

The Obscurity of the Human Race and the foundations of all Nations Part 1

I want to start this conversation by stating we have to look at what defines us as a Society. Clearly our action and what we allow to operate in our decision making process. Another outlook would be that, many would define society as a group of human beings as a broader distinguish from other groups by mutual interest, participation and characteristic relationships, shared institutions and for each Nations and State to be ~~different~~ different, while sharing the same core, for example, with their economy, trades, tourism, policies and laws. Just to name a few created innovative spaces.

However, as it stands today our institutions and cultures of undistinct self perpetuating group called the rich, privileged and fashionable social class named President Trump, Vice President Vance, Elon, a heart throbbing Cabinet personals, Republicans and Trump supporters - who are currently quiet, while Trump is destroying our Country and other Nations. It's amazing that we as a Nation heard you loud and clear supporters during his campaign for ~~re-election~~ reelection of presidency (we can't hear you now!) In spite of it all this, it is a factual observation that Trump and everyone he connects himself to always become a socially dominant member of a community of their own. While clown playing the truth as if it doesn't matter in our society any more. On the other hand, I would state that a gut clenching conspiracy theory is always centered at the point of their dreary claws.

Driving many Americans and other Nations into problems they never wanted to see ever again. But thanks to Trump's supporters who magically swept a win into his mysterious deteriorated palms. Sending a false narrative shockwave that he was going to solve all their problems, which sent his supporters into a inclusive pool, where they forgot about the importance of our democracy. Absolutely,

not thinking about what it means to have a government with a democracy. On the negative side the supporters didn't think about the past trauma Trump left behind from his last presidency, which caused a dominating effect that consequently created a bad aroma that is still bleeding a everlasting heartache amongst the Americans and other nations.

Especially with January 6th Insurrection who can forget this. I can't, will not. To demonstrate this caused a hellified alteration of our democracy in contrast that our forefathers fought so hard for our freedom and to have a Constitution of the United States. The dignity and respect that came behind our freedom was blood, sweat and tears that our forefathers suffered and fought so hard for, it must be at the center of our remembrance, Republicans and Trump's supporters. People this is Mockery, a symptom that is reigning in the Trump's ~~and~~ administration. Through Trump our democracy has become a joke.

It's obvious, since the day of January 6th Insurrection timeline, to now a convicted felon, enforcing tariffs, laying off ~~of~~ federal workers, to effecting our Corporations, this big nauseated ideal has brought nothing but pollution in our government and over the world globally. Everything is a good ideal when it comes to Trump and his administration. Even the good ideal to send all, what we call illegal immigrants back to their country not knowing for sure everyone is illegal immigrant. Only to find out later somebody was about to be deported or was deported under false pretense. Sad to know this happened to a innocent person. That leave a stunning question ~~How~~ many more people been deported or about to be deported under false pretense?

On the other hand it is truly depressing to know that these inmates in a prison in El Salvador being mistreated, not fed, and has been categorize as illegal immigrants. Some maybe, but to be mistreated in this manner is inhuman. When our President himself is a convicted felon. But don't have no type of mercy for people from other countries. Look like

he would have more passion due to his wife is not American. God is not pleased with this behavior people. What is sad some of the voters who voted for Trump profess to be loving people, except for when you are from another country, you are the worst people that exist. Everything I have been seeing through Trump and his administration is very questionable when it comes to moral human being with common sense of right and wrong.

It's evident that President Trump and his supporters ^{feel} they have a rule of the road that has ~~set~~ a set of customary practices that established to promote efficiency and safety in American. While the rule of thumb is a useful principle having wide application but not intended to be strictly accurate. In view of their ideology that it's ok to do whatever and whenever you want to, without any penalty behind the decisions of the prestige. Is wrong. Even though this is a false narrative on behalf of Trump, his supporters and his administration. The music seems to be right to some people, the notes are in solidarity to whoever wants to say it's ok for the following:

- (1) The Americans to commit the same ~~etc etc~~ crimes as the illegal immigrants
- (2) For ^{President} Trump to promote others to violence and hatred everytime
- (3) Racism and hate to rage in our institutions of government / our communities and in our society
- (4) Sexism and stereotype is a good thing to participate in
- (5) Categorizing and oppressing innocent people is alright and fair
- (6) you are not allowed to stand up against Trump and his administration foolishness because you will lose everything.

