"RICH MAN POOR MAN"

Quite frankly, I stay mad. I've woken up every day for the past 3 decades pissed off about what this United State's Justice System has done to me! What happened to me here, would never happened to some rich or upper class citizen. I had a Judge David C. Wiggins, and a state appointed lawyer Dale Westling Sr. in April 2004 turn over my entire attorney file to the state. I'm talking personal confidential legal letter's to and from my attorneys. Attorneys notes and strategies, doctor reports over the years. Yes a damn HIPAA violation! And they just hand all of this over to the state, because the state requested it. All of them seems to be above the rules and procedures and above the law! For "NO ONE DID A DAMN THING TO CORRECT THIS!!! Why? Plain and simple, I'm poor white trash who slipped through the cracks of this broken flawed ass criminal injustice system who doesn't give a rats ass about some poor uneducated white boy!

The entire case from day one was hinged on this sorry Judge of mine, David C. Wiggins who appointing me one of the most incompetent garbage lawyers ever seen to fight for my life! I'm in a life and death battle with the state of Florida who wants to kill me, because I want take a plead bargain of life! And this sorry ass Judge appoints Henry E. Davis, a lawyer who's never handled a capital case to fight for my life! He (Davis) an inexperienced attorney, sat on my case alone. He didn't request co-counsel or hire an investigator. Because he didn't want one. Which any court would have granted a motion for investigation fees! This is what I was given to fighting for my life! Someone so brain dead that they wouldn't request an investigator to track down witnesses, and to even look at the physical evidence that the Jacksonville Sheriff's office had in their possession. No my brain dead lawyer doesn't even walk a cross the street and look at mine and my codefendants clothing that we're wearing at the time this man is shot! Clothing that has blood on it! And clothing that the jury never gets to see. Exculpatory evidence that is the most pertinent evidence in the case!! And my sorry lawyer doesn't even walk a cross the street, and examine the physical evidence collected from the crime scene. He missed out on calling numerous witnesses, from the waitress in a Huddle House restaurant in Georgia where my codefendant walked in around 2:00 in the morning, with the victims blood in his mustash, and immediately spun a lie about hitting a deer, that's laying in the back of the truck. Mr. Davis failed to bring in numerous witnesses, who watched an invent unfold at this apartment complex where my codefendants sister-n-law puts the gun in my hands, an hour after the murder. Stating that I got out of the truck with the gun, and pointed it at another man who was standing there. Her testimony went unchallenged by this brain dead lawyer of mine! And there was somewhere between 20 and 30 people standing around watching this event, that didn't have anything to do with me. It was all about my codefendant trying to see his ex wife, who left him because he beat her and his kids, and one of the individuals there at the apartment complex slapped my codefendant as result of him beating his kids, and wanted to beat his ass! He went to reach for the gun after he was slapped, a gun that he had under the seat of the truck. And when his sister-n-law picks out the gun that she said, I was in possession of, she doesn't pick it out of a photographic line up of multiple guns, no she's shown "the actual gun" that we had that

night, that my codefendant stole weeks earlier from his employee, and said, "is this the gun that the defendant had?" It was an improper identification process! She couldn't have picked that gun out to save her life! She didn't see it! It was under the seat of the truck! Where my codefendant put it! Where my codefendant kept it, and where the police found it when they took possession of the truck!! And none of this was brought out by my Court appointed incompetent attorney who was suppose to be fighting to save my life. What took place in this case is a disgrace to this fraudulent justice system, and it would have never been allowed, had I had the money for proper representation. You can't even begin to imagine how I feel about waking up every morning in this cage, knowing my codefendant is walking the street free, as I sit here for a crime that we both committed, but he was far more culpable, in stopping the truck in this dark isolated location that he wanted to kill the man in, and then shooting the man in this dark isolated area that he choose, and admitted he choose. And I sit here, while he walks the street. What a Justice System we have! Yes you would be mad too. 35 years of sitting in this cage, with these thoughts always at the forefront of your mind. Its enough to not only make you mad, but to drive you absolutely insane! And this is the Justice System that we proclaim is greatest in the world! Yes it is, the greatest in the world at perpetrating a fraud of equality! For what your reading here isn't an isolated case. You can find case after case of poor lawyering in the U.S. prison system. Welcome to the American Justice System at work.
