

Godsend or Not !?!

Asiyu Carla,

I hope you been reading my blog and learning more me - how are you doing ? I assume you are in Tallahassee - I also hope you will pay attention to what I have to say and not other peoples opinions - the death penalty system is rigged - it is a money making enterprise - that will do whatever it takes to protect itself and that includes bribery - over the years I have been in contact with every known group dealing with the law and anti death penalty groups - okay let me give you just one example of how my case been shaffled under the rug - in September of 1987 my death warrant was signed - and that is when the evidence proving I did not receive a fair and impartial trial began to appear (partially appear) and even though that evidence totally discredited the eyewitnesses testimony and the blood evidence - the judge denied me a full evidentiary hearing and only gave me a hearing on the sentencing issues (my State appointed attorney's allowed that to happen) The judge reasoned that even if she throw out the eyewitnesses testimony and the blood evidence - there was still the testimony of the victims two roommates - that I told them I killed Butch and asked them for an alibi and their testimony alone would have been enough to convict me ... I later found out there was another first degree murder case being appealed at the same time as mine from the same district - the Tom Sawyer case and it was receiving nations! news coverage on ABC - where Forrest Sawyer was a news anchor - you should remember him - anyway it turns out he is related to Tom Sawyer and evidence of police corruption came to light - The same detective that concealed evidence in my case in order to convict me - was guilty of misconduct in the sawyer case as well - something the judge in my case had to know when she denied me an evidentiary hearing - anyway Tom Sawyers case got thrown out because of the police misconduct and my case with even more evidence of police misconduct got swept under the rug and Forrest Sawyer lost his anchor job with ABC - who refused to help me bring what I just shared with you to light - Years later - while on the yard (outside recreation) I met Richard Rhodes and as we were talking I found he was from Clearwater, Florida too and that his case was from 1985 (two years before my death warrant was signed) and that he knew the two roommates in my case because they were the roommates of the victim in his case - I couldn't believe my ears - here was the evidence I been searching for to discredit these two people - That talked about how they cooperated with the States attorney in my case to help convict me - Now this also had to be something the judge in my case knew about when she denied me an evidentiary hearing in 1987 ,!!! I immediately informed my State appointed Attorney's of this new evidence of blatant misconduct and once

more this evidence that supported my claim - when I jumped up midway through the farce and mockery of my trial to shout I being railroaded was true got swept under the rug when the same judge switched her initial ruling and said even if she throw out the two roommates. testimony - there was still the eyewitnesses and blood evidence which was enough to convict me - and my State appointed attorney's allowed this to happen while over looking my protest ... Carla - I'm going to add a copy of this email to my blog - and I hope you will prove yourself a woman of action and help me find someone to assist me with my Artificial Intelligence project !!! Smile - time is running out and I pray you are a godsend - Love to you and for you - One Eagle