This is very burdensome to a multitudes of people that has been already having hard times just to survive in America and other Nations. Just to fan them that leadership is not going to be no better until four years later. When Trump leave off is scary because its worst this time. Which this operation ~~is~~ of Trump's administration is leaving different subgroups of people, who has already suffered unequal treatment under his previous rulership that they are surely in a hole scrambling trying to see where do I fit in this confusion.

I must admit this is very devastating and rotting to the core that any human race would be drowned, to feel this way. On the other hand, the double standards with the local and state government, communities and in our society is so higher than a average individuals that are political figures. Especially, what we call the citizen's standards, as we have to do everything right almost, with no crossing any line. Point in view, our own President Trump is a convicted felon, their are other defendants, wish they can walk around with another chance. I been in prison under a felony of murder for 28 years based off hearsay evidence in the state of Georgia African American woman. Nobody giving me a chance. Instead I keep being denied parole based off I haven't done enough time or ~~the~~ circumstance surrounding the crime. They keep playing Tik Tok with me and my husband. They set me off two years this time. The last time they set him off two years. Even though our conviction is flawed under void sentence.

There inmates behind the Bars in the state of Georgia that are not a risk to society in Georgia and been convicted off hearsay evidence are not getting a break by Georgia Penat system and having to serve all this time. But Georgia accomodated a convicted felon Donald J. Trump by placing

back in office. But the same state is hard on Criminals and keeping them locked up. Clearly, whether people in our government or society don't want to admit, because Donald J. Trump is white predominant rich man that Georgia accommodated for him to be reelected, as it was made known that a sitting president cannot be sent to prison or penalized for their action.

If that was a black President, the Congress, Senate & other politician would have changed the laws so they could have sent him to prison for a long time. Many racist Americans would have been protesting so it would have happen promptly. So our views and agenda has to change when it comes to positions, government (local and state wide) etc. One important point a President can be impeached so why is Donald J. Trump and his staff has not been impeached?

I can remember two black congress men that was ousted out of the senate or House of Representatives a couple years ago because the other congress women and men felt they was being disruptive during a meeting that was taking place. Remember these two young black men was ousted real fast along with another female congress woman. Here we have a predominant white rich man who is causing disruption in every which way. Nobody ain't saying nothing, just setting back letting all the foolishness happen, the only people opening their mouths and putting a chin to Trump's feet is the judges. Where are you Republicans? The cat has everybody tongue. Is you scared your going to loose your job? You shouldn't.

However, this policy needs to be changed, a sitting president cannot be charged with a crime and not go to prison.

If not, this can continue to open up a damaging process to the Americans or any other nations: where higher officials like Donald J. Trump can keep committing crimes and not be punished. People can run for president so they can get out of their punishment. Individual like Donald J. Trump should be obligated to serve their time. Just as any other celebrity has. On another note, I feel this gap of policy must be closed up ASAP before in the future things get out of hand. No country ~~should~~ should never send a signal out that it's ok to abide by double standards in no policy or law. Because it polarize it's ok to do whatever and whenever you want without penalty.

Let's reflect back on the past facts. Donald J. Trump was convicted of 34 counts of felonies in the connection of hush money. No prison time, sad to the core. In another case WWE founder Vince McMahon paid 1.7 million for hush money case. Where is the penalty for their action? Paying out money to shut women up, however I do have a question? Women why did you accept anything from them to keep you quiet? On another instance Donald J. Trump violated his gag order and was disruptive so many times in court. No penalty other than a unconditional discharge with penalty free in hush money case. He can travel all over the world- don't have to report to a probation or parole officer unlike many citizens that are on parole or probation. Donald J. Trump is pretty much accommodated as the United States President. This is the nugget of the ticker- Trump past Staff member Rudy Giuliani is found with contempt of the Court, ain't that something.

