Subject: . "WHAT'S ...

. "WHAT'S WRONG WITH SOCIETY?! "

Charlie Kirk's death celebrated! What is wrong with you people?! You've got pastors, and professors U.S. soldier's celebrating the death/murder of this son,father and husband! Did I agree with him? No, but I would love to have discussed things with him. I would love to have debated the second amendment and Christianity, and the fact that those two things, do not go hand in hand. For the Golden rule can not apply when you have a loaded gun aimed at your neighbor. For he said love your neighbor as yourself! Love does no harm to your neighbor or fellow man. Society has become something that I don't recognize. Human decency has been lost to hate and contempt. I disagree so I kill you?! I disagree so I celebrate your death?! Something is terribly wrong with the way people are thinking. All I see is death, death and more death! Higher execution rates, and the murder rate going up. Lead by example, and the example that we should be leading by, is love, mercy, peace and forgiveness. Not discord and division that leads to more hate! And if you can't see that, you need help. Because what we should see first and foremost, is we are all human beings that someone else loves. May God have mercy, for I'm not seeing any with his creations. Charlie Kirk was a man who deserved to raise his kids and grow old with his wife. Can you not see that?

In Peace and love Ronald W. Clark Jr.
