"If you are deaf, dumb, and blind to what is happening in the world, you're under no obligation to do anything. But if you know what's happening and don't do anything but sit on your ass, then YOU'RE NOTHING BUT A PUNK!."

SURROUNDED BY GUNS !

"There is as much force in a Black man standing up and exclaiming after the manner of the 'Old Roman' -- 'I am an American citizen,' -- as there was in the Irishman who swore he was a loaf of bread, because he happened to be born in a bake oven.... I can hate this government without being disloyal, because it has stricken down my manhood and treated me as a salable commodity. I can join a foreign enemy and fight against it, without being a traitor, because it treats me as alien, and stranger, and I am free to avow that should such a contingency arise I should not hesitate to take any advantage in order to procure indemnity for the future. I can feel no pride in the glory, growth, greatness or grandeur of this nation."

-H. Ford Douglas
'1854'

Indeed, that's precisely how WE SHOULD and MUST FEEL about the very concepts and motives behind President Donald Trump's policies and programs towards supposedly "Making America Great Again," when, in fact, for so-called African-Americans ("New Afrians"), "America has NEVER been great," and WE KNOW, that the real objective, on the geo-political, socio-economic, military and strategic planes, is actually to reinforce and revive on an optimal level WHITE MALE SUPREMACY, i.e., "Make America Great Again," is nothing more or less than a CODE WORD for returning ^{to} white folks positions of power and wealth at the GREAT EXPENSE of especially PEOPLE OF COLOR ACROSS THE GLOBE, **so** please don't be FOOLED by President Trump threatening to attack Nigeria on behalf of supposedly aiding "Black Christians," as it's all DEEP DECEPTION.

Just like the deep deception General Colin Powell employed towards providing cover for this country's war of aggression against Saddam's regime by falsely claiming he possessed WMDs and had ties with Al Qaeda, even though I'm of the mind that most in this spoiled nation, could care less about "desert niggers" or "savage Injuns", as how Iraqis were/are referred to via those of America's racist military, since the history of this nation ~~makes it~~ ^{makes it} very clear that the reality is or the pathetic (See next page)

~~the~~ truth is, even the most professed "liberal" Left-leaning "humanitarian," caught in the vortex of greed and selfishness, wouldn't blink a damn eye and nor have any sense of real outrage if their SUPER-PREDATOR rulers, Democrats and Republicans, did ~~it~~ ^{not do just} what he said.

The reason I believe most would not care is because, how can it be conceivable for the politically sane to actually believe most in this country would care for "desert niggers" or "savage injuns" in Iraq, as many in the United States' military thought and think of Iraqi people, when most don't have genuine concern for the so-called "dirty niggers" and "savage injuns" right here in America's racist paradise?

As far as whether or not Bush II, Colin Powell, now deceased and whom FOOLS gave an Award to for him being nothing more than another of the Black World's "Mubutu," Dick Cheney, Condoleezza Rice ("No Greater Honor"), did she say, and Donald Rumsfeld did and persist in lying about WMDs' and imaginary Al Qaeda terrorists allied with Iraq, the fact is as long as one remains firmly rooted in the real history of America and not be ensnared by our foes potent and crippling mythology, you'll forever know and find it most wise to conclude that, those of the RULING CLASS "lie through their teeth" with a straight-face, even as their political and military tools appearing on their machines of great distortion (e.g., NBC, CNN, ABC, CBS, FOX, etc.) do the same.

I mean, doesn't the blatant and terrible lies of the past of this OUTLAW GOVERNMENT remind one that we must ever take what they say "with a ton of salt"?

"The truth of the matter is, as you and I know, that a FINANCIAL ELEMENT in LARGE CENTERS has OWNED the GOVERNMENT of the U.S. since the days of ANDREW JACKSON."

-Franklin D. Roosevelt

Here's another truth, which applies to the WORLD in which we survive: "THE ONLY REAL 'RACE' THAT MATTERS, IS THE RACE FOR WEALTH AND POWER". So that matters are very clear, I don't say this as an excuse for y'all to disregard concern for our folks and neither to go running from the principled and obligatory struggles in which the majority face here in America. The truth is, RACISM and POVERTY are STILL DESTRUCTIVE FORCES impacting our folks lives in many ways, feel me? The main point I'm making by saying "the only real 'race' that matters, is the race for wealth and power," is because the way the world has been DESIGNED -- i.e., engineered -- what did Tupac Shakur say, "Don't blame me/I was given this World/I didn't make it!", is that "everyones" most important concern or what a large percentage of humanity is conditioned to ardently value and chase after is wealth and power, even as the reality is MOST will NEVER obtain neither of these.

Although their definition and idea of wealth and power may be empty of spiritual value

and nor involve a higher-calling, still this is what MILLIONS believe brings meaning to their life. The way that this wealth and power is acquired is of no real concern for MILLIONS as they are simply playing by the rules of the domestic and world economy i.e., the order IMPOSED "from above high" via ALIEN FORCES.

We are thus compelled to either do it "their way" -- i.e., "survival of the fittest" or "get it how ya do!" -- or struggle to create a reality which isn't based upon negative and individualist wealth and power pursuits, i.e., domination-exploitation in hierarchy and vicious aggression. At any rate, my reaction ^{as to an} ~~as to an~~ Officer's remarks, as to how he felt on the moral question as to Iraq being invaded and him saying in effect "bomb them and get the damn oil," was to tell him, "I'm the one being guarded by you and am in prison. Here it is, you're an Officer sworn to uphold the law and stand for justice, yet, you'd be for this government going to another country and committing the crime of military aggression and slaughter humans for their oil."

Do y'all realize just how many CHILDREN DIED due to America's War against Iraq? His deep racist hypocrisy and immoral outlook is quite the norm in pseudo-Christian America. Those at the bottom and in the middle are merely emulating and hence endorsing the practices and ideas of the UPPERCLASS, as we enmasse condone their THUGGERY ~~around~~ ^{around} the globe to "bring home the bacon, eggs, and cheese" by whatever means necessary as long as "WE" share in the leftovers, i.e., "trickle down economics".

The predominant ethos in this country, hell, really the Western World, is LIE, CHEAT and SCHEME to get over and the hell with who is harmed in the process. Now, ain't that the truth? This is, in fact, the very ESSENCE of CAPITALISM -- "Free enterprise" = the freedom to exploit, be racist, sexist, dominate, invade, steal, etc. -- which is a system that rationalizes ANARCHY and makes an ethical norm the feeding in intensity OUR ANIMAL-BASE IMPULSES as opposed to taming and de-emphasizing these qualities in favor of our HIGHER-NATURE.

"SOCIALISM, IS TO CAPITALISM, WHAT THE SUN,
IS TO DRACULA."

I wonder, is it "my mind playin' tricks on me," or is the idea of a "system," as applied to capitalism, an oxymoron as capitalism is based on irrational anarchy?

"I hope we shall crush in its birth the ARISTOCRACY
of OUR MONEYED CORPORATIONS, which done already challenge
our government to a trial of strength and bid defiance
to the laws of our country."

-Thomas Jefferson

For y'all just back from a space trip or whom were off on some LSD vacation, here's an important revelation -- IT'S OVER! As to Thomas Jefferson's fear has in fact long ago been accomplished by corporations and for y'all's information this is not only no longer "our country," but in truth, it has NEVER been since the wealthy and powerful have EVER had TOTAL CONTROL of AMERICA, i.e., upon slaughtering the native folks for their land. Yep, as matters stand CONGLOMERATES and ~~FINANCIAL~~ ^{FINAN} AGENCIES have "won hands down" this challenge and they did so with the CONSCIOUS COLLABORATION of those whom have MANIPULATED the VOTERS into believing the MYTH that THEY are THEIR elected REPRESENTATIVES.