Think about this - How many people locked up under sexual assault and molestation. But people like Hegeseth and Donald Trump gets away with the things they did in the past. But many of these offenders are labeled as being pedophilia because of the same situation Hegeseth find himself with a 17 year old victim. As I always has felt and stand strong even, that there needs to be a distinguish between pedophilia and someone who bit the bait of the youngster. Not everyone should be registered as a sex offender. If they commit the same offense deliberately yes they should spend lifetime as a sex offender. Currently the criminal justice system has so many misplaced inmates in prison, that are deemed as the worst offenders ever. They've been categorized by the prosecutors, judges, jurors etc. But when you investigate their case - you can see the prosecutorial misconduct that was involved.

However, Trump and Hegeseth past situations proves that in view there are some men that are very distorted, when it comes to women. Their moral standards and integrity has become doomed to their senses to the sensitivity of women. Another point is their social ideology, when it comes to feminism is dull and distasteful. Understand feminism is somewhat difficult to define, for the term means different things to different people. Some who call themselves feminists are merely interested in promoting the dignity and worth of women. Other seeks to promote a specific sociopolitical ideology that goes far beyond this.

Feminists raise many ~~valued~~ valid concerns: the verbal and ~~physical~~ and physical abuse of women, the degradation of women through pornography, human trafficking, prostitution, stripping, orgies, escort service and promotions that sometimes comes with a penalty. The attitude that it is ok to treat women as a less than. However, some feminist philosopher purports that solution to these problems lies in women claiming the right to "name" or decree meaning for themselves. They encourage women to decide who they are, what the world should be like or ~~when~~ who or what God is, Scripture stands against this solution. The bible teaches that God and God alone has the right to define these things.

God made the earth and created man and woman, and he has determined who they are and how they should live (Isaiah 45:10-13; Romans 9:20,21) Holy Bible - Kings James.

Women are made in the image of God (Genesis 1:27) therefore, they ought to be treated with the same dignity and respect as men. The bible does describe, however, basic differences between men and women that are to be honored as part of God's design (1 Corinthians 11:3-16). The bible does not support the degradation or abuse of women. At the same time, it does not support the right of women (men) to put themselves above God's plan and do as they please. Christians need to respond to the real problems that feminists identify, but ~~they~~ concerning the female agenda, God has revealed in his word Biblical Equality (Ephesians 5) Femininity (Psalm 144).

Noticeable, the feminist Theory; much of feminist has foundations in the conflict perspective, feminist Theory critiques the hierarchical power structures that disadvantage women and other minorities (Cancian 1992; Collins 2008). They note that men form an interest group intent on preserving their privileges. Feminists also argue that sociology has been dominated by a complete view of the social world. Some branches of feminist theory come from interaction perspectives, emphasizing the way gender socialization, cues and symbols shape the nature of much human interaction. Thus, feminist theory moves from meso- and macro-level ~~and~~ analysis (e.g. looking at national and global situations that gives privilege to men) to micro-level analysis (e.g. looking at inequality between husbands and wives in marriage). In particular, feminist theory points to the importance of gender as a variable influencing social patterns (Brettell and Sargent 2008; Burn 2001; ~~the~~ Kramer 2010; Lerber 2008). Many people face inequality due to multiple factors, and it is the interplay of these factors that interest Patricia Hill Collins, an important contemporary scholar. Collins examined the discrimination and oppression people face because of their race, class, gender, sexuality or

Nationality, all of which are interconnected Collins uses the term intersectionality, meaning individuals have multiple identities (eg. race, class and gender) that intersect and impact their lives and opportunities (Ballantine et. al. 38).

In my view, I agree with feminist theory biblically as well with all the other authors' theories above. Nevertheless, I must admit today I am truly feeling blue that it was predominately ~~African American~~ and Hispanic males that voted for Donald J. Trump back into office, which also had a problem with Vice President Harris, especially when she said that she was going to pass a law for transgender to have sex change surgery in prison.

