Thank you for your compliment on my writing *The Obscurity of The Human Race*. . . I know it's alot going on in the world. It's good to hear other people deal of what they think about the situation. I try to connect always with my audience and feel what they going through. Some has the same situation, then are those who are traveling a different journey, but still their is some way we can relate. Everyone need a shoulder to lean on. Including myself.

This week in my dormitory we had a conversation about the following verse in the Holy Bible James 1:19

Many don't understand why we keep having schoolshoots, killings and Political assiss nation attempt or assisstantion. It's all about what the political figures are putting out in the Universe since they been voted in and they the systems are failing the American people, as the government make irresponsible decision. So many political figures and people that works in the government system:

Problem 1: When we talk too much and listen too little, we communicate to others that we think our ideas are much ~~more~~ more important than theirs. James wisely advises us to reverse this process. Put a mental stopwatch on your conversation and keep track of how much you talk and how much you listen. When people talk with you, do they feel that their viewpoints and ideas have value? These verse speak out of anger that erupts when our egos are bruised. I am hurt - my opinion are not being heard, when injustice and sin ~~is~~ occur, we should become angry because others are being hurt. But we should

not become angry whenever fail to win an argument or when we feel offended or neglected. Selfish anger never helps anybody.
