Subject:

"A SICK SOCIETY"

By Ronald Wayne Clark Jr.

"Your no different." the title of an Ozzy Osbourne song. Its so true, and a song that makes you think. One of the lines is, "Where do I fit in, in your sick society?" Well I guess some of us don't, so you arbitrarily pick and chose who lives, and who dies in these U.S. death chambers. You judge me, hate me, despise me, yet your no different than me. Yes no different than the men sitting over there on "DEATH WATCH", counting down the last days and hours of their lives. Only difference is, your thankful not to be in their shoes, feeling your life closing in on you as each hour passes you by. Look at yourself, are you the worst thing you ever did? Think about the things you've done in secret, that no one else knows about, and your glad right now that people can't read your mind and know about those dirty little skeletons in your closet. Yes your no different than me, no different than them condemned men. I understand not being able to get past what some of these men have done. Believe me I understand! Its why I try not to know about the crimes. I therefore know the man, and not the crime, because like I said, there's a guy here who I can't look at without getting mad, because I was emotionally invested in that little girl getting found safe, and I was heartbroken when the local news broke the story, and announced that Cherish was dead. So I know the anger and hatred that you feel. I also know that's not Justice you seek, its cold blooded vengeance! Eye for eye, tooth for tooth, blood for blood curdling vengeance! But where's the equality when you arbitrarily decide who lives and dies at the hands of state sanctioned, premeditated murder? I can take you into any prison in the state of Florida and show you men, who are convicted murderer's doing 10,15,20, 25 years for a murder that's more heinous, notorious and cruel than the man sitting on death row. But for one reason or another, the State didn't want his life, maybe it was because he was too white, to rich or well connected in your sick society. And because of that the prosecutor spared his life. I can show you case after case of men on death row who was so poorly represented by incompetent counsel, that they would have been better off with no attorney at all. That's my case in a nut shell, the court appointed me a too bit hack that wasn't fit to practice law! Henry E. Davis who was so incompetent that he didn't hire an investigator to look for witnesses, to incompetent to walk across the street and look at the physical evidence in my case, "EXCULPATORY EVIDENCE" mine and my codefendants clothing that would have proven without a doubt that he shot and killed this man! Yes exculpatory evidence that the prosecutor didn't want the jury to see, so with the assistance of my incompetent lawyer they let the main evidence , "EXCULPATORY EVIDENCE, sit in the Jacksonville Sheriff's Dept evidence room, going unseen by the jury, and now all of a sudden this evidence is gone! Justice my ass! Like I said Lady Liberty isn't blindfolded to weigh the scales of Justice, she's got a blindfold and ear plugs in, as to not hear the fraudulent lies and see the false evidence and testimony that these dishonorable no good low life prosecutors and Judges are allowing! Liberty and Justice for what? ALL! I don't just don't think so, I know so!! My lying deceiving prosecutor and trail lawyer both became Judges in the Fourth Judicial Circuit in and For Duval County. My trail Judge did everything he possibly could to stall and delay this case, until they could bury and destroy that

EXCULPATORY EVIDENCE! And protect these two scumbag officer's of the Court, that were now sitting on the bench. Justice! I hate hearing those disgusting lines of Equality, Liberty and Justice for all! Because I know its a fraud! What this country did to me, its not uncommon practice! But you can bet your bottom dollar that this wouldn't happen to these rich politicians who are killing in the name of God Justice and the American Way! No your no different than me. Poor uneducated white trash that America finds no value in, and therefore finds no place for me, in your sick society! God bless America? No, God have Mercy on America and its sick society that has no love for its fellow man! God have Mercy on America and its injustice system that puts up this fraudulent facade of, Justice and Liberty for all. Wake up, take off the blindfold, open your eyes and see why Lady Liberty is hiding her eyes. See that its not to weigh the scales of Justice, but to not see the financially and racially imbalanced scales she's holding! Cause its going to take you removing your blindfold, in order to remove the blindfold that's covering Lady Liberties eyes. But how many lives will be lost before you wake up and remove that blindfold? Its up to you to fix this sick twisted society.

Regretfully Submitted Ronald Wayne Clark Jr. July 25,2026