I concede that wasn't a good idea. On the other hand I don't conform to good where Trump supporters that lied on the law Harris blind sided her potential voters. As she laid out ~~a~~ a solid plan and had the American people best interest in mind. I cannot understand why ~~some~~ some men are intimidated by women leadership. Surely by now we would be past the old trick of the matriarchy rules the world. The modernized problem with some men is they are struggling with their identity and sexuality. Because of this many women find themselves in weird situations where they are undermined, which affects the woman integrity, character and moral standards.

That is very melancholy to have to deal with in this world, today. I am here to speak to the men who voted Trump in office. Stormie Daniel could have been your wife, sister, Aunt or anyone connected to you. It's not OK to mistreat women or undermine their leadership. because you believe in your mind a woman shouldn't be a leader. I feel many people owe Vice President Kamala Harris a apology, any other women you have done wrong in swept it under the rug. You might not like me today or even tomorrow. I can hear ~~the~~ the comments under the men breathe or in the mind of the others, who do you think you are.

Good you asked, My name is Jennifer Johnson. I am a survivor of three molestation and a rape. Also has been a victim of domestic violence, a numerous of times. I've had two miscarriages. On the other hand, I have dated men in the past that was a never ending story of "poisonous." As they set the tone of they were going to whatever and whenever they want, no matter who they hurt. These men was extremely toxic, dominating, arrogant, prideful, undermining towards women and felt they had to show their macho side all times. While at the same time they had a charming side that a lady would die for.

Do I dislike men absolutely not. But this masculinity, pride, arrogance and macho. When will it stop? Especially if you say you are a child of the most High God. This is a sensible conversation that needs to be discussed over and over. I have brothers and cousins in my family that don't get it. Unity is everything. For example, previously I was talking with my brother he was complaining about what his wife don't do. I told my brother, you need to get a better perspective on this situation. You and your wife needs to work together by communicating. Another important factor, my brother and wife needs to set a example, la laa. My brother's father, which is my step father, showed the same behavior with my mother. My step dad just as his son loves throwing their masculinity around, they are the man of the house. To this day, my stepfather who is a "Pastor" is the same as he was when I met him in the 80s. Could you imagine, I am ~~50~~ 50 years old nothing has changed with my stepfather - He still chasing women and mistreating them. The mindset my stepfather has towards women is they are just sex objects and push overs.

My birth mother finally divorced my step father after 20 years. Cause he was so disrespectful to the family. Even violating me from 9 to 13 years old. By bringing my story to the light shows that there has been a tedious lengthy history of violence, sexual addiction, domination of controlling another person and treating women as they are less than by men from younger to older generation. It's time to break the cycle.

This starts when people admit I have a problem. I need help. As it stand its totally the opposite nobody wants to admit, hey I need help or want to face what they did wrong. simply because so many people wants to paint this good picture of themselves as a good person & "who did nothing wrong."

When people such as Donald J. Trump, Vance and his cabinet and the Republicans' don't want to be corrected on the wrong they have proposed in America and other Nations through wrong policies and actions. I have a problem with this because they are not taking a honest look at themselves. Surely if they would have had our best interest in the first hundred days in office. They would've taken a different approach that helped the Americans and other Nations instead of "ransack."

The thought of America and other Nations' being search through and ripped into pieces is disgraceful and burdensome. Especially by a twaddle government that is in a turbulence condition, already. As the deliberate corruption, mishandling finances and bullying flowing through our political leaders. The question is not what ~~of~~ do you do at this point. It is how you handle the political leaders that has been appointed, knowing they have got away with so much deception. Cause nobody hold them accountable. Each individual has a opportunity to continue what deception they started. More so cover up every single piece of dirt they will continue to do, because they have a dull their sensitivity to the laws of the land, what is right and equality of life, liberty and justice.

on this instance, our society of people are hoping that not only the Supreme Court will ~~stop~~ step in stop Trump and his administration's executive ~~notes~~ orders. But the Republicans would stand up to

Donald J. Trump and his administration of all the ~~other~~ wrong decisions they making in the name of the interest of his supporters. We are desiring Donald J. Trump and his administration will be impeached and outsd out of office. ~~Rep~~ Republicans: I plea with you - you have the floor to make boundaries when it comes to making decisions, there are more Republicans than Democrats. This is your time to respond constructively to all of the confusion through Donald J. Trump and his ~~and~~ Administration.

