

You will not be comfortable on
my watch - ~~the~~

Too often people bury things in the dark. So when they are in the dark, the enemy (the devil) is at work constantly. People keep suffering and enduring hardship in the name of they deserve it. But do they really? Are poor leadership needs to be held accountable for their irresponsibilities. I feel they deserve to be punished for their irresponsibilities. Department of Correction is failing in every aspect. From corruption to I don't give a damn anymore about anything. Except for earning money to house each inmate. The leader's love of money has blinded them to be careless and cold hearted.

As the staff try to do everything they possible can to keep Pulaski Affidat, Governor Kemp, the commissioners, Senators and other elected leaders set in their office comfortably. While the Wardens and Staff have multiple jobs to do. Because of the shortage of Staff. This is not fair to the staff nor the inmates who are trying to do better. Then the people in society and government want to complain about all the violence within the prisons' system, but nobody want to come in work at the prison. Everyone wants to complain about Pulaski State Prison for instance, but ~~but~~ you who will come fulfill the duties?

If your not going to help Pulaski State Prison or any prison in the State of Georgia's problems. Why keep talking people

Everyone know the top priority for any jail or prison is security. But since the ~~the~~ Department of Correction cannot meet that. What is the purpose of prison. It seems for the judges and district attorneys to throw

more than 100s of animals into a pen or cage, where they are apex predators but no zoo keepers to protect the prey. Where the presence of a officer is very slim to none.

While many prisons are infested with rats and ~~and~~ roaches etc, on the other hand nobody wants to complain about the shortage of food and quality of ~~food~~ the food. Are they overcrowding within the Georgia Prisons? Who would ever thought any prison would run out of beds. Far as operations - September 17 the shortage of officer cause a delay of lunch. Yesterday we didn't eat lunch until after ~~3:00~~ 3:00 pm. Then the Lt. turn around having to feed the whole compound dinner. Today as of September 18 its 4pm. We have not ate lunch. The officer we had on the yard, had to leave for a hospital run. Due to the shortage, the function has been crippled for the few staff and the inmates. We don't know when we will eat.

The only resolution to all the madness in the Georgia Department Correction. Especially with our Governor Kemp, he wants to build more prisons. How is this logical? When you don't even have enough staff. I can remember when they closed Women (Metro State Prison down). Then we had Pelahatchi State Prison and Washington State Prison for the hardcore crimes. Next they shut Washington State Prison down. The women was shipped to Lee Ann Dale. Now this prison is ran down. Recently another prison is in the process of opening McCray prison for women. Georgia government has to stop patching up situations to keep women in prison that are truly ready for society and to get home to their family. Georgia still have 7 year and 14 year lifers locked

up. Many other women who have done decades for the crimes ~~to~~ they have committed. Don't look every group and gotten so much education till they can get any job they want upon release. Now life sentences are 30 years. Georgia is in a cycle that needs to be broken by Washington, DC. I feel that Department of Correction Parole Board, and Governor Kemp Senators etc needs to be questioned about the system in Georgia about the money going into the prison system. What are they doing with it.

The system is ran so poorly till it cannot be going into the inmates or systems. All kinds of program and education incentive money is going into the Georgia Department of Correction. The women prisoner use to get fed once a month and Warden snack bag. When we got our new commissioner over the prison. He stop the women from getting these incentives but the male inmate still receive their incentives once a month. Department of Correction is taxing us heavily on phone calls. They have failed to replace our tablets and computers in some dorms. While restricted our email list ~~to~~ ~~to~~ ~~to~~. They straighten out the ~~mail~~ men email list where they can email anyone who register on their JPay. But the women email list many family members and friends has been restricted from emailing us. saying they got be on a DOC visitation list. when that is not true.

Everyway sexism is operating in Department of Correction in Georgia against females. We need people who have ~~that~~ strong code of ethics. That has a sense of a true compass

First of all I want to thank every staff and Deputy warden of care/treatment Mdhogony who see a purpose within the offenders here at Pulaski State Prison. Deputy Warden Mdhogony is high on Education and being transform so we as inmates can be that productive citizen once released. I also want to thank every counselor that taught the group I was in. Each teacher I had, thank, thank you @!!

I want to say when a inmate is sentenced with a violent charge into a prison. Many people in the system, all they see is the crime and a GDE #. So in their view, we have been written off by Society. But I want to say thank you to some more people who gave me another chance to get it right and saw something in me. Thank you for showing me a better path to life.