The "aristocracy" here and on a global level didn't endure a "stillbirth," but were BORN ANEW and ABORTED all contending forces towards their SUPREMACY. How can people claim a country to be "my country" or "our country," if you can't even pay a water, light, heat or gas bill -- i.e., you're without these basic needs -- when most only actually own persistent debt-loans, survive from paycheck to paycheck and nothing is controlled by the masses? Yep, that's so-called "freedom," in a nation where nothing ~~of~~ ^{of} quality is "free" -- e.g., education, health-medical care, housing, electricity, water, food, air-conditioning, etc.

I had a Mexican-American Prison Guard say to me, "I don't agree with your beliefs. I have a brother over in Iraq fighting for your and my freedom". Now, here you had a Mexican, who is a descendant of the people of Mexico that had THEIR LANDS (e.g., Arizona, Texas, California, etc.) TAKEN by a CONTRIVED WAR on behalf of the US government, telling me some brainwashed insanity about his brother supposedly "fighting for our freedom" in Iraq, when all around us and across this "PRISON-HOUSE-OF-NATIONS", are Black and Brown folks LOCKED IN PRISONS, GHETTO-HELLS OR BARRIOS BY THE HUNDREDS OF THOUSANDS.

However, should anyone really be surprised by the political ignorance of this guard -- so many in this country are politically and historically DUMB -- since, as I later learned, he didn't even know of "Zapata," which I told him folks of his reactionary mind-set stand against. I ask, just how "free" are things when people have been forcibly assimilated out of their OWN NATIONAL IDENTITY and have assumed their conqueror's version of history and swallow whole the lies given as justification for waging MURDEROUS WARS in Vietnam, Libya, Korea, Panama, Angola, Iraq, Guanya, Haiti, Afghanistan, etc., etc?

INSANITY!

Indeed, what a topsy turvy world or social order of deep confusion as to the reality of one's OWN ENSLAVEMENT via a myriad of means of perfect and effective DECEIT. Yes, truth in America is CURSED to OUR GREAT PERIL, just ask President Trump, Elon Musk, Marcc Rubio and the rest of his "GANG OF THEIVES".

"JUSTICE SHALL BE SERVED ? "

CIA rendition, torture, Gauntanmo Bay, Executive Pardons for crooks of the ruling class and their henchmen and henchwomen, endemic corporate and financial robbery, political gangsters, lies before the United Nations, total disregard of International Courts, unlawful wars of aggression, murderous sanctions and embargoes, etc. -- "WILL THE REAL CRIMINALS PLEASE STAND?" The 1% are actually immune from prosecution, so what difference would it really make if they stood in the face of the truth?

"The roots of violence: wealth without work, pleasure without conscience, knowledge without character, commerce without morality, science without humanity, worship without sacrifice, politics without principles."

-Mahatma Gandhi

Correct me if I'm wrong, isn't the above human condition what former President Bush II referred to as "democratic-capitalism" during his prime-time speech to the nation given to rationalize the 700 BILLION TAX DOLLAR HIGHWAY-ROBBERY by the ruling class whom actually believe that capitalism is the greatest system in history, just like a crack-head believes that crack is the greatest drug ever created, i.e., the wealthy and powerful at the apex of the American Empire are addicted to exploitation and global domination as is the real motive behind President Trump's regime targeting the regime of Maduro, of Venezuela .

"... it's really a professional imperial army and not an all volunteer."

-Prof. Andrew Bacevich
(The Limits of Power)

"The Truth Hurts, But LIES ... KILL!"

According to professor Bacevich, the U.S. military -- i.e., COLOR-CARNAGE MACHINE -- only became an imperial army during the 1960s. Well, that isn't my perusal of the history of the U.S. military engagements since the fact is, this country from its very inception has been embarked on an imperial adventure (e.g., Manifest Destiny, the Monroe Doctrine, "America's backyard," the annexation of portions of Mexico, colonialization of Haiti, Puerto Rico, Guam, Cuba, etc.). The United States "unlimited power," or as Mr. "Make America Great Again" recently stated the reality of WHITE SUPREMACIST DOCTRINE: "THEY DON'T WANT TO FUCK WITH THE UNITED STATES, THAT'S WHY!", is a direct result of IMPERIALIST HOLDINGS and being on appurtenant calculated and resolved IMPERIAL FOOTING.

Ever since the U.S. ascendancy as a global power after World II, the ruling class of this nation has constituted itself as an "apex of evil" in which those countries Bush classified as an "axis of evil" cannot by far hardly compare with regards to the brutal

(See Page 6)

destruction America has inflicted and is now inflicting on the "Third World". Wars, deadly drones, coups, financing of death-squads, carbon dioxide released into the atmosphere, assassinations, extra-judicial murders ~~and~~ at Sea and on Land, cruel sanctions responsible for hundreds of thousands of children DYING in countries like Iraq, the spreading of diseases such as cancer -- via tobacco -- diabetes, high blood pressure, obesity etc. due to "Mc Dee's" type ~~and~~ fast foods, etc., etc.

The Official history of America and the information released to the public related to the government's (BIG BUSINESS) activities throughout the world is rooted in a "WEB OF DEEP DECEIT," just as Wikileaks, Barack Obama's and other criminals' nemesis, bravely and morally exposed. Since the "truth" does not much matter in this nation, the important question then becomes "how can people enjoy justice and heal?" "Truth and Reconciliation Committees"?

No!

I think that is a cruel hoax geared towards channeling African workers and the vast poor in the ANC's South Africa legitimate anger down a path that is politically safe for the "LEADERSHIP," who are in exploitative alliance with the still largely white business class who maintain a lock on the mines, farms, banks, corporations, factories, etc., etc in that country, just as in this country. Oh yes, "the truth is out there somewhere," and as the characters of the X-Files teach, we must investigate "all possible sightings" -- often at great risk of necessary sacrifice. Yet, look at the great risk we take not having access to quality healthcare which lead to premature death, no right to dental care which has led to death, contaminated water and foodstuffs that cause sickness and death, no right of shelter thus causing folks to die from the elements, all of the dying the workers and poor do fighting rich folks wars (e.g., World War I, World War II, Korean War, Vietnam War, Iraq War, etc.).

So, when will we make our deaths count for something of value for the greater sacrifice of humanity? If the "Truth and Reconciliation Committee" of any nation does nothing to expose those of the capitalist-imperialist ruling classes and those of the ANC, NAACP, Urban League, etc. type, whom function to defend and advance the rulers program of exploitation, then such are a "body of lies".

Yes, this is a FUNDAMENTAL TRUTH which all of just hearts must reconcile or continue to be victims of lies designed to disorganize and misdirect US from pursuing the only ~~meaningful~~ ^{meaningful} prize that is noblest of them all -- TRUE FREEDOM FROM NECESSITY VIA THE STRUGGLE FOR COMMUNAL ECONOMICS.

"WE THE JURY FIND THE ACCUSED GUILTY AS CHARGED."

