

Parallaxboi @ Salinas Valley S.P.

Took a pic today,
rockin' my chestpack, yep, I make chestpacks, backpacks, Quivers, and
satchels and more designs. Just staying creative.

All black leather, or about as leather it can get in prison.
I've been here at Salinas Valley State Prison going on 7 months
now, so, I make these bags for the few standouts that
are in groups, school or working to go home, yep, for free,
so I make about 1 bag every monthish?

The Youngsterz call me Coach because I train them in
the Sweet Science. It's going pretty good actually,
I do it because it's what I love to do, and I get
a chance serve others in my own way.

Although this place is "horrible", I just appreciate
being here after over 25 years on San Quentin's Death Row.
I still have a condemned sentence, but before I
go anywhere, I'm doing everything I can to convince
as many people to go home and stay home as
possible.

Hope you like my pic, not bad for S7 huh?
