

~~Longgg Left~~

I had no idea!, this house
was unideal to be a home.
This beautiful ugliness of her
breaking more than window hearts
art w/hands... Oh!, I longgg
left her alone.

Who disturbs what they destroy-or-demolish
(for that matter) by reconstructing
anguish once it has been
abolished?—

To think of how peculiar uneasiness feels
w/the right side of his
face swollen, and
the left side
brazenly-bruised—yet, nevertheless
to stop the decaying of Human Rights;
of art to craft —

I!, was not going to remain in this environment
battered — of —
near dying's metaphor (to say) there remains
no more of us, in the best of our element
or an unphotoedited perfect picture boasting
unartificial when in public —
then, in private domesticating violence
and vandalism — 8/24/25 w/m Denny