We've all heard one version or other the saying "The victors of war are the ones who write its history," i.e., the story-lies, official narratives, myths, propaganda, spin, etc., which conform to and promote their power and wealth agendas. Well, another truism that is actually a direct consequence of the victors of war is that they also decide the legal codes which operate to legitimize and protect their dominant status over those they defeated or defeat as we observed has been done in Iraq, Japan, Germany, Italy, Spain, etc.

You see, those who perpetrate the crimes of aggression, invasion, colonialism, racism, the subordination of females, narcotics distribution as a weapon of destabilization, political assassinations (e.g., Patrice Lumumba, Martin L. King, Jr., Steve Biko, Malcolm X, Fred Hampton, Sr., Thomas Sankara, etc.), economic imperialism, etc., etc. enact "under the gun" laws which as intended "criminalizes" the THOUGHTS and ACTS of those whom they've conquered. We saw these repressive legal codes at work in the form of racial and class domination in the case of slavery, Jim Crow, Apartheid, etc., etc.

How is it actually logical for a person whom escapes slavery to be deemed and treated as a "fugitive"? So, the truth is, it's not "freedom" nor "justice" in which the rulers legal codes aim to uphold and nor are these designed to promote on an ultimate plane. These are merely WEAPONS of REPRESSION in racial, national and class exploitation since laws on a basic level are made to serve the INTERESTS of those whom RULE SOCIETY -- PERIOD!

"Economic globalization has entered a critical phase. A mounting backlash against its effects, especially in industrial democracies is threatening a very disruptive impact on economic activity and social stability in many countries. The mood in these democracies is one of helplessness and anxiety, which helps explain the rise of a NEW BRAND OF POPULIST POLITICIANS. This can turn into a REVOLT."

-Cited by Thomas Friedman
("Revolt of the Wannabes," The New York Times, Feb.7, 1996
A 19)

The above quote is from the "horse's mouth" as to the corporate-industrial and financial ruling classes' political and socio-economic assessments and security concerns they have regarding the MASSES here and globally. This assessment was made via one ~~of~~ of the ruling class's strategic Think Tanks known as Davos Forum. As such, it is quite naive of us not to realize that the rulers are making calculations as to the appropriate policies and contingency measures to ward off and if required to brutally quell those deemed to represent a threat to their program of wealth accumulation in global hegemony, just as was done to our original Black Panther Party of Dr. Huey P. Newton and Bobby Seale.

"Welcome to The Truth, where we dig deep
behind the headlines to reveal the real deal."

-Jeff Johnson, Host of The Truth on
BET

I sure hope BET and other so-called Black media sources dig deep for these facts and reveal the truth of the ruling class and pawns in-and-out of uniforms geared up by FASCIST MEASURES (e.g., Patriot Act, Gang Injunctions, Anti-terrorist Act, suspension of habeas corpus, official "Kill List" without due process, just as President Trump is unleashing in the Oceans at this very moment as him and his GANG OF THEIVES literally MURDER POOR PEOPLE) to repress and contain the HAVE-NOTS, financially strapped working class and disintegrating middle class as they recognize the fact that the "party is over" as to their neo-colonial program of sharing "Third World's" generated super-profits, which too many in Western countries enjoy(ed) without a care for "working class solidarity" with workers in Asia, Africa, Latin America, etc., still under the foot of IMPERIALISMS.

"Now ain't that the truth!?"

"My criticism of Mac World is aimed at what may be called ECONOMIC TOTALISM. If the political totalism of the FASCIST and COMMUNIST WORLD once tried, at the horrendous human cost, to subordinate all economic, social, and cultural activity to the demands of an over-arching state, the economic totalism of unleashed market economics seems to be trying at costs yet to be fully reckoned) to subordinate politics, society, and culture to the demands of an overarching market."

-Mc World vs Jihad

Yep, that be a mega-monopoly "New Jack City" phenomenon for real. Right up front, we're gonna dispel the powerful stereotypes ingrained in mainstream America's, hell, really the Western World, as to the poisonous and boogiemane perceptions related to and identified with especially BLACK MALES which are deliberately projected as a "Willie Horton" fear tactic in order to deflect from this nation's true criminal plague and to generate public support for the continued criminalization -- "Lock 'em up and throw away the key," "Tough on Crime," "War on Gangs," etc. -- of Africans, Mexicans, Puerto Ricans as justification for huge expenditures to provide to police agencies, courts, district attorneys offices, public defenders, prison guards, etc., etc.,

That is to say, to FEED and SHELTER and CLOTH "POVERTY PIMPS" via an essential coercive body of the ruling class by fostering and manipulating CRIME as an ECONOMIC APPENDAGE of this country, like SEXISM, RACISM, WAR, etc. (Note: You are encouraged to study

the books Slavery by Another Name, The New Jim Crow, Tip of The Spear, Chronicles of A Prison Dirty War and view the very revealing DVD Inside My House, to truly grasp white males use of CRIMINALIZATION, ever done arbitrarily and with great bias, as a WEAPON to TARGET people of color due to job competition, etc., etc.)

~~"The Spectacle"~~

"If, to trot out Debord's over-famous aphorism again, 'the spectacle is accumulated to the point where it becomes image', then what more adequate encapsulation of the process could there be but the World Trade Center (with its multiplication of the terminally gigantic by two)? And what other means of defeating it -- its social instrumentality, that is, its power over the consuming imagination -- than have it be literally obliterated on camera?"

(Afflicted Powers, p.27)

We observe their deployment of these most effective weapons via the techno-sciences they depend upon to influence and guide our psyches (e.g., perpetual and hypnotizing images, the constant projection of a myriad of symbols which penetrate our mental orbits and subtly impress upon the masses the legitimacy, and indeed, "invincibility," of the "reality" in which they've fashioned, etc.) "Marketing" is not simply about persuading people to "buy what is sold" for capital, but in fact, marketing is also most vital for OLIGARCHICAL FASCISM in terms of influencing and persuading the masses to "buy into their system of disguised enslavement," i.e., the fraud of "freedom" we are sold based upon human exploitation in anarchistic material production.

The rulers techno-scientific cadre give careful consideration and thorough examination to the various sectors of cultural-ethnic groups and on this basis weave multiple approaches towards targeting specific populations. Thus, as matters turn out, "economic determinism" literally functions to "create the ground" for the facilitation of oligarchical fascist domination. Again, "productive forces" aren't simply the source that serves to provide for material needs and commodities for profit, since the fact is the economic base is ALSO ESPECIALLY that which the rulers organize and deploy to impose upon humanity THEIR capital dominance via the UTILITY OF NATURE.

To my mind, when we speak of human liberation, justice, peace, people's power, etc., etc., these must be conceptualized and understood, first and foremost, from the paramount philosophical perspective that human beings must NEVER be slaves to OBJECTS, i.e., "capital".

"The notion 'spectacle' was intended, then, as a first stab at characterizing A NEW FORM OF, or stage in, the accumulation of capital. What it named

preeminently was the submission of more and more facets of human sociability -- areas of EVERYDAY LIFE, forms of RECREATION, patterns of SPEECH, IDIOMS OF LOCAL SOLIDARITY, kinds of ethical insubordination, the endless capacities of human beings to evade or refuse the orders brought down to them FROM ON HIGH -- to the deadly solicitation; (the lifeless bright sameness) of the MARKET. Those who developed the analysis in the first place resisted the idea that this COLONIALIZATION OF EVERYDAY LIFE was dependent on any one set of technologies, but notoriously they were interested in the means modern societies have at their disposal to systematize and disseminate appearances, and to subject the texture of day-to-day living to a constant barrage of images, instructions, slogans, logos, false promises, virtual realities, miniature happiness-motifs ..."

