

The Spell

To exercise intense and sternly contemplate
the cadence conveyed
In accusations' resentment, fated obligation
unearths the unusual unease.
Defensive as fencing defends a loved one,
a jump and a cry doesn't skip
and laugh teaches a dull pupil rearing up
to rebel, instigates like kids.
A calisthenic to exist and broaden, warm
and sun, evolution upon axis.
Or without you, season come season, callus
disusual causes unease
Intense. If we could divorce these walls, sit down
two negotiate tandem teaming,
Teeming all the wild horsepower Shelby Mustangs
rev up in rendezvous.
In high repetitions, how push ups plate
contemplate your portrait
minted pleasing, the amber of oaks leaves in autumn's
late, the whip cream
Or carnation complexion and the spell of Kaleidoscopic
hypnotic eyes, now winter
Recalling "I wanted to see you burned alive"
