Hello Dee,

10-19-24

What a nice surprise hearing from you - of course I remember you - you were my first love.

I had come from a very painful, dark past with an abusive family. I landed in Job Corps and was on a weekend pass in Missoula when I met you at Arnold's Red Barn, the dance hall.

I was drawn to you right away - and I thought you felt the same.

I finally felt like I "belonged" with someone - all I knew was I wanted to be with you.

The following weekend I was denied a pass so I left Job Corps to be with you that summer -

Yeah - I was young, with no real plan other than being with you.

You were still in high school - I drove around in your Chevy I'd pick up waiting for you to come out of school so I could be with you.

I never understood why it ended - guess I didn't have a good enough plan for the future.

I was young - didn't have
much figured out, ...

So, yes, I remember you
whats on your mind? what made you
reach out to me after all this time?

I hope your life has been
good to you -

I look forward to hearing
from you - my mailing address