(Ibid., pp.19-20)

Now, is "my mind plain" tricks on me" or does this fact sound like the "1984 Orwellian NIGHTMARE of a deeply repressed human spirit by the devious cultivation of assembly-line robots devoid of natural souls that is actually already HERE? This is a very WICKED social design and only cowards would depart this earth having failed to lift a bone or exercised a brain cell towards helping to liberate humanity from the grips of these MONSTERS.

"SHOCK & AWE ! "

Have y'all ever taken notice of just how, while viewing a movie, you're aware of a camera from high above abruptly zoom in on enormous metropolitan structures such as high-rise buildings, docks, military complexes and government institutions? What effect does such imagery and symbols impress upon our psycho-emotional worlds? I ask, are you made enamored and profoundly mesmerized as I am by the techno-scientific sophistication, and do you marvel at the beautiful architectural symmetry of these symbols, i.e., the tremendous "feats of capitalism"?

Don't these symbols and imagery engender admiration and even a sense of longing to identify with the U.S. (to have a strong and hopeful desire that one day we'd perhaps be accepted and our folks' contributions to this country be genuinely recognized and valued)? Now, keep in mind that I am a (RA)dical Communalist of Pan-African Orientation and an inexorable strategic opponent of the oligarchic fascist ruling classes. I grasp the nature of our political adversaries and am committed towards this plagues removal off the backs of AFRICAN PEOPLES.

I grasp the historical and dialectical materialist scientific approach and analysis

on a deep level, i.e., how certain dynamics and conditions will cause to develop opportunities in which to exploit towards realizing NEW AFRIKAN LIBERATION since, in FACT, OUR FIGHT ISN'T ABOUT A REVOLUTION IN AND NOR AGAINST THE UNITED STATES, NO!, OUR FIGHT IS EVER ABOUT WHAT OUR ANCESTORS HAD TAKEN AWAY FROM THEM: TRUE FREEDOM IN TOTAL INDEPENDENCE.

Freedom, is a natural and spiritual right BORN OF US ALL, and thus, no human being can ever profess to grant US such...

"SELF-RULE OR NO RULE !"

My basic point is that, I'm aware of how the engagement will be undertaken and am therefore able to theoretically envision the process by which certain socio-economic conditions on the domestic and international levels operate to produce possibilities for far-reaching qualitative change in order to advance New Africam (i.e., so-called "African-Americans") and socialism, that form peculiar to African historical context, development.

Yet, the crucial question that I here pose is: "If I'm emotionally and psychologically affected by the incessant barrage of images and symbols projected and constructed by our political adversaries to the degree that at times -- yeah, I concede to this truth without shame or feelings of thinking of myself as somehow being "weak" -- even I "feel" that they are "omnipotent" or "invincible," then what effect do we really think that this process of "colonialization of everyday life" or what I metaphorically refer to as being "surrounded by guns" (i.e., in the sense of institutions such as, for example, the judicial system, prison system, financial system, military system, educational system, political system, religio-cultural systems media system, etc.) is exerting in terms of calibrated effects on the general populations and New Afrikan PSYCHES?

I ~~condemn~~ ^{don't} them, since the reality is they've not approached ^{ed} the revolutionary nationalist process -- i.e., decolonialization struggle -- from a SCIENTIFIC PERSPECTIVE. That is to say, they've not engaged in the often tedious and vapid, yet empowering and joyful research which we do and must continue to do as sincere revolutionaries of an New Afrikan orientation.

The important point I am making is that we're obliged to give special focus to this vital area of struggle as the enemy's imagery and symbols do in fact play a role in our oppression in terms of reinforcing the ruling class's domination over our lives. The way I discern matters is that "patterns" (rituals, traditions, procedures) operate to thoroughly condition and guide human beings to the degree that effective CONTROL is ~~applied~~ except during those rare occasions. By the array of "guns" with which we're "surrounded"

(radio, TV, big screen, video games) the enemy is able to "climb in our head" and to thereby manipulate and determine prospective outcomes. Yes, we know that we're dealing with mere "mortal humans" who of course don't have special "super-powers" and who bleed, have doubts, etc. as we do. No, it is not "structures" (ideological and philosophical frameworks, yes!) per se by which we're confronted; rather, it is breathing men and women who are our real problem, since it is THEY who police, by fascist methods, the ghetto-hells, drive the tanks, control the aircraft carriers, launch the missiles, manage the industries, corporations, CIA, FBI, Pentagon, etc., etc., is it not?

It is human beings who infiltrate our organizations, tap our phones, murder and frame our true leaders. Still so, to witness the enemy's symbols and imagery (e.g., "Person of Interest," "24," "CSI," "Fringe," "Flashpoint," "Army, Navy & Marines" advertisements, etc.) has a powerful, dramatic effect on the ~~mental~~ and emotional orbits of people in terms of instilling fear, doubt, cynicism, fatalism and, for far too many, a sense of unquestioned loyalty and deep identification with "their" country, i.e., a passionate admiration for and sense of connection with the RULING CLASS'S AGENDAS or PROGRAMS POLICIES, as many actually find pride and glory in the criminal practices and aims of domination pursued as a geo-political and economic-financial cornerstone of white supremacy and imperialism.

Of course, in their ignorance of the true nature and EMPIRE MODUS OPERANDI of this nation, the Allen Wests, Susan Rices, Steve Harveys, LL. Cool Js, Shaqs, etc. of the Black community will deny the reality of my read of the actual function of the United States in terms of its global involvement in exploitation, wars of plunder, the overthrow of elected leaders, the financing and training of death-squads, etc., etc., or perhaps these type are aware of such facts, but simply don't give a damn?

Malcolm X warned of the NEGROES among us (the "enemy within" if only by the political beliefs they hold) and what we must do with these type if we are serious about liberation and the elimination of capitalist exploitation in which many of black hue endorse and practice without conscience qualms.

"... circuits of capital are bound up, in the longer terms, with circuits of sociability -- patterns of belief and desire, levels of confidence, degrees of identification with the good life of the commodity. And these, said the terrorists, thinking strategically, are aspects of the social imaginary still (always, interminably) being put together by the perpetual emotion machines."

(Ibid., p.24)

Do we not discern the extraordinary degree of organization and sophistication as manifested via the images and symbols of proficiently trained and dedicated personnel

who manage the technologies and apply the scientific methods on behalf of global-oriental oligarchical fascism? "Shock and Awe," as we are indeed "surrounded by guns" of commanding and indelible dynamic effect. Unless you are one who is a slave to ILLUSIONS, it is imperative that it be recognized that bold acts of LIBERATION for New Afrikan State Power and Egalitarianism are demanded, as the reality is if WE fail to confront and secure our national independence, we shall perish from this earth having shamefully bequeathed a suffocating "reality" to generations to come.

"WE MUST FIGHT, WE MUST FIGHT, WE MUST
FIGHT 'TIL OUR LAST DYIN' BREATH!"

-Paul Robeson

Let's keep it "real" with each other without having to bear the weight that inevitably comes with those feelings which cause one to believe that they're somehow betraying their deep sense of commitment or are succumbing to weakness by merely revealing natural sentiments or doubts and even discouragement as regards what I'll be dealing with shortly. No, there is no need for anyone who is sincere and who gives meaningful sacrifice towards our liberation and security to ever feel ashamed.

