Greetings,

Nov.25, 2024

Its come to my attention as it should concern us all the current new policies in place for the U.S. Postal Service are unjust. I speak of the return mail charges that are unjustly being imposed upon non profits groups, and ministries in USA. these businesses do not make money, they opperate on a shoe string budget, often going in debt each year. Often beging for donations to keep afloat. Its a sad day when good church folks are writing telling us prisoners they are going out of business due to the massive surcharges with regard to any returned bulk mail.

I speak of bible course bulk mailings, non profit mail, anything sent in flat rate thats returned the postal system charges \$500 dollers for a mail bin (a small tub). to get their materials back. this is enough to kill any budget.

Its a issue we hope the next adminstration can resolve. With hopes that a new post master is put into place by the new year. Its in all our interest to see this policy changed. take action! do not remain silent. In the interest of the needs of the many.

Respectfully,
