done? I am just saying America! Lets be real. Many of Americans have been sent to prison because of jurors. But there is acceptance for Donald Trump who is guilty of 34 felonies. I don't understand, I am very devastated and dishearted with the American people and voters. Who is following up with Donald Trump. People this is mockery to our Democracy, criminal justice system and voting. Check yourself American people