We mustn't feel that by our expressing or harboring thoughts regarding the enormously difficult and seemingly endless struggle in which we're engaged that somehow we are immersed in a form of unprincipled capitulation. We're not guilty of cowardice for wondering whether we can realistically win our political objectives. In truth, the guilty are those able bodies-minds of the Black community/world and elsewhere who've taken the path of COMPROMISE or INDIFFERENT OPPORTUNISM in favor of pursuing their OWN SELFISH-MOTIVATED "KIBBLES AND BITS" AT THE EXPENSE OF THE MASS-BODY'S INTERESTS.

The actual guilty are those of the oppressor's world -- i.e., from reactionary fascist-racist forces in Europe, South and Central America, Haiti, Saudi Arabia, etc. -- who sit at the butcher's negotiating table for a piece of our bones to gnaw on in deep duplicity. No doubt, this is a protracted and quite complicated engagement with an enemy class/nation-state and race that is resource-endowed and has at its disposal the organizational and logistic means to coordinate repressive operations "in the blink of an eye." The enemy has an array of sophisticated and massive technological capabilities to direct and deploy against any-and-all forces in protection of their perceived and calculated interests ("national security") wherever these might be on this planet and beyond.

The enemy has demonstrated to the world that they will attack without provocation -- in a "preemptive strike" -- economies of those nations (Cuba, Iran, North Korea, etc.)

which defy their oppressive and super-predatory script, just as is happening at this very moment in history as President Trump and his GANG OF THEIVES are targeting the regimes of Colombia and Venez .

They've shown they'll **invade** lands from the sky, oceans and land. From the CIA and Special Forces used to MURDER (Sadaam, Qaddafi, Allende, Lumumba) from supposedly "independent" nations like Panama and Haiti. Now, tell me what other country during our life-time has kidnapped and imprisoned the elected president of another nation as did the United States? What nation has even attempted to invade the U.S. for purposes of looking up any number of U.S. Presidents who've actually committed war-crimes? No doubt, we're up against an enemy that is inordinately brutal and deadly serious about maintaining their hegemonic grip or predominance over the earth's strategic routes, raw material markets, natural resources, cheap labor, banking, etc., etc.

Logically, we must engage our enemies in a strategically wise and tactically effective manner which ever proceeds from the theoretical brilliancy and practical experience of our most principled and competent CADRE.

Although, as **already** conceded, the struggle we're embroiled in is of an extremely **arduous** and dangerous nature against a class, racial and national enemy devoid of mercy, the reality remains that when the "smoke clears" -- AND THERE WILL BE SMOKE! -- victory shall be the PEOPLE'S! Nevertheless, there won't and cannot realistically be a permanent victory without our engaging in strategies and tactics on the basis of resolute leadership. We must be guided by viable plans or a total strategy for national liberation in socialist state power.

Among others, I recommend studying the "Three Phase Theory" by komrad Jalil Muntagim and all the dynamic works by Atiba Shanna published by Chicago's Spear and Shield Publications. We must utilize the array of methods of struggle which are available to us. Now, having gotten that off my chest, what I want to return to is the matter of our enemy's effective use of mind-blowing imagery and symbols since this is an area of the BATTLE-FIELD that keeps me "tosin' and turnin'" in my sleep. However, in the course of pondering this vital matter, I'd merely hit on it briefly since I realize that I'm hardly qualified to explore this area of struggle in any real theoretical and analytical depth.

Yet, having now established this fundamental criterion, I still believe that in some small way, I am able to contribute something to the subject. Ponder this:

While watching a movie or TV series do you notice how the cameras at an obviously calculated time for purposes of maximum effect invariably project an aerial backdrop shot to reveal an expansive background of a usually large metropolitan urban city like New York, Los Angeles, Chicago, Washington, D.C.? Do you

find that the view abruptly shown has a kind of "shock and awe" impact on your senses? Do you find that the images and symbols induce certain emotional reactions and psychological impressions like, for example, that of provoking a sense of wonder at the complexity and tremendous dynamism of the metropolitan cities and a feeling of invincibility?

I mean, doesn't this tend to cause you to question the feasibility of the strategic and political aims of our struggles with regards to the extraordinarily enormous and quite difficult tasks we have before us -- "GENERATION AFTER GENERATION"?

Don't you feel as though the images and symbols of the ruling class act to impress upon our psyches, however subtly, a "reality check?" In the process of absorbing the indelible effects -- escape is impossible -- of these images and symbols, what we're actually experiencing is a barrage of rapid and incessant ideo-philosophical "cultural bombs" imploding our mental-worlds. These function to shape and influence us in a myriad of ways., which, of course, are suitable towards the socio-economic and political programs and agendas of the ruling class.

To be perfectly honest, on occasion I even find myself filled with much admiration and appreciation of the colossal achievements of American Capitalism and indeed quite enviously amazed by the remarkable might which these symbols and imagery represent. I argue that this is exactly what is intended by those who rule, since it is certainly their calculation -- from the design of massive submarines, aircraft-carriers, super-jets, World Trade center buildings, the NASA space program, Hollywood, Disneyland, etc., etc. -- to fill our psyches with respect(FEAR) as an intimidation tactic in order to dissuade the mass-body from daring to even contemplate challenging their authority and system.

Indeed, JUST AS THE FBI's "COINTELPRO" MEMORANDUMS MADE QUITE CLEAR.

You see, it is a sort of "pre-emptive strike" to ward off any real consideration of the possibility of pursuing national liberation in state New Afrikan power. And for the great majority of this spoiled society, their magic tricks works real wonders. I am often filled with burning rage by virtue of the deep self-regret I possess as regards our being denied national liberation ("SELF-RULE or NO RULE") in order to be on our own due "40 ACRES" and develop socio-economic systems which operate in our interests and are designed to reflect our peculiar cultural, spiritual and psychological characteristics and aesthetic styles.

At any rate, just as pertinent to the matter now under consideration are the array of primetime programs which on an incessant level feature scientific-techno paramilitary agencies, i.e., the rulers' hired guns. For some time now, paramilitary-based oriented ~~paramilitary-based oriented~~

saturated the screen and of no surprise the content of these programs and shows convey a "patriotic" (e.g., Blue Bloods, Naval Seals, etc.) and innocuous "white horse" John Wayne "good guys" to the rescue slanted narrative in their depiction of the various state forces, i.e., the myriad forms of fascist-authoritarian organizations such as police, the FBI, CIA, DEA, Homeland Security, ICE, etc.

Are the perceptive among us truly to believe that the projection of these repressiv elements across the monopolized airwaves which act to bombard our minds on an inordina plane is a mere coincidence? I ask, could it be that in fact the increased plethora of pig programs is actually geared towards fostering and on an attitudinal level **NORMALIZ-ING** (i.e., for the acceptance of) an **OVERT FASCIST SOCIETY-WORLD**?

I mean, just observe the depth -- i.e., technological, intellectual, strategic and scientific -- of sophistication and capabilities of these paramilitary organizations. Recall Alias, 24, The Agency, Matric, The Event, Undercover, Fringe, etc., etc., each of which communicated the high-tech and advanced complexity of the ruling class's systems. Now, in all honesty, who among us aren't affected by a deep sense of "shock and awe" while viewing these fascist-authoritarian shows? Also, how many are made to dream of joining these organizations in order to feed their racist or reactionary ethos fed to them ^{via} Rambo, Action Jackson, The Unit, Hurt Locker, the CIA, FBI or the Pentagon?

