Thank you for transcribing my writings, Can I keep it 100 with you. Its very discouraging when you ~~pour~~ <sup>pour</sup> your heart out in your writing to people in some take it in use it against you to hold you in a prison.

Secondly its discouraging when you ask for help and people send millions to a real killer who shot a United health care ~~CEO~~ <sup>CEO</sup> compared to my circumstantial and hearsay evidence. Been trying to get a lawyer and raise funds everyone acts like I am irrelevant to them.

So you tell me do anyone deserve to read anymore of my writings or should I stay in my corner and just shut up. Because my voice is only beneficial to those who can use the knowledge and get fat off my knowledge. While I continue to shrink in size and mildew in prison because beside I was indicted right, so the world fills why should I help a criminal but you helped the United health care CEO killer. So, why not me?

I am trying to raise \$66,000 on my inmate account for housing, car etc upon release.

I am in need of a good criminal attorney that can win a murder case.
