Howdy

trust this finds you safe & well, as it leaves my end. Ive atempted to write you today on the tablet, you popped up briefly, with 6 other old contacts, based on location on contacts list. yours way at the newest end of list, I knew right away who you were, indeed a new contact. then it disapeared. these others were denied as blocked from contact. asuming you also are denied. i do not know why never got any disposition, or due process. its opened my eyes to my mail being sencored and the denial of a new contact, amonghthe other 6 old contacts 4 of which I never knew never heard from ever in my life time. all denied, poof gone. as soon as the server came back and e messaging resumed. so you might want to inquire into your e messaging account, add my full name charles victor thompson 00999306 my SecurusID#06086759 lets see if we can comunicate. charles thompson or the po box is the only other option. po box 660400 dallas, tx 75266

looking forward to news from your end.
until then,
ya texan friend,