Who seriously believes or questions that these "programs" (i.e., to condition) doesn't make our oppressors appear to be the "paper tigers" that they are? Obviously, it's in the definite interest and thus deliberate intent of our enemy to instill and promote **FEAR OF REVOLT**. Thus, the projection of their imagery and symbols must not be viewed and treated as "innocuous" or "mere entertainment," as if its content are somehow void of political and socio-cultural and economic aims since, as is said, "THERE IS NO ART FOR ART'S SAKE ALONE," i.e., in the real world, an ideological and philosophical counter ~~attends~~ all art.

Their aim is to create "casualties of capitulation" even before the physical blows of liberation are thrown upon the bell signalling our time to engage for total independence in state power. Yes, we're quite aware that our enemies are hardly impervious to defeat, yet their effective defeat is naturally dependent on a myriad of evolving and various factors and circumstances which shall foster deep fractures in their systems here and on a global level.

For example, as the global economy continues to disintegrate and the politico-military instability of critical nation-states deepens due to a radical thrust from workers peasants, the lumpen elements and segments of the middle classes throughout the Third World or Africa, Asia, Latin America, Middle East and Eastern-Central Europe, conditions in this country will inevitably grow much worse at a faster rate and in turn this will have the desired effect of causing MILLIONS to be inclined towards fighting

to **uproot** capitalism-imperialism and white patriarchal supremacy. Of course, as can be anticipated the rulers will be compelled to reveal and resort to their true FASCIST ideo-philosophical dispositions, just like they did while initially backing Adolf Hitler & Company, as they begin to impose more overt forms of repressive measures towards securing their wealth and power.

These more blatant and generalized or widespread fascist measures will have a powerful Isunami-like effect and likewa high-energy earthquake the very foundations of global capitalism-imperialism and neo-colonialism shall become QUICKSAND thus making our engagements more realitistically acheivable in a shorter time-span. However, even while grasping the predictibility of the eventual emergence of socio-economic and political atomic nuclei forces spiraling in intense and sustained global friction those in the major nerve-center called the United States in the interim are confronted with the dramatic (and dare I say TRAUMATIC) and stupendous affect of "shock and awe" which functions to undercut the potential numerical pool of revolutionary recruits required to produce a thorough-going liberation wave as **a strategic** pathway towards genuine national (New Afrikan) indepedence in State Power.

Therefore, it is crucial or essential that viable methods and sustained pedalogical approaches geared ~~towards~~ mitigating the severe impact of our enemy's weaponry (imagery and symbols) must be developed and implemented so as to imbue a strong sense of confidence, enthusiasum and high-purpose in the PEOPLE in order to liberate their MINDS from the crippling pessimism and irrational fear.

The people must be shown and persuaded to realize by the deeply caring and fearless committed examples of Denmark Vesey, Harriet Tubman, Nat Turner, Robert Williams, Assata Shakur, Patrice Lumumba, Dr. Mutulu Shaku, Sekou Odinga, etc., etc., that WE are a BOLD and COMPETENT people of RESISTANCE. Teach and show them that our struggles are not futile nor all in vain. Teach and show them that our struggles for justice and freedom aren't gacts of suicidal disasters but are acts of necessity and motivated by an obligation to protect: "BY ANY MEANS NECESSARY" -- OUR HUMAN DIGNITY.

Fear and awe of the enemy's might and feats, made possible by our exploitation and others on an ultimate level, can and to a considerable extent has worked to incapacitate most in the United States, even as workers and other forces in Greece, France, Mali, Sudan, Mexico, Itlay, Spain, India, South Africa, etc. are engaged in intense battles for greater control over the direction and nature of their economies while resisting harsh IMF, World Bank and other oligarchic fascist institutions austerity measures. I mean, what strategic orientation and tactical approaches do we pursue in order to pierce through the stifling lethargy of the mass-body whom in their conditioning have all but surrendered to the prestige of ruling class America?

On a deeper level, even assuming that the masses do not grasp the laws or dynamics governing socio-economic development, however, what they in fact do grasp ("feel") on the plane of observation and daily experience are the incessant images and symbols of the enemy white supremacist and capitalist-imperialist class, i.e., they see the horror of war in the faces of Gaza Strip, bombed Iraqis, Afghanis, Syrians, etc. and many remember how the FBI decimated the Black Panther Party in fascist pig elation.

We are all invariably hit with our enemy's silos, which induce feelings of "invincibility" of the US and many are made to believe in the "futility of struggle" -- as if we ever in the past or today really have a choice -- imposed on their psyches via the strategy of "shock and awe." What the people must be made to realize and taught is that in truth our struggle isn't ultimately against structures and techno-sciences, but against the dictates, operational procedures, doctrines, etc., of the ruling class which deliberately cultivates (just as bees and ants which slavishly conform to the oblivious in-coming dictates of their social and political organization and world) thought-patterns that induce the mass-body to accept the system as natural and uncontestable.

Obviously, theories, doctrines, strategies and methods of operation are the purposeful design of those who rule and of course these totally conform to their interests in terms of accumulation of wealth and execution of power over the masses. In the final analysis, the masses are literally the thoroughly assimilated instruments or pawns of the rulers game and deadly political and exploitative economic domination. The cultural underpinnings of the ruling class -- worldviews, ideologies, ethos, traditions, habits, etc. -- actually lay the foundation for conformity towards what the body-mass takes as purely natural and thus accepts without much if any question.

The fundamental economic, socio-religious, political, military and strategic interests of a master class/race of a particular society (empire) are in fact deeply embedded in and promoted by the living culture designed and hence dictated by the ruling class. Thus, what we must teach the masses to grasp is again that we are not

per se dealing with "structures" and "techno-sciences" since these are obviously only the means used by human beings.

We must get the crippling idea out of our head that we are somehow engaged in a struggle against lone entities or inanimate objects. Naturally, as these are in fact constituted by and under the control of human beings they cannot exist nor function without the decisive human factor. No American drone, warship, etc. can traverse an ocean to launch bombs or fighter planes without the human factor. Of course, the US Senate, Congress, White House, Pentagon, Supreme Court, FBI, CIA, etc. cannot exist nor function without the decisive human factor.

No, "dead matter" is not our fundamental strategic and geo-political opponent in which to engage on the battlefield of liberation and independent state power. By the "decisive human factor," I mean the degree of intelligence and theoretical formulation emanating from the human mind that creates the basis for inventions, application of sciences and technologies, institutions in which to realize and organize around certain strategic objectives and tactical programs in all realms of social life.

Human Beings comprised as various forms of COMMAND CENTERS (e.g., NSC, CIA, Pentagon, FBI, NSA, Board of Directors, Wall Street, Federal Reserve, Homeland Security, etc.) are the sources of oppression, exploitation and domination. Capitalism, racism, sexism, colonialism, imperialism, etc. all equal by definition distinctive doctrines, theories and ideological systems, i.e., "ISM": a suffix meaning action or process. The "actors" in this or that "process" in a predominant strategic sense are primarily WHITE MALES and subordinate to them are their groomed and prudently selected "colored conquered," e.g., Obama is drama, Al Shark-ton, Condolizzard Vice, etc., etc.

They and they alone, are in fact our living and callous to their core enemies. What force actually fosters and gives life to the distinctive doctrines, theories and ideological systems which determine and are geared toward exploitation and oppressive domination other than, of course, those of the master class who by deliberate calculation fashion and promote doctrines, theories and ideological systems to rationalize, codify and

and normalize their fundamental imperatives by compelling -- often by subtle methods -
- the mass-body to conform to their programs via oblivious dictates which the majority
of every society takes as natural or without much thought of questioning the legiti-
macy and claim to power and monopolization of the country's wealth at the expense of
the great majority?

