

And Down The Rabbit hole we go ! 2/16/2025 I saw you first , Damn , I thought you were fine ! But a fire burns no matter how it looks and the false image of warmth it present . Down the Rabbit hole we go ! You made me believe you were a woman of standing ... and. I believed you too . going against my own judgment did I over look and over look and override the facts . For , you took a hyena in and made lunch . The first signs for me to stay away. Down the Rabbit hole we go ! You Tell me you care for me, and to stay out the Rabbit's nest , but as I'm leaving , I SEE you nestled in all of them , I SEE you coming in more ways then one , as I'm going . Down the Rabbit hole we go ! I realize just how much I meant to you when you would have me believe I was crazy , in my exploration of these Rabbit holes , then for you to tell the truth , to conceal and cover up your lies , and betrayal . Down these Rabbit holes we go ! And at the end of it all , at each one of these Rabbit holes , is you're trust . and it comes to no surprise , that you trust no one , because in the essence of all things , YOU CAN'T REALLY TRUST YOU SELF ! and by the BETRAYAL , LIES and choices you made to , and over me . You are ABSOLUTELY RIGHT ! you shouldn't trust anyone STARTING WITH YOU'RE SELF . and out the Rabbit hole I come .