This is a time for Republicans and Democrats to cease the moment to work in unity through the chaos not giving Trump and his administration everything they want. In respect to keeping in mind that many households was damaged through Trump and his administration in the past. Those hiccups are still around, that left a ever lasting damaging effect on the Americans and other nations still to this day he is carrying out executive orders that don't make no sense. As he continue to rationalize that these executive orders must happen.

~~Keep~~ Keeping this in mind, the legislator's must govern Carefully for the Americans because Trump still has victims that is scared for the rest of their lives physically, financially and mentally from the detrimental unintelligent ~~polices~~ policies and tariffs. Due to the high rise of fear some people don't think before they react. my fellow Americans and other nations we living in a time where we have to be cautious, of what we say or do. Thank about it, every horrific tragedy that has happened ~~in~~ our world. Each person that ~~caused~~ it, caused it, justified their actions.

Seriously in their mind they are right for their choices, they made. For example, a illegal immigrant sets a woman on ~~the~~ fire in NYC subway. Illegal immigrants breaking into professional athletes homes. What I would say Americans are justifying Donald J. Trump Rhetoric about sending illegal immigrants back to their country calling them all criminals. Another example, the suspect in the CEO Killing of the United Healthcare.

This CEO was getting rich off other innocent people pain. Do anyone have a right to kill absolutely not. Some people that has a emphatic attitude about certain situation. Act it out in the wrong way. On another occasion suspect drove their vehicle into crowds in Germany and New Orleans - the word brought up terrorist. Some people suffers a identity crisis where they have not gotten enough recognition for the productive things they have done or was doing in life so they become bitter with life and situations will ~~lead~~ lead them down the wrong path. Just so they can be recognized for something. Then here goes the promotion of the words terrorist and "illegal immigrants" "the Criminals", "Drug Cartel" very sad labels on people.

To the Veterans or Veteran that took his life that day in New Orleans the incident where he blew himself up. I want to say to his wife. I just wish he would have talk to someone you've been in my prayers and will always be. You have a friend here. To all our military get help if you need it. Never, ever, ever let each other go. Unity is what the military is taught. Stick with it. When one person is down in your Brigade lift them up. I know you all is facing depression again since this Trump and

his administration tries to tear the Unity in the Military up again. Why are we concerned about the Name of a Naval Ship and renaming it Hegeseth? Don't make sense at all. I understand it's hard when you put your life on the line and go all out the way because you love your job and co-workers. I want every military personal to remember nobody can break your unity or spirit unless you allow them to. Let your voice be heard that you want allow this administration tear the military apart.

Nobody should have that type of authority to come in just fire people out of the government without a due process. Intimidating employee or other nations leaders about taking over their properties etc. Never let anyone scare you out of your position without a due process. The saddest thing about this whole situation with Donald J. Trump, he said he was going to be a dictator. He has rekindle the emotions to do just what he said was going to happen. The question that can be asked now, who wouldn't be mad after all the behavior to utterly destroy America and other Nations in his display of destruction.

This music the Americans and other Nations is dancing to is very awful before our ~~eyes~~ eyes. Nobody should be reminded of this bullying and intimidation from Trump and his administration. What is this teaching our youth? People this is wrong. Somebody needs to correct it fast, I would say. I am assured that some people are quietly angry at Trump and his administration. That he is putting them through hell all over again. The anchor that sank to the bottom of sea is that Trump and his administration came in with a mind to retaliate against our governmental institutions because he messed up and was convicted of 34 felony (es)

Not the American people or the ~~other~~ other Nations leaders. As a result of this behavior. Many innocent American was throw off their jobs. My daughter got laid off because of Donald Trump foolishness. She was a single woman trying to make ends meet. My daughter wasn't the only affected but 200 other employee was as well. Thank God she got a better job. This was a monkey wrench no American asked for. Instead Donald J. Trump and his administration should have been helping people bring new jobs.