Prisons, the military, police agencies, financial institutions, law enforcement,
prison officials, intelligence organizations, corporations, political institutions,
etc., are motivated by certain theories and doctrinal foundations which operate to
create a peculiarly conceived cultural framework that lays the basis for specific
thought-patterns (i.e., group behavior) rooted in dictation as a necessary means to
realize the strategic aims of this or that organization. For instance, the special
function and aim of the police and court functionaries (e.g., judges, prosecutors, etc
is to enforce and uphold the laws.(i.e., rules) of the ruling class -- the powerful
super-rich upper class in order to keep the majority in line so that their program of
expropriating the social wealth is not threatened and their control over society is
made secure.

Obviously, this is why during slavery there were overseers and other different
police type groups who enforced the laws of the slavemaster class to force our people
not to rebel against or run away from slavery since that hurt their power and hit
hard at their ability to make wealth. From America to South Africa, Haiti, Brazil, the
Congo, Sudan, Nigeria, etc. we see that the police, military, courts, governments, etc
all function to control the people at the BOTTOM in order to protect and serve the
powerful and super-rich.

These type are far from "pro-black" and are only out to make a living for them-
selves and we're their stepping-stones toward that opportunistic end. Recall that a
Black Police Officer in New Orleans during the devastating Katrina storm said it very
bluntly, when HE TOLD US ... "I'm not Black ... I'm BLUE!" In other words, as with most
black police and prison guards in America, those who ultimately matter and count are
those of the badge or uniform, i.e., their popo and K9 cultures whose orientations and

doctrines of control they are psychologically shaped and deeply influenced by. I mean think about it for a moment, are they not required to SWEAR AN OATH to UPHOLD, DEFEND and PROTECT the RULES (i.e., laws and Constitution) of the ruling class?

Well, is it thus now very clear WHO they work for and where their loyalty rest? Their allegiance and sense of obligation is COMMANDED by the blue culture, the military CIA, FBI, Dept. of Corrections, etc., etc. It was Black FBI Agents whom infiltrated the Black Panther Party, etc. How many have SWORN AN OATH to protect and serve US as did the original Black Panther Party? At any rate, as we all know, fields such as criminology, cosmology, anthropology, sociology, penology, theology, psychology, etc. are based on theoretical frameworks and doctrinal formulations.

In turn, these become codified into operational procedures and paradigmatic dictates. Naturally, the CULTURAL CONTEXT of their function and manifestation (e.g., prisons, the Pentagon, religious institutions, political and socio-economic processes, law enforcement, etc.) are given expression on the foundation laid for their existence is conceived by the human factor -- the ruling class and their cadre.

This is exactly the strategic function of their academies, universities, centers, foundations, etc. which serve to foster and promote scientists, theorists, technicians specialists, engineers, strategists, managers, etc., etc.

The university is the final stage of the state-organized education of the sons of the possessing and ruling classes, just as the barracks is the final educational institution for the young generation of workers and peasants. The barracks foster the psychological habits of obedience and discipline appropriate to the subordinate social functions to be fulfilled subsequently. The university, in principle, trains for management, leadership, government. ...

(Workers Vanguard, p.6 -- the Intelligencia and Socialism, No.965, Sept. 24, 2010)

"Culture has an IDEOLOGICAL FUNCTION and hence carries with it certain POLITICAL IMPLICATIONS."

(Yurugu, p.)

"This is indeed the genius of Western scientific thought; not of science itself. Plato set the mold, neither for a critical method, nor authentic thought with which Europeans proudly identify themselves, but for a method of thinking, discourse,

argumentation, and organization that would guarantee social control by people (men) like himself. His genius was in] understanding that to do this successfully, he had to influence the style of thought, language, and behavior of all human beings, i.e., their total experience. As we learn to think 'Platonically,' we are convinced that this is the only correct way to think. The mode of the academy is still at the base of social control."

(Ibid.)

The above extracts are borrowed from a brilliant text of enormous politico-strategic and theoretical value. I quote from this sister-warrior since to a large extent what she says supports the point that I've been trying to make regarding especially how the ruling class and their cadre formulate the theoretical frameworks which operate to provide a corresponding codification and hence culture for the effective dictation of certain models and methods via institutions with socio-economic control for the master class logically being their basic and inexorable political aim.

Now, I realize that I've not shared here anything new or for which the advanced isn't already apparent. However, that is exactly my major point: those who study these areas are well aware and hence are able to identify and nullify the impact of the images and symbols of PSYCHIC WARFARE.

But what about the masses? Naturally, this goes to the crucial matter of the hearts and minds of people since the devastating impact of these means of WAR (science and technology) act to undermine confidence and to sow fear and paralyzing doubt.

"We must keep fighting ... until we're dying!"

-Paul Robeson

"None of this means that we think we comprehend the whole shape and dynamic of the new state of affairs, or can offer a theory of its deepest determinants. We are not spectators of the spectacle; no one concept or cluster of concepts, seems to us to get the measure of the horror of the past four years. We even find it understandable, if in the end a mistake, that some on the Left have seen the recent wars in the desert and squabbles in the Security Council as open to analysis in classical Marxist terms, proudly unreconstructed -- bringing on stage again the prediction and revulsion of Lenin's and Hobson's studies of imperialism -- rather than in those of a new politics of 'internal', technological social control."

Also,

"None of these questions, to repeat, can be answered in isolation. No one level of analysis -- 'economic' or 'political', global or local, focusing on the means of either material or symbolic production -- will do justice to the current strange mixture of chaos and grand design. But one major aspect of the story -- the struggle for mastery in the realm of the image -- has so far barely been thought of as positively interacting with others more familiar and 'material'."

(Ibid., p.19)

"WHO'S THAT PEEPIN' IN YO' WINDOW ... POW, NOBODY NOW!"
-Goodie Mob

Yep, that be all too real -- "SOMEBODY'S WATCHIN' YOU!" Me ? Well, I'm in a "tomb of gloom and doom" under constant monitoring (e.g., cameras on the yards, guards, thought-police scrutinizing mail and censoring political writings). Fortunately, I don't have a window in the SHU for them to peep in, although in paranoia I'm thinking my cell may be bugged and that I'm under view via the "idiot box."

Watch out now!!!

Not **only** are they "watchin' you," but there is what was released by the ruler's own propaganda arms (i.e., the media) that they're in fact LISTENING in on your phone conversations and closely monitoring ALL of your communications (e.g., mail, Internet, private medical records, "confidential" lawyers-client records). Remember the important recent revelations from Edward Snowden and Chelsea Manning? Now I ask what fool isn't clear on the fact that a POLICE STATE (i.e., FASCIST-WORLD ORDER) is HERE and SECURE?

Why, as was the case with apartheid South Africa, cannot it be correctly concluded that "JIM CROW" and the "NEW JIM CROW" was/are raw forms of FASCISM? Whose that "peepin' in yo' windows," digging through your trash, reading your mail, checking your credit is "BIG BROTHER."

Even as the extracts from Naoim Klein pertain to plans and conditions for state repression in China, it is most wise of us to realize that, YES, the program is being

applied here since FEAR works great wonders for the ruling class. These bastards are deviously "good." Homeland Security, Patriot Act, "National Security," etc. are carefully designed terms that are actually reflective of calculated code words.

