

The Election of 2024 part 2 Donald J. Trump The Seat of The pants

Donald Trump is appearing very improvised as he recite lewd words without preparation of what he truly going to do for the American ~~pop~~ people. As the days double down to the election, Donald Trump is spiraling out of control with no plan. Everything is about him. Think about it who would vote for him? Only the people who has a racism and gender problems. It's only in the eye of the beholder. Saw watching, who is the majority at his rallies, white people. However, you have a couple of other and few blacks. Nobody wants to discuss the racism Donald Trump promoted.

On another hand nobody wants to discuss his attitude, especially his supporters. But what if Kamala Harris was acting and talking like Donald J. Trump does. Oh Trump supporter will rise like a chicken that has hatched its egg. They will quickly rise to the occasion to say she is not fit for the ~~post~~ presidential position. Some people admit that Trump attitude is ridiculously out of order. But no matter what many people going to stand with Trump because of his race and gender. Even though he is a convicted felony just as many other citizens that are in jail and prison.

Ultimately the most saddest thing about this election is, the same judges, district attorneys, and jurors who has sentenced other criminals. Will be voting for Donald J. Trump. Which in my view is double standards on the criminal justice system. Because their job is to put criminal behind bars. As they

quote what they jobs are. But the question is who are those people that this affect, only citizen but not Donald J. Trump because of his position in life, gender and race.

So many Americans say Donald J. Trump had the best economy and dealt with immigrants better. Which is a flat out lie. People you are delusional and really need to get your mind together. Cause clearly its not about the economy and Border policy. Cause when Trump was in office our economy was the worst ever. As our goods was trapped from being exported because of tariffs he placed on other countries. On the other hand, racism and hate crimes was at its highest.

As a result, the January 6th insurrection happened. This left the American people in a turmoil as many lost their love ones to ~~death~~. A senseless death.

Violence was promoted on every end through Trump ideological, philological, of conspiracy theory about different social groups in our society. For example, Separating the immigrants families. Placing them in immigration holdings where many was subject to abuse and death. Amongst them that suffered greatly was innocent children. Some was placed in cages. Picked on, even misplaced away from their families. This was very inhumane and cruel.

In Trump mind this is what suppose to happen to all immigrants. Not just illegal ones. But everybody that is a immigrant are illegal and people who is committing crimes. It doesn't matter about your status and that you create a honest living for yourself. He's going to send you back over to your country. But his wife, mother in law and

Father in law is ~~going~~ good. His mindset is sad. Not one single person from another country should vote for this man. The people who lost their loved one to a violent death of a illegal immigrant. I send my condolence out to you. But stop acting like this is a regular occurrence. When our American people are committing the same crimes people. Lets be truthful not fake.

From the muslim bans to the economy and immigration, stop being fake Americans. How dare anyone say our economy and immigration was good under Trump. Lets get to the fruit of the problem. Majority of the people standing behind the man named ~~Trump~~ Trump is racist, sexist and love chaos. There is no logic as to why anyone would want another four years of hell from Donald Trump in office. I been watching some of his rallies they are downright ridiculous as he ramble off topic.

Nothing fruitful for the American people. A bunch of belittling Kamala Harris. But here is the thing she has proved what can be done. The insulin prices went down. The Senior Citizens got a raise on their social security benefits. Donald Trump tried to do away with social security and our healthcare. Drug prices was higher under his leadership.

I believe of Kamala Harris is given a chance. She can and will do so many wonderful things for the American people. She has others who want to work with and for her. Unlike Donald J. Trump who couldn't hold his staff. because when they didn't agree with the wrong

decision he was making. He got rid of his staff by firing them. Nobody wants to work with somebody who ideals are wrong and intended to cause physically and mental hurts to others. Who is that person, Donald J. Trump.

However, Kamala Harris has ideas and views based on what is right and intended to be right. She also handle herself in a correct manner with honesty; justly. This lie about Kamala Harris not working at McDonald. Is another nightingale from Trump that is far fetch. Our records are no longer on file after so many years. Place like McDonald often change management after so many years. Its rare the same managers are present after so many decades. I work Mt. Holly, NJ McDonald in ~~the~~ the early 1990s. People don't feed off in Trump continuous foolishness.

So please vote for Kamala Harris. I believe she will not fail the American people. But Donald J. Trump will. Many people don't know how sacred this race is to some American. Because some voices are not allowed to be heard. Especially the inmates that are locked up in Georgia. Many understand what justice, equality, life and liberty means to each person. For the reason you have inmates from all walks of life locked up. The poor, middle class and wealthy. Even though the inmates has been written off to be not heard. There voices should matter, why because we have a convicted felony running for president. If he can run for president. Prisoner should be able to vote. But prisoner can't vote - But a convicted felony can run for president - That is double

Standards. Oh but none of the supporter of Donald
J. Trump do not want to discuss this matter. My
last words Wow!, just don't understand the stupidity
of people in America.