Instead of driving businesses to bankrupt, laying off and going out of business. Many business has lost out since Trump and administration be in ~~the~~ office. How is this explained? Isce why convicted Felon are not allowed to vote because we see through the web of deception. Americans keep a tight lid on convicted Felon, we would not vote the wrong people in office. Currently I am tired of the Americans voting the wrong people in office. Its becoming the normaly that some Americans feed off chaos and drama in life.

It became evident as the same small towns, city etc, vote the same type of people in office to keep their flat line policies and laws degenerated corruption flowing that benefits ~~their~~ their agendas. What the people wanted that made sense got lost somewhere. When people begin to make noise and some stay quiet out of fear. The one making noise is deemed foolish and the one staying quiet out of fear, is losing out on what they want to happen. Majority of Americans acting like they are scared to speak up about Donald J. Trump and his administration. I will because too many people lives has been damaged. ~~This~~ This round two has been devastating for the Americans and other Nations. Our best interest has been nothing but doom and gloom as we suffer a

Categorizing crisis, who wouldn't get tired of being falsely categorizing people as criminals, terrorist and thugs. Whatever equality we did have, has become so cluttered till not even a ant can have equality of ~~life~~ life. I am amazed at how many isolated incidents that happen with a small category of illegal immigrants. Which don't have nothing to do with the next immigrant or citizen-work visa etc. The Americans and other Nations has been suffering for centuries as they have been categorize. What others fail to realize is, as long as people being placed in category, that is harmful to their personal self-esteem. All nation will have poverty, bombing, terror attacks, school shootings, violence in prison, on the street human trafficking, robbing etc. When individuals' has been categorize for so long the truth of the matter they don't give a damn about what happens next. In their mind, anything goes no matter who they hurt. Prime example of this, is when people commit serious offense, immediately they are labeled monsters, animals or deserving to die in prison. Or when individual do things outside of committing offense, such as cheat on their mates. The woman is looked upon as a whore. When a man cheat, he is ruled as a player.

For some this categorizing has been operating a long time through different people that they come in contact with such as community, co-workers, mates, friends and sometime mere strangers. But how ~~is~~ is it people like our president - who has 34 felony and has been convicted of those 34 felony does not get labeled. Exalted to the highest esteemed by people. Who has set on the jury duty. Even prosecuted cases as well set in as judge in our judicial system and life, liberty and whole for every criminal behind bars. As well fighting their case in the

Judicial system,

I can recall a ~~my~~ major crime story where this man lost millions of American dollars. He was a prominent business man. He was labeled and died in prison. They call him a monster. So the question for society, is they really are monster, animals and deserve to die in prison. Are these individuals retaliating because someone labeled them somewhere in their path, so that lead them to do something horrific through offenses. Some people can't shake being categorized by others. Which lead some people to take matters into their own hands.

Instead of letting God get vengeance. Another question is it right to retaliate against others, absolutely not. The holy bible states Genesis 29:28-30 although Jacob was tricked by Laban, he kept his part of the bargain. There was more at stake than just Jacob's hurt. There was Rachel to think about, as well as God's plan for his life. When we are tricked by others, keeping our part of the bargain may still be wise. Nursing our wounds or plotting revenge makes us unable to see ~~from~~ from God's perspective. We must leave revenge with God. Genesis 34:30-31 In seeking revenge against ~~the~~ Shechem, Simeon and Levi lied, stole and murdered. Their desire for justice was right, but their ways of achieving it were wrong. Because of their sin, their father cursed them with his dying breath (49:5-7). Generations later, their descendants lost the part of the promised land allotted to them. When tempted to return evil for evil, leave revenge to God and spare yourself the dreadful consequences of sin. Good remedy is to pray instead of seeking revenge 1 Peter 3:9

In our fallen world, it is often deemed acceptable by some to tear people down verbally or to get back at them if we feel hurt. Peter, remembering Jesus

teaching to turn the other cheek (Matthew 5:39), encouraged his readers to pay back wrongs by praying for the offenders. In God's Kingdom, revenge is unacceptable behavior, as ~~it~~ is insulting a person, no matter how indirectly it is done. Rise above getting back at those who hurt you. Instead of reacting angrily to these people, pray for them.