For example, by saying "national security" those of the power structure actually create the false impression and desired attitude in terms of the public at large that it is "everyone's" security which they're concerned about. However, in reality, once you dig through the bullshit you'll find that it is THEIR security (e.g., overseas and foreign proper ties, investments, factories, client and puppet states, oil and gas pipelines, gold, coal, cobalt, diamonds and copper mines, banks, military bases) which they have in mind.

Thus, "Homeland Security" is best interpreted as to secure the interests of those who rule and own America. "Patriot Act" means nothing more than the undemocratic and illegal acts taken designed to compel you to be loyal to THEIR agendas without question as "only they know what's best" for you since "every dumb herd must be led."

So, just stick to watching your distractive sports, movies, drugs, music and fast foods.

"... with the political unrest on the rise across China, the government hopes to use the surveillance shield to identify and counteract dissent before it explodes into a mass movement ..."

-Naomi Klein
("China's All-Seeing Eye", May 2008, Rolling Stone Magazine, p.63)

In the Nickerson Gardens Housing Projects in Watts, California, where I'm from, there are surveillance cameras planted in overt and covert locations which the "law" monitors 24/7 allegedly to "fight crime". This is a convenient pretext for them to use even as there are really more politically-motivated reasons since in fact SOCIAL CONTROL is a most pressing concern in the face of a large percentage of Blacks or New Afrikans and Latinos/as who are to be confined permanently (generation after generation) to the ghetto-hells and barrios which are devoid of jobs and social benefits or government relief programs on par with the multi-billion dollars given to big business

and high-finance during the 2008-09 economic collapse which 'THEY' themselves caused.

Understand, that for those who rule society, the L.A. Rebellion of 1992 and the righteous militant rage of Blacks in Ferguson, Missouri over the blatant MURDER of Michael Brown in August of 2014, were more than enough to "sound the alarm" on the growing problems for which, despite their high rhetoric, they don't have any realistic solutions. Significantly, these incidents provided the rulers ample evidence of our POTENTIAL to demand our INTERESTS.

Thus, the rulers have intensified their program of containment and suppression, e.g. arrests, databases, tanks, ankle bracelets, raids, high-power weaponry, frequent patrols, prison construction, probation or parole, gang injunctions, Three Strikes, gang validation, Security Threat Group designation, Stop-and-Frisk, etc., etc.

You see, they know that under ^{the} current economic order (capitalism) there simply cannot and won't be necessary resources to provide to us, period! We are deemed useless and thus expendable as obsolete surplus labor and our bodies are only "valued" in the context of their Prison Industrial Complex or in their wars of domination. Simply reflect on the poor and hopeless condition in places like Baltimore (recall the dire reality of our folks in "The Wire") and magnify that in terms of the ghetto-hells throughout this country.

Yet, so-called "Gs" and "soldiers" refuse to see the reality of our dire plight since to recognize such carries questions of DUTY on the political terrain and very serious implications which many among us are terrified to confront. The aim of the ruling class of the United States is "crisis management" via our control and manipulation of and reactionary deflection in . . . AFRICIDE = Self-Genocide in Black-on-Black Gang Violence and Homicides.

"... yet although full employment is a public good, it is not a corporate good. Business efficiency dictates downsizing, which means capital-intensive production, and capital-intensive production means labor-minimizing job policies. Translated into English this means firing as many permanent workers as possible and eliminating their benefit and pension package. In their place appear machines, robots, and multiplying (so-called)

'temporary' jobs, which are actually long-term jobs without long-term contracts, long-term security, or long-term benefits. Unemployment may eventually weaken the market by debilitating potential consumers (you can't buy unless you earn), but corporations taken one by one are necessarily rabid competitors with (at most) a quarterly earnings horizon. They must be 'lean and mean' to prevail. The 'fat' here is the workers and a corporate diet spells permanent 'structural' unemployment for increasing numbers of workers."

(Jihad vs. McWorld, p.27)

Now, is it any real wonder why so many of our youth see gang activity and crime as a alternative survival outlet in the face of living a life of desperation, poverty and unemployment? Yet, even as it is the exploiters at the apex of this pulverizing capitalist-imperialist system -- THE REAL AND ULTIMATE GANGSTERS -- "ME & MINE" are the PRIME TARGETS for police, courts, prosecutors, politicians and prison guards, while the real criminals run the country.

Finally, notice the cruel hypocrisy in which those of the "apex of evil" are ever engaged despite the lies spewing from their mouths by the fact that both the US government and corporations are actually helping to create the POLICE STATE 2.0 and profiting from the Chinese program of brutal repression. Yet, this government expects the rational of us to actually believe that they're for promoting "democracy" and basic "human rights." ~~They are not. They are for promoting the interests of the ruling class.~~

Yeah, right! My philosophy is that since they don't really give a damn about the "niggers" in their own country, only a fool would believe they "care for" the have-nots and exploited-oppressed anywhere else in the world, even as to feign genuine concern naturally fits their political, military and general strategic-economic agendas. Again,

"... American 'homeland security' technologies, pumped up with 'war on terror' rhetoric. And the global corporations currently earning super-profits from this social experiment are unlikely to be content if the lucrative new market remains confined to cities such as Shenzhen."

"COIMIN' TO A NEIGHBORHOOD NEAR YOU!"

The metaphor and coined military term "pre-emptive strike" is again actually a code word for a PRECONCEIVED POLICY advanced as a strategy towards political and military attack via the intensification of laws, police repression, the construction of prisons wars, etc., etc. By playing the have-nots and working-class poor against each other (e.g., ethnic or racial conflicts as in L.A. and Chicago) and that of the middle class against the have-nots and working-class poor, the ruling class manages to ward off and channel our anger away from THEM, i.e., they manage to greatly diminish and deflect the degree of boiling antipathy.

This is the political science of "damage control" as things must be gotten ahead of in order to be manipulated to their advantage to assure that their interests are secure. This was in fact "the game" (i.e., divide and rule) played by Obama is drama as he had to obey the script of his "handlers" and lay the foundation for what I've outlined, as he's merely a happy front-man of transnational corporations, the Military Industrial Complex, Law Enforcement Complex, Intelligence Complex and the financial complex.

Thus far, they're at the "top of their game" as most aren't able to "do-the-math" or "see through the smog."

"Justice yields to MARKETS, even though as Felix Rohatyn has bluntly confessed, 'there is a brutal Darwinian logic to these markets. They are nervous and greedy'."

(The Globalization Reader, book)

"The combination of left government and encompassing labor market institutions reduces these sources of inefficiency and instability. In turn, the strategic decisions of mobile asset holders will be affected not only by the cost of social democratic corporatism -- a bigger public economy and higher labor costs -- but also by the benefit -- higher productivity, and economic, political, and social stability ..."

(Ibid., p.234)

"... I have suggested that the 'CLASS COMPROMISE' of capitalist democracy -- in which asset holders accept redistributive government policies and government accept the PRIMACY of MARKET MECHANISMS -- is at least as important in the global economy as it has ever been. Globalization increases the potential long-run social benefits of market, but it also heightens political opposition in the short-run. Governments face the daunting task of reconciling these two forces.

(OVER)

Where the left is allied with encompassing labor markets, it is possible to reap the benefits of market integration without increasing the risk of damaging social instability. Far-sighted capital can be expected to understand the upside of SOCIAL DEMOCRATIC CORPORATISM and hence to forego the temptation to use the threat or reality of exit."
