

The Obscurity of the Human Race and Foundation of all Nations'

Part 2

The Elderly Population and Our Social Security Institution

Today I want to provide a template that is designed to change circumstances on behalf of our elderly population and their Institution in the government called Social Security participants. Specifically, Trump and Republicans argue that they want mess with this institute of the government. But, that is false because I have been recording everything in my mind and heart of what has been happening with our Senior Citizens!

This subject is right at home for me. Cause my mother in law and father in law currently receive Social Security. They are elderly in their ~~ear~~ latter 70s with tons of health problems. Some people are born with health issues. On the other hand, other people become sick in their body later on in life. Which is beyond their control. However, having a disability does not ~~exclude~~ exclude the Senior Citizens from getting equal treatment from our government. The Land of the "Free" and "Freedom" "America". I often ask is we really free in "America".

I always establish absolutely "No". Cause if we were wouldn't have to discuss the fact that our Senior Citizen is being left out when it comes to benefit, for example, the recent Stimulus for the taxpayers. Senior Citizens wasn't involved because they are not taxpayers. So they didn't get the Stimulus, even though they have to pay their bills, such as they have to provide shelter, clothing, food and transportation for themselves out of their social Security check.

People this is not right. We got to speak up for the voiceless. Many Senior Citizens don't have a voice or don't know how to speak up for themselves. For instance, during the Pandemic many parents that is on Snap receive double foodstamps for their children. Senior Citizens receive nothing. As of matter of fact, many Senior Citizens has been ~~deem~~ deem they are not eligible for foodstamps because their Social Security payment is too much. So they scrounging trying to find money for food.

But here it stand, some Senior Citizen house rent is \$500, the car insurance is \$400, electric bill \$450, vehicle payment is \$500, Life Insurance \$1300 or more because they want a decent burial etc. So the question lingers, how can their Social Security check be too much. The thought is scary to me. As our ~~senior~~ Senior Citizen struggle ~~the~~ the government turn a blind eye.

Recently, there was report on the news that many Senior Citizens had been paid too much on their Social Security checks. Now they are deem to pay it back. I cannot believe Trump and Republicans are doing this, very heartless. This make me sick to my stomach, watching our government dominate our Senior citizens the helpless.

New tariffs on the Pharmaceutical companies over seas. Which will put the Senior Citizen in ~~into~~ a diabolical stage. Cause not only do our elderly has to depend on medicine. For many of them, it's a life or death situation. They have to have the medicine the doctor prescribe them. It's as if nobody in the government can be really focusing on the destructive path this will take our Senior Citizens on these tariff and new policies that Trump is enforcing. It appears that majority of government is wiggling out on a low unsteady tone as if they don't have no authority in the cat claw fight with Trump.

American government we need you to come back to reality that our Senior Citizen is being left out and "Take A Stand" they are deserving of all the benefits they can get to help them.

Now lets turn to our local government. I am going to talk about our local officials in Bainbridge and ~~Donaldsonville~~ Donaldsonville, Georgia. Not too many people care about holding these small towns accountable for their budgets and how they spending money in the County.

Now they closing Social Security offices. So this leave the Senior Citizens traveling a long distance to get to a office so they can handle their business. Once again our ~~Senior~~ Senior Citizens disadvantaged. Department of family and children Services was created for the disadvantage (poor) or people in poverty. Many people are poverty because every time people think they head is above the waters. Here comes the government throwing a monkey wrench to disadvantage the people in poverty all over again.

If this off is for people in poverty. Why ~~is that~~ is it, that Senior Citizen is disadvantage. Its been said that some citizen social security is too much so they are not eligible for foodstamps. However, if they do apply and make the bait to "receive", I seen Senior Citizens' get approve \$14.00 worth of stamps. How in the world they can live off \$14.00 for a month. Senior Citizen has to eat as well.

Then there is meal on wheels. For instance, my mother in law and husband ^{her} been waiting for years on a list in Donaldsonville, Georgia. While the local government setting in their comfortable office. Is this fair to our Senior Citizens, ~~absolutely~~ absolutely not.

I believe our Senior Citizen for a single household should be able to receive at least \$300 food stamps, while married household should receive at least \$500.00. They have to eat a whole month. We got to care about the helpless which is our Senior Citizens. I love my babies Senior Citizens - I care about you - you have my heart. You are not alone - you got me