This is for these unnecessary wars that are raging in other countries: (for an insult) Judges 12:1 Holy Bible Israel had just won a great battle, but instead of joy, there was pettiness and quarreling. The tribe of Ephraim was angry and jealous that they were not invited to join in the fighting (although Jephthah said he had invited them). The insults of the Ephraimites enraged Jephthah, who called out his troops and killed 42,000 men from Ephraim.

Jephthah usually spoke before he acted, but this time his revenge was swift. It cost Israel dearly, and it might have been avoided. Insulting others and being jealous are not right responses when we feel left out. But seeking revenge for an insult is just as wrong and very costly.

The Boomerang effect of Revenge - Judges 15:1 Holy Bible Samson's reply in Judge 15:11 tells the story of this chapter: "I merely did to them what they did to me." Revenge is an uncontrollable monster. Each act of ~~retribution~~ retaliation brings another. It is a boomerang that cannot be thrown ~~out~~ without cost to the thrower. The revenge cycle can be halted ~~by~~ only by forgiveness.

This revenge spirit entered in American government through Trump and his administration, because he

became angry because the DOJ - federal government was making Trump face the wrong he was doing. Why should he be treated different, especially when every other criminal in America has to be confront with the offense they have committed. Many has or currently serving time in jail or prison. Others are on parole or probation.

How is it that the Republicans has allow^{ed} so much from Donald Trump and his administration to retaliate this second term against anyone. My question is why are the Republicans setting back allowing this chaos in the American government? I mean what is it they are ~~scared~~ scared their going to be fired. It appear that the Republicans cannot put these fires out that Donald Trump and his administration has started.

Unless, the Republicans and Democrats put their foot down together, saying enough is enough. Donald Trump and his administration is going to keep creating storms for our government institution. Too many business and institutions has been affected by their poor-decision making process. He has created problems where there was no problems. Other nations should not be intimidate or threaten to have things taken from them, because our President has a control issue that is out of control.

We all in this ~~gl~~ globally together. Each country can prosper, its enough wealth for everyone. We need each other. Russia and Ukraine can come to agreement. Any other country having problems with other country. There can be peace all over the world. The most power full thing in life is unity and peace. When we join our hearts and mind together we become one.

Right now I am upset with Trump and his administration. They came in the office with destruction on their minds for Americans and other countries, out of retaliation. People this is wrong, why take from us Americans and other countries? So what is going to happen with the money cut from all these programs that are needed.

Where is the example in our government, especially for the youth that might want to follow your path. One of the most discussing thing that has shaken my ~~core to my stomach~~ Stomach to the core. Trump and his administration got rid of DEI programs. How can you begin to even understand anything about Diversity and equality when their whole staff is predominant white. Do you really care about any other race? People open your eyes, you know this is not right.

Another problem that remains for century after century in America and other country, we have a problem with individual and subgroup categorizing others in the wrong way too quickly. While bullying, intimidating and placing innocent people in the same bad category.

In recent discussions of Trump and his administration's operation, I feel that in view, our conversations are not deep enough. My point is this getting to the core of the problem and solving the issues ~~around surrounding Trump~~ surrounding Trump and his administration promptly.

Some might argue that when it comes to the conflict between Trump and his administration over tariffs and immigration, our sympathies should lie with victim families who lost a love one because they was brutalized by a immigrant and other countries should be taking our business and money.

My own view is that all this propaganda is a political stunt to keep a flatline of ignorance going on a saucer plate hoping that everyone would continue to eat from their table. I am sure that I am not the only one feel that Trump and his administration has overexerted themselves through the eyes of calamity syndrome.

Their promotion has become a inhuman and a cat call. That is drawing further question like what are the Americans to do that don't agree with Trump and his administration cat claws?

None of them are not even train for the jobs they have accepted, sad story.

The answer is: Impeach and Ousted them out the door. The only want to get rid of foolishness cut it from the root.
